

FELL OUT.—When the Russ House bus started for the depot to meet the North bound train this noon Mr. "Doc" West, of Scio, once of Grant county, was a voluntary passenger, though he had not been stopping at the House. The bus had gone several blocks when West concluded that he had gone far enough and announced that he wanted to get out. Not hearing him the bus continued on its course, when West began shouting on the door. The clerk riding with the driver, let up on the strap which holds the door, the door opened and Mr. West tumbled out into the street in a very promiscuous manner. Falling on his left arm both bones were broken just above the wrist, Dr. Hill set them. The old advice not to get off a conveyance of any kind while in motion would have been timely in this case.

OF INTEREST HERE.—Here is an item that will also be of interest to the incorporators of the Albany & Astoria railroad. It refers to a meeting of the Salem board of trade, reported in a Salem paper: "A report was submitted and referred to the Salem, Astoria & Tillamook Railway company from competent civil engineers showing that the amount of expense of a survey of the line for 90 miles, giving a vertical and horizontal line, showing grades, distance, topography, etc., would be \$2,184." As ninety miles would not take the road from Salem to even Seaside, it is easy to be seen that just a survey alone will make the company squirm a little.

A SHELDON MAN BUYS.—Yesterday Moore & Manning sold seven acres of land on Asylum avenue to President Thos. Van Scoy, of the Willamette University, and F. M. Rinehart, of Linn county, the consideration being \$3500. This seven acres included five acres formerly owned by the Hentchel heirs and two acres from the Jesse Moreland place which were bought together with one acre on the north side of Asylum avenue in December by William Spayd, of Michigan, he paying at the time for this entire property only \$2250. He still owns one acre of land with his home, and is \$1250 ahead.—Statesman.

CURES DIPHTHERIA.—The vapors of liquid tar and turpentine dissolve the fibrous exudations which choke up the throat in croup and diphtheria. Pour equal parts of turpentine and liquid tar into a tin cup and set fire to the mixture. A dense resinous smoke arises, which obscures the air of the room. The patient immediately seems to experience relief; the choking and rattle stop; the patient falls into a slumber, and seems to inhale the smoke with pleasure; the fibrous membrane soon becomes detached, and the patient coughs up microbicides. These, when caught in glass, may be seen to dissolve in smoke. In the course of three days afterward the patient entirely recovers.

STOCK-HOLDERS MEETING.—There will be a meeting of Stock-holders of the Albany Building and Loan Association, on Friday evening at 7 o'clock, Feb. 15th, 1889, at the store of Stewart & Sox, for the purpose of organizing and electing a Board of Directors for the ensuing year. A sufficient number of shares having been subscribed. It is hoped all share-holders will be present, and all those desiring to take stock in the first "series," will do so at once or at the meeting, as the first series will then be closed. By order of Committee.

IN TWO COUNTIES.—As will be seen by our real estate column, a plat for Hobson's addition to Mill City has been filed with the recorder. It is proposed to do something in Linn county also, and Mill City will soon stretch out on both sides of the Santiam. The new addition is called South Mill City.

WHEN.—In order to settle a dispute a subscriber wishes to know when the great Portland fire occurred. It happened on Saturday, the 2d day of August, 1873. It was an event that stirred the whole northwest. The Albany fire department was sent for, but the fire was under control before its services were required.

CONTAGION.—Yesterday we gave a little girl a big sheet of blank paper. To-day like calls have been numerous. Everything, somehow or other, is contagious in this life, health, disease, good habits and giving things to school children. The DEMOCRAT hopes the influence of its columns is as contagious.

A CONCERT.—Mr. J. E. Bangs, of Heine London Musicians and Grand Concert Co, is in the city, and will be followed by Heine on Wednesday evening, Feb. 13. Mr. Bangs is member of the Oregonian's force. This concert company is said to be a talented one.

CARPETS.—Finest line of carpets ever brought to Albany just received at A. B. McIlwain's. His Brussels and velvet Brussels attract great attention, being superb patterns.

A MODEL FURNITURE STORE.

A DEMOCRAT man has been through the store of the Albany Furniture Co. now located opposite Stewart & Sox's, from front to rear, top to bottom, and is much pleased at the appearance of things. Crossen & Paisley have started out with a fine stock of goods in the right manner. As you enter is a fine stock of bed room sets, of different grades, upholstered goods, stands, chairs, mirrors, pictures, brackets, rings, window shades, etc., well arranged for display. In the rear department goods are stored for the wholesale trade ready for shipment on short notice. In the second story is a large stock of chairs, tables, extension and center, plain and ornamented, baby carriages, wool and wire mattresses, etc. Everything kept in first-class furniture stores will be found some where in their departments, and inquiry divulged the fact that they are there for sale at remarkably reasonable prices. Crossen & Paisley are live, bustling, reliable business men, and the DEMOCRAT has no hesitation in commending them to the public. Their goods speak for themselves on inspection. Although already of good proportions the firm proposes gradually enlarging their stock with the increasing growth of the city.

STATE LEGISLATURE.

Sinclair's drainage bill passed the senate, also Wager's bill for redistricting the state. The Portland water bill was passed over the governor's head in the senate by a vote 23 to 6. Looney's vagrancy bill was read second time in house and will probably pass, also Dawson's firemen's bill. Hon. Jeff Meyers introduced a new bill for the protection of contractors, sub-contractors and laborers for railroad companies.

A FINE TESTIMONIAL.—The following testimonial explains itself:

To whom it may concern, This is to certify that W. C. Negus, twenty-one years after graduating at the Royal College of Physicians and Surgeons of London, England, took a course of instruction in the Bellevue Medical College of Physician and Surgery purely for chronic diseases. And has passed a most rigid examination for which we, the faculty of said College, have awarded him the highest honor conferred in the U. S. A. and do fully recommend him as a first class M. D.
