

## THE HORTICULTURAL LAW.

So many inquiries have been made concerning the horticultural law passed by the late legislature that we deem it proper to place before our readers a summary of its provisions.

Section 1 creates a State Board of Horticulture consisting of six members, to be appointed by the governor, one from the state at large and one each from the five districts into which the state is divided. The counties of Marion, Linn, Lane and Benton comprise the 2nd district.

Section 2 provides the term of office of the board shall be four years, but three of those first appointed shall retire at the end of two years.

Section 3 provides that the board may employ a secretary and prescribe his duties, and elect one of their own members treasurer.

Section 4 provides that the board may receive and manage donations and bequests of money and property for promoting the objects of its formation. The board shall meet on the second Monday of April and October of each year for consultation and adoption of those measures that will best promote the horticultural industries of the state. It may send out persons to lecture on the best methods of treating the diseases of fruits and fruit trees, cleansing orchards and exterminating orchard pests, but this shall be done without expense to the state.

Section 5 provides that the office of the board shall be located where a majority may determine.

Section 6 provides that the board may suggest regulations for the inspection and disinfection of fruit trees, grafts, scions, orchard debris, empty fruit boxes or packages and other suspected material or transportable articles dangerous to orchards, fruits and fruit trees, which regulations shall be circulated in printed form among the fruit growers and fruit dealers of the state and shall be posted in three conspicuous places in each county of the state, one of which shall be at the court house in such counties.

Section 7 provides that the board shall elect from their own number, or appoint from without their number, a competent person who shall be known as "Inspector of fruit pests" who shall visit the horticultural districts of the state; to see that all regulations of said board to prevent the spread of fruit pests and diseases of trees and plants injurious to the horticultural interests of the state and for disinfection of fruits, trees, plants, grafts, scions, orchard debris, empty fruit boxes and packages, and other material, are made known to the people of the state. He shall, under the direction of the board, and on his own motion and upon complaint of interested parties inspect orchards, nurseries and other infected places and report the facts to the board. He shall report to the board the best methods of diminishing and eradicating fruit pests and fruit diseases.

Section 8 provides that it shall be the duty of the board, upon complaint that any person has an orchard, nursery, fruit packing house, store room or any other place in the state which is infected with any noxious insect liable to spread contagion to cause an inspection to be made of such premises and, if found infected, they shall notify the owner or the person in possession of said trees or places, and shall require such owner or person to make application of such treatment, for the purpose of destroying them, as the board may prescribe. Said notice shall be served by any member of the board, or any one deputed by them, or it may be served as a summons in a civil action. If such person after being notified to make application of treatment as directed shall fail, neglect or refuse to do so, he shall be deemed guilty of maintaining a public nuisance, and his infected trees or places shall be adjudged and they are hereby declared a public nuisance and may be proceeded against as such. If found guilty the court shall direct the board to abate such nuisance. The expenses thus incurred shall be a lien upon the real property of the defendant.

Section 9 fixes the duties of the Secretary and his salary at \$100 per month.

The remainder of the sections prescribe general detail duties and appropriate \$7000 for carrying out the law for the two years commencing April 1, 1889. The law went into effect Feb. 25, 1889.

The most contemptible fellow on the face of the earth, is he who borroweth and readeth his neighbor's paper, and trieth to do business without advertising in the same, but worketh ye editor for a free \$5 puff. Verily, we are not built in that manner, and if ye would be wise and prosperous in this generation advertise and divide your "filthy lucre" with ye printer, but if ye don't ye will follow a long way behind the procession in company with the little yellow dog.

The Rev. Thomas K. Beecher, of Elmira, brother to Henry Ward Beecher and well known in Illinois, proposes as a remedy for bribing voters, the payment of \$10 from the general treasury to every qualified voter who abstains from voting. The idea appears to be that wholesale bribery is safer, more under management, than bribery at retail, or in small doses.

Dr. M. H. Ellis, physician and surgeon Albany, Oregon. Calls made in city or country.

A queer case has come up in Iowa under the restrictive laws of that state which forbid the sale of liquor by a druggist except on the prescription of a physician. A woman procured and brought to a druggist a prescription for half a pint of gin. The prescription was recorded and numbered, and the bottle of gin labeled and numbered to correspond. In a day or two the labeled bottle came back and was, again and again filled with gin. Thereupon the druggist was arrested and prosecuted by the Law and Order League. Physicians testified that prescriptions held good for all time, and the courts decided its legality and discharged the prisoner, holding that there was no breach of the law and that the medical custom was superior.

One hundred dollars per day is the handsome income which the lucky inventor of the game "Pigs in Clover" is realizing at the present time. He is "in clover" as well as his pigs.
