LOCAL RECORD.

GETS WILD.—"We are proud of Albany as a growing city," says the Lebanon *Express*, "but we cannot rejoice at her success when it is at the expense of Brownsville. Now that both places are to have their mills, let there be a generous rivalry; there is plenty of room for both. It took Albany a whole month to raise $25,000, and the papers and citizens blowed about enough to run the factory by wind, but Brownsville raised $17,000 in one hour, and no "blowing your own horn about it." We would modestly suggest now that hereafter Albany call her mills by her own name or christen it something else, and not try to take both the prosperity and name too from her sister town." As a matter of fact the Albany bonus was practically raised in four days, and unlike the Brownsville $17,000 it was simply a subsidy. As for blowing there was very little until the matter was practically settled. Albany never has desired to get the mill away from Brownsville. It wants one of its own that is all.

B. & L. ASSOCIATION.—The regular monthly meeting was held at the office of Hewitt, Bryant & Irvine last evening. President Cassell in the chair. The usual routine business of adopting the Secretary's and Finance Committees reports, etc., was gone through with and $1000 was put up to the highest bidder, Mr. J. F. Hall getting it at 40 months interest in advance. The first series on motion was ordered kept open one month longer, when it will be closed and in due time another series opened. A meeting of the stockholders was ordered on May 27th for the purpose of amending the by-laws, changing the time for paying dues from 9 p. m. on the third Friday to an earlier hour in the day.

AN EXAMPLE.—We publish the following from the Ashland *Tidings* just to show what is continually going on in enterprising cities: "The cutting down of Main street to the established grade on the hill in front of The Oregon has been in progress this week under direction of street commissioner Patterson. It is a cut into bedrock, and blasting has been necessary, but it has been so skillfully done that few people even within a block of the place have heard a single report. The cutting down of the hill and filling to the grade below will greatly improve the appearance of the business part of town." Ditto in Albany.

A LONG TRIP.—Yesterday Rev H P Webb received a postal card from R B George, who taught a couple of classes in singing here about a year ago, dated at Jerusalem, Palestine, on March 16, it being just thirty-four days on the journey. It reached Constantinople on the 27th and came by the way of London. Prof George had been at several celebrated Palestine cities and proposes to do the whole of that celebrated country, camping out part of the time.

HO, FOR GATESVILLE.—On next Friday the Odd Fellows will have an excursion from Albany to Gatesville on the Oregon Pacific and return. A limited number of tickets will be sold to the general public commencing Monday morning. Price of tickets for the round trip has been fixed at $1.50. Tickets may be had Monday morning at Blackman's, Gradwohl's, W F Read's, the DEMOCRAT office or of C G Rawlings. As a limited number only will be sold parties should call early.

MISS HINDS.—At the entertainment Monday evening Mrs Geo E Chamberlain and Mrs E W Langdon and others will sing for the occasion. John A Logan paid a fine tribute to Miss Hinds in saying: "I have listened with much pleasure to recitations by Miss Hinds, and take pleasure in commending her extraordinary powers of elocution, and wish her the eminent success she justly merits." Tickets for sale at G L Blackman's.

THE BROWNSVILLE MILLS.—The new company at Brownsville has been duly organized with the following officers and directors: W R Kirk, President; Peter Hume, Secretary and Treasurer; J W Jager, Superintendent. Mr Jager is in Albany to-day on business connected with the mill.

ANOTHER RUNAWAY.—This forenoon the fine team of Mr Wm Barrows, of Shedd, became frightened in this city and ran away, going directly for home. It passed the depot and was met several miles in the country still on the run for Mr Barrows' farm.

The Masonic fraternity of the city will celebrate Easter by attending services at the Presbyterian Church tomorrow at 7:30 p. m. in a body. Sir Knight Rev. Webb will deliver the sermon, specially prepared for the occasion, and there will be a service of song for the occasion.

PLEASE RETURN.—Many keys belonging to post office boxes have, from time to time, been lost by parties having boxes. Parties finding such keys will confer a favor by returning them to the post omce.

A BLOODY AFFAIR.

Two Boys Fight for an Hour and a Half.

This forenoon several boys were located near Dillons furniture factory. It seems that Everett Lampman and John Talt had had some trouble, and the former boasted that Roy Bentley could whip Talt anyway, and after considerable pushing and shoving succeeded in getting them to toe the mark, no doubt assisted by other boys present. For an hour and a half young Talt and young Bentley, each about fourteen years of age, Bentley having some advantage in size, stood up and punched each other in prize fight style, striking from the shoulder, never during the whole time clinching each other, and occasionally taking a recess for a rest; then toeing the mark again and continuing the attack, until tired out. This was kept up for the time mentioned, Bently, it is said by witnesses rather having the advantage of his antagonist, though, in the meantime he had had three falls credited against him. Their faces and hands were covered with blood and their eyes blackened. It had become a brutal spectacle, on a small scale equal to a contest between Murphy and Weir, and it is strange it was permitted so long. Some one notified Policeman Hughes and he appeared on the scene, the boys disappearing down the bank. Both were arrested and taken before Recorder Henton. Bently was fined $5 and costs and Talt was discharged.

FIRE AT LYONS.

