Nothing Succeeds Like Selling Brothers.

To paraphrase a trite saying, yet it is literally true as applied to the circus business. Believing implicitly in the law of cause and effect we are led to ask "why does this firm of showmen succeed so much better than others? The answer is read in the stars—not the heavenly orbs that dot the blue firmament, but the star artist that appear in the rings on the stages, and the hippodromic track of the immense combination. Last season Sells Brothers enjoyed the distinction of having the finest show that ever traversed the iron highways. This year they have formed an alliance with S H Barrett's World's Fair, which, although it was a creditable exhibition when last it visited here, has been vastly augmented. The two shows, each complete and faultless, will exhibit as one this season, on Wednesday, June 19th, this tremendous marshalling of the wonders of the Orient and Occident will reach Albany giving performances in the afternoon at 1 o'clock and evening at 7 o'clock.

Thursday, the 6th inst., all the live stock and farming implements of Thomas Kay were sold at public sale at his farm one-half mile from here. One of his Holstein cows and her spring calf brought \$200. Prof. J. B. Horner and wife of Roseburg, were here last Friday. No one holds a larger place in the hearts of people here than Prof. and Mrs. Horner. His many friends throughout this county are pleased to know of his continued success in the profession of which he is a most thorough master. We bid them come again and stay longer.

Messrs. Weher Bros., lessees of Thos. Kay's farm took a couple of loads of oats to Albany Tuesday for which they received 43 cents per bushel. The boys fortunately sold these oats there last winter when prices were better than now.

Prof. R. Michael, of the Weston Normal school is visiting his mother and friends here.

Bryant, of your city a short time ago, we understand paying \$3500 for the same. They are going back to the land of grasshoppers, cyclones, etc., whence they came. They have been here six weeks and said they did not like the climate. Think of it.

Prof. Garland and wife, of Wilbur, have been retained at a salary of \$150 per month to teach our public school. The Prof. has been principal of the Wilbur Academy for the past two years and comes very highly recommended.

A meeting was held in the City Hall Tuesday evening for the purpose of organizing a company for placing water works in or adjacent to our city. We here have wonderful natural advantages for having a perfect system of water works and it is to be hoped our citizens will take right hold and establish the same forthwith.

Dr. R. H. Carl and family arrived home Saturday after an extended sojourn in Eastern Oregon.

The dyer for the Eagle Woolen Mills Company arrived Saturday, and work was begun in that department of the mills Monday. The travel hither is continually on the increase. Strange faces are beginning to be numerous, and property is changing hands more frequently. Coshov & Sons made two sales Monday, and others are on the way.

R. G. Cochran through his agents sold his Albany property realizing the neat little profit of \$200, within two months on a \$650 investment. He immediately re-vested in property here, buying the residence of Dr. Starr, paying \$750 for the same.

Mrs. Turner's farm near Crawfordville consisting of 520 acres was sold by our real estate agents to a Mr. Russel. Consideration, \$3500. Still there is room for more.

Since our last writing the Narrow Gauge took another start and managed to make a round trip every two days. Monday they started trains from both ends. The down train however met with a mishap the other side of Silverton. The engine in trying to perform some gymnastic made a false step and fell on its back. The south bound train came up as far as Scio and its engine went back to pull its comrade out of the ditch.

MILL CITY. The people of Mill City are very much pleased with Mr. ——— for extending his stage route from Mehama to this place. We now have a daily conveyance between here and Albany and Salem. He will leave Mill City at 5 o'clock in the morning.

Mr A P Miller, of Plymouth, Ind, came to Mill City Wednesday, and thinks of staying here for some time. Mill City is known in the east and the fact that it is an enterprising town, yet in its infancy, is also known.

Al Carrell and his dog Berry are to be pitied. A few weeks ago Berry was hopping around on three legs, his fourth one being accidentally stepped upon and was nearly broke. Now Al is hopping around on one leg, his second one having received an ugly gash right above the instep with a chisel. Berry is all right again and Al is getting there slowly.

A sign made its appearance on the Santiam Lumber Co's building prohibiting smoking in the mill and in the lumber yards. It must seem queer to a few of the firm to obey these orders.

By getting a few lemons and a little sugar and quarter to Tom Sim's spring, about a going of a mile above town, a party can spend a few pleasant hours these warm Sunday afternoons. I know this to be a fact, because I was with a party who were there last Sunday.
