DR. BO-SAN-KO

In his new discovery for Consumption, succeeded in producing a medicine which is acknowledged by all to be simply marvelous. It is exceedingly pleasant to the taste, perfectly harmless, and does not sicken. In all cases of Consumption, Coughs, Colds, Whooping Cough, Croup, Bronchitis, and Pains in the Chest, it has given universal satisfaction. Dr. Bosanko's Cough and Lung Syrup is sold at 50 cents by Dr. Guis & Son.

An eminent physician says: A healthy liver secretes from two to three pounds of bile every twenty four hours and disposes of this secretion where it will do the most good. Now if the liver is out of order, the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business. Dr. Henley's Dandelion Tonic rouses the torpid liver and enables it to perform its proper functions, thereby regulating the whole system. Sold by Foshay & Mason.

Woman's most faithful friend is Oregon Kidney Tea. It is specially adapted to complaints peculiar to delicate systems, and works like magic without leaving any unpleasant after effects. Oregon Kidney Tea is a purely vegetable preparation and is unequalled in Kidney and Urinary complaints. Sold by Foshay & Mason.

FOR PILES.
Itching Piles are a very disagreeable itching after being warm. This is a very delicate, Blending protruding Piles, and at once to the application Dr. Bosanko's remedy, which acts directly on the parts affected, absorbing the tumors, allaying intense itching and effecting a permanent cure. Address The Dr. Bosanko Medicine Co., P. O. Sold by Dr. Guis and Son.

BABIES.—The finest line of baby carriages in the Valley just received at Stewart & Sox's. Prices are remarkably cheap considering the superior quality of the carriages.

The vicissitudes of the Higgins Carpet Mills in New York have an interest beyond that attaching to conflicts of labor and capital elsewhere by reason of the fact that they occur at the time when, according to the declaration of the proprietors, the industrial millennium should begin for them and their workmen. The latest addition to the unpleasantness which have occurred in that factory since the election is the demonstration of the girl operatives, now out on a strike to the number of more than 1000. Arrests have followed in the cases of some of the more violent. One of the striking girls is reported as saying, in reference to the conduct of the owners which brought on this crisis: "They put on a number of extra men before the election and they told the men that every one who joined in the big Republican parade and voted for Harrison would be kept on steady at the same wages. When Harrison was elected the extra men were discharged and the wages of the rest were cut down." The fault, after all, may be only too great zeal and a too sanguine disposition on the part of the Higginses; but no one can doubt that their conduct preceding the election and their difficulties subsequently from valuable additions to the educational influences of the day.

The manufacturers of sugar from glucose and the makers of maple sugar are kicking over the senate bounty to cane, beet and sorghum sugar producers. They claim that the discrimination is unjust, and their claim for government fostering is as good as those of the others. The glucose people put their production of "grape sugar" at 550,000,000 pounds a year, and provide a market for a big lot of corn. Vermont alone produces over 11,000,000 pounds of maple sugar but it is so wedded to the paternal style of government that there should be no squirming there over its natural fruits. But the bounty business is more honest and courageous than the stealthy pocket-picking of the monopoly tariff system.

The Michigan Farmer says there is "No use trying to kill such insects as the chinch bug, gray-back squash bug, plant and bark or scale lice, with paris green or London purple. This class of insects insert the beak or proboscis into the substance of the plant and suck out the sap, hence they never get any poison."

The president has approved the bill creating the department of agriculture and immediately appointed Norman J. Coleman as Secretary of the department. Mr. Coleman is now commissioner of agriculture and a most competent and faithful official.

Wagon road bills appropriating more than \$77,000 have passed both houses of the legislature and many more are pending. This is destined to be the most unpopular legislature that ever convened in Oregon.

The West Side Telephone and Register published at McMinnville have consolidated. The new paper, as were both the old, will be democratic. We wish the paper success both politically and financially.

Morelocks bill to appropriate \$1000 to make a public park at Sodaville has been indefinitely postponed in the house. This kills it.

REASONABLE TAXES.—Reasonable over coats, coats, a large and fine stock of which has just been received at L. E. Blain's. Call early as the over-coats have begun going.

NEW COMERS.—To our city will find it to their advantage to price our goods before buying in their outfit of groceries and provisions.

TELEGRAPHIC NEWS

Blood Boiling.

SEATTLE, W. T., Feb. 12.—War has broken out again over possession of the mud flats, and it is altogether likely there will be bloodshed before it ends. A syndicate of Seattle citizens some time since, caused 1200 feet to be enclosed by piles, at a cost of several thousand dollars. Some days since P. Wickstrom, an oysterman, built a house in the middle of the inclosure, having taken up an oyster claim under the provisions of the territorial law. He was not disturbed until yesterday morning, when the syndicate began to drive piles for a wharf. This aroused Wickstrom, and last night he took twenty-five men, with guns and axes, and cut down about fifty of the piles which had been previously driven. To-night a party of oystermen, armed as last night, went to the scene of the former occurrence and started to cut down piles, but they were somewhat confused when they found a man with a Henry rifle guarding every pile.

Blaine the Man.

SAN FRANCISCO, Feb. 12.—A special to the Examiner, Dem., says: Blaine will be President Harrison's secretary of state unless he recalls a letter of acceptance which he mailed about three weeks ago. General Harrison's revocation of the matter for a long time in his mind and about the time Blaine came to Washington to live he had almost determined not to appoint him. Further reflection, however, and the importunities of Blaine's friends, led him to the feeling that Blaine would do less harm in the cabinet than out of it.

Just Like Them.

SAN FRANCISCO, Feb. 12.—The divorce case of W. H. Kinross against Annie M. Kinross is set for trial to-morrow, but owing to the fact that a settlement has been made out of court the case will probably be dismissed.

Good.

VIRGINIA, Nev., Feb. 12.—It is now estimated that the lottery amendment has been defeated by 300 votes. The anti-lottery law that for years has been a dead letter will now be enforced and probably church raffles will be prohibited, as coming under the same law.

Bound to Get There.

SAN FRANCISCO, Feb. 12.—A. L. Maxwell, general passenger and ticket agent of Oregon Railway & Navigation Company, who was in town to-day, was interviewed on the subject of what is termed here to be a secret movement of the Southern Pacific upon the Puget sound Pacific would doubtless rather get into Seattle over another company's line and make a traffic arrangement with that line from Portland to the Sound, the latter did not want to let such a powerful competitor into that section, and was trying to fight the Southern Pacific off. The Southern Pacific however, is evidently bound to get to Seattle.

Women Bicyclists.

NEW YORK, Feb. 12.—Miss Armaindo remained on the track in the bicycle race but a short time to-day. She was looking very poorly. At 4 P. M. the score stood: Stanley, 204; Balewin, 195; Von Blamen, 101; Woods, 173; Lewis, 162; Sualow, 170; Hart, 147; Oaks, 130; Armaindo, 112; McShane, 121; Brown, 115.