Special to DEMOCRAT.

LYONSVILLE, Or., April 20th, 1889.—Last night shortly after 9 o'clock the residence of Mrs. Susannah Fisher, of Mehama, caught fire from an exploding lamp and burned to the ground. The lamp had been lighted up stairs by Mrs. Fisher, preparatory to retiring, but returned below, the lamp exploded and the upper part of the building was soon in flames. Every effort to extinguish it proved unavailing. Two stoves and a small amount of furniture only was saved and the loss is estimated at $1250, with an insurance of $550. While Mrs. Fisher is by no means destitute, a subscription has been started for her temporary relief.

WANT A BRIDGE.—Jefferson very naturally, like all cities on a river, wants a bridge, and the people in the vicinity are using every effort to obtain one. At the last terms of the county courts of Marion and Linn counties this forenoon was set as a time for the county commissioners of the two counties to meet there and consider the matter. Judge Blackburn and Commissioner Phillips, of this county, and the members of the county court of Marion county were present, as well as three viewers, W B Culver, A Cooledge and David Simpson, from that county. The matter was thoroughly discussed, but no decision was reached. Mr Miller, the bridge man, of the Oregon Pacific, will go to Jefferson and estimate the cost of the bridge, which it is anticipated will be considerably more than the $15,000 mentioned. A bridge should be built there; but Stayton and Waterloo and other places are also crying for bridges and all should be considered.

AN OLD CHESTNUT.—Dr Rich claims to possess a gold mine, rich in mineral and a formation of rock never before known to carry gold and silver. He first secured it for a quarry. We understand that assays show the rock to carry precious mineral to the value of from $500 to $700 per ton.—Yaquina *Republican*. This is the Geo Waggoner quarry mentioned by the DEMOCRAT a year or two ago in the same light. It doesn't seem to pan out very fast though.

WANTS A NAME FOR IT.—A correspondent of the Lebanon *Express* writing from the Calapooia mines says: "H Kenton has located a fine galina ledge here and is in a quandry whether to call it the 'Lebanon Express' or after a charming widow in Albany. But they say the widows never get left, and you can make sure that in this particular quartz ledge the widow will win."

FRESH THINGS.—The Albany markets fairly bustle with fresh vegetables, such as onions, pie plant, lettuce, new potatoes, celery, cabbages, etc., but, alas, some of it came from California. We can boast of lettuce, pie plant and radishes, but cabbages, celery, cauliflower and new potatoes mostly come from our earlier neighbor on the south.

RESULTS OF WAR.—A war with Germany would increase the value of the Oregon wheat crop, but it would not increase the price of millinery at the new store of Mrs Marie Davis & Co. These ladies are doing a remarkable business at remarkable prices. Call and see the new styles and latest novelties. Everything new and of latest design.

HORSES.—Greenwood has some fine pictures of horse show on exhibition for sale cheap, at his fine Art Studio.

MARRIED.

HOUSTON—WILSON.—On April 17th, 1889, at the M.E. Church in Lebanon, by Rev. Walter M. Skipworth, Mr. Chas. W. Houston, of Lebanon and Miss Rose Wilson, of Lebanon. The wedding is reported as a very nice affair. Some valuable presents were given the happy couple, and they left for their new home at Lexington, Or., stopping off at Albany on their way there. The DEMOCRAT extends them its best wishes for the blessings of life.

THE MAN ABOUT TOWN

The runaway yesterday seems to have been caused by Ed. Schmeer riding a cay use with bear leggings. Ed is one of the best boys that ever crossed the mountains, and coming just from the succulent bunch grass forgot for a moment that he was on First street; but he footed all the bills that were presented without any kicking. The team was stopped near the city.

How spring like the weather is. Nature seems fairly to jump up and kick her heels together with joy. The hens are singing their lays and scratching the seeds out of their neighbors gardens and the frisky frogs are chirruping in the depressed places that need a direct communication with some of our sewers. Verily Oregon weather is delightful, and no where else is the cackle of the bull frog and the hen quite as delightful as in the Willamette Valley.

Eugene City is actually trying to get the Ashland Woolen Mills to move to that city. So it goes in this world. It is every man and city for itself, at everybodys expense. Albany fished for the Brownsville Mills, not because it wanted to cheat Brownsville out of a mill, but because it wanted one itself. The Man About Town, though is glad that city keeps the mill and Albany gets an entirely new plant. The more woolen mills the better. Already ours has increased the value of property more than it cost.

The Man About Town was never captivated by the famous 15 puzzle but he did get after Ike Blums 4 pigs in the clover, and after he had manipulated the little balls for several moments it was fortunate for Mr. Blum that he was not in the enraged presence of this ink slinger.

The Man About Town sees reports of the proceedings of Building and Loan Associations in different parts of the State, and none seem to have started out with the vigor and promptness that has characterized the Albany Association, outside of Portland. In two meetings $2600 have been loaned. The loans will probably average $1000 a month during the year.

The Man About Town thinks that the man who watched the fight between young Bentley and Talt for a long time, and then notified the police, would have displayed better judgment if he had stepped in and parted them in the first place. That is the old fashioned and manly way to settle fights between boys.
