When the close of the war made it possible to remove some of the burdens of taxation, among the very first to receive exemption were the great incomes of the wealthy, though to this day nearly the full war rates of taxation are maintained on the laborer. The New York World revives the demand that a graded tax be laid on incomes of \$10,000, giving as the basis of its claim well-founded reasons.

The Kansas high-tariff legislature has been shocked to learn that in the state university, at Lawrence, some of the instructors in political economy are not of the protection school, and an investigation has been ordered. The same alarming condition is believed to exist in nearly all the better universities of the country. There must be new or expunged text books.

2 B or not 2 B is the question. Whether there is sober sense enough among the people of Albany to adjust the city charter question in such a way as to place the city on the wheels of progress leading on to prosperity and growth. It will be two years before another legislature meets. The charter needs amending in several particulars. Let there be a spirit of compromise.

It is noticeable that quite a number of persons who are loudly expressing opinions on the charter question plainly show that they are actuated by purely selfish or retaliatory motives. The opinions of such men should have little weight in setting the question. The interest of the city should be the ruling motive.

The city charter question excites a lively interest among the citizens of the town. It is talked on all corners and heated words are sometimes used. The question bears no resemblance to a jug handle.

**A FINE BOOK.**—Probably no book that has ever been introduced in Albany is of more real value than Cram's Family Atlas of the World. Besides a geography of the world in splendidly gotten up maps are departments devoted to history, political events, comparative debts, wealth, religious denominations, etc., in well gotten up and compact tables. Going with the work is the Geographical News, a paper giving the latest geographical events of the world. A young gentleman is now canvassing the city for this work, which deserves a good patronage.

in his new discovery for Consumption, succeeded in producing a medicine which is acknowledged by all to be simply marvelous. It is exceedingly pleasant to the taste, perfectly harmless, and does not sicken. Dr. Bosanko's Cough and Lung Syrup is sold at 50 cents by Dr. Guis & Son.

Canyon imagine an ailment that will make good natured persons so peevish, dissatisfied, ill-tempered and cranky as biliousness? There is no reason whatever, why any one should suffer from indigestion, dyspepsia, torpid liver and loss of appetite, when Dr. Henley's Dandelion Tonic, which every one knows is a certain cure, can be so easily obtained. Sold by Foshay & Mason.

Nasal Catarrh is probably one of the most disagreeable ailments that a person can be afflicted with. If Dutard's Specific is used with a douche or even sniffed up the nose, according to directions, morning and evening, a radical cure can in most cases be effected. Sold by Foshay & Mason.

## TELEGRAPHIC NEWS

### Blizzards.

OMAHA, Feb. 4.—A high wind this afternoon blew down a large section of the east wall of Max Meyer's brick building, on the corner of Farnham and Eleventh streets. The front of the building, which was recently gutted by fire, completely wrecked two buildings to the east. Five people were killed and a number injured. The dead are: Edward Oleson, Michael Martin, a laborer; Thomas Houston, a clerk; Mr. Coyer, senior member of the firm of Boyer & Co., safe dealers and Rudolph Mitchell, an insurance agent.

ST. PAUL, Feb. 4.—A cold wave is prevailing in the Northwest, and the temperature is dropping rapidly. It is now fourteen degrees below zero at Winnipeg.

### A New Plan.

PARIS, Feb. 4.—A semi-official note states that the commander of a British man-of-war recently boarded a French vessel thirty miles north of the Island of Lanzibar and outside of the blockaded territory, and took the vessel to Zanzibar. Owing to the representations made by France to the English government, the officer was punished and excluded from taking a further part in the blockade. The British admiral notified the squadron of the disciplinary measures adopted.

### A Curious Fact.

LONDON, Feb. 4.—The New York Herald, London edition, was issued here yesterday, it being the first time that a Sunday newspaper has been issued in this city.

### Stands Alone.

NEW YORK, Feb. 4.—The Sun says editorially this morning: "The effort which the California Athletic Club is making to bring Dempsey and McCaffrey together will have the effect of lifting that remarkable organization into even more prominence than it now enjoys. It seems a wonderful thing to the vast army of amateur athletes that there can be any place in a big city where sparring matches can be held with the sanction of the law. In point of fact, San Francisco is the only city in the English speaking world where boxing contests are absolutely free from police interference."

### It Would Take.

NEW YORK, Feb. 4.—The Herald says: "A young lady now in this city, who is happy in the belief that she will be one of the White House coterie for at least a week or two after 4th of March next, says that General Harrison hopes to open the inaugural ball by promenading with Mr. Cleveland."

### A Novel Swindle.

LOS ANGELES, Feb. 4.—A novel swindle came to light to-day. Dimond & Hardy's employment agency engaged about 250 men to go out to San Fernando to grade the toll road. The men paid \$2.50 each to the agency, got receipts, and presented themselves this morning to work. Then it was learned that the poor laborers had been swindled as no such job of work was in existence and Dimond had skipped with their money.

### Both Drowned.

SAN FRANCISCO, Feb. 4.—John Bailie this afternoon jumped into the bay from the Oregon Railway & Navigation company's dock, to save a man named Thomas Lennon from drowning. The latter caught him by the feet and he sank beneath the water with the man he tried to succor. It all began and ended in the space of not over three minutes and was witnessed by a number of people. Bailie was the son of the captain of the dock, while Lennon was a longshoreman.

### GOLDEN RULE BAZAAR.

Cash does a long way at Julia Bradwell's

I have made arrangements for buying goods direct from the factories in Europe and will sell at wholesale or retail, cheaper than any where else on the Pacific Coast. The following are some of my cash retail prices:

- 1/2 dozen unhandled tea cups and saucers, 35 cts.
- 1/2 dozen unhandled coffee cups and saucers, 45 cts.
- 1/2 dozen handled coffee cups and saucers, 50 cts.
- 1/2 dozen seven inch dinner plates, 45 cts.

These goods are all iron stone China and not a cheaper grade of goods. I have also added a good stock of groceries, which I ask people to call and examine and judge for themselves as to quality and prices.
