LOCAL RECORD.

MUST KEEP OUR EYES OPEN.—Any railroad project with a view to connecting Astoria with the Southern Pacific's line of railroads must necessarily suggest Albany as the junction point. At the same time other things are possible. The road might be extended from Corvallis to Junction and a junction made farther north. The Situation behooves Albany to at least be on the outlook. If the S P takes hold of the matter it will go with a rush, and when it does go it will mean a great deal for Western Oregon. There are indications that the time will come when vessels will be laden at Astoria instead of at Portland, and it will be an important matter to be on the line of road that leads to the former city. Being at the junction of the Oregon Pacific, also destined to be a transcontinental line, Albany now has an advantage for the junctionship of the Astoria road that it must not lose sight of.

A GOOD REPUTATION.—No Insurance Company in Oregon is run in a more careful, conservative manner than the Albany Company. Its business is increasing and it is becoming more solid every month. It is managed by an insurance man and its prospects are now remarkably flattering. The recent Seattle fire has brought up the status of insurance companies in a strong manner, and it is a matter of local pride to know that the Albany Company gets a good reputation. It is a greater institution for our city than many appreciate. With annual receipts this year that will probably reach $90,000 to $100,000 its importance can readily be appreciated. In these times of big fires it is pleasing to know that no chap hazzard business is done, but a safe, conservative course is taken.

THE WATER WORKS.—A DEMOCRAT man was shown the new pumps for the water works by Mr J A Crawford to-day. One of them alone is on a base of thirty thousand bricks, and with a ten inch pipe will make the whirlagigs of the city buzz. The other having the same capacity will unite in giving Albany the best water works in the Valley. The water will be brought in pipes from the Santiam and may be depended on to be of a pure quality. Mr Crawford is sparing no expense to give Albany a water system second to none.

A WIFE BEATER.—Sheriff Sloan was called on last Saturday to arrest Van Altine, a natural hilk on a charge of beating his wife. He resides south of town on the road extended from Willamette street and Saturday got a little whisky aboard and then proceeded to do up his faithful spouse. She caused his arrest and he was given a trial before Justice Henderson, who sentenced him to twenty-five days in the county jail.—*Register.*

THAT AWFUL BAR.—There is not one single mercantile man in the city of Astoria, from Smith's point to Alderbrook, but who is opposed to having the Columbia river bar published all over the world as the most terrible bar in the world just to gain a point for a few pilots, when it is well known by experienced men that it is about the safest bar in the world.—*Transcript.*

MILL BURNED.—Between four and five o'clock Wednesday evening the old flouring mill of Josiah Johnson at Independence was burned to the ground. The fire is supposed to have originated from sparks from the sawmill, which is a short distance from it. The mill had not been in use for a year or more, and the loss is not so great as it might have been.

SHE COULDN'T SEE IT.—"Not much," says she, "you don't catch me cooking this hot weather, when I can get those delicious lunch goods, such as chipped beef, soused pigs feet, spiced sardines, deviled ham, cream cheese and all those nice eatables at the Willamette Packing Co's store."

BIG INSURANCE SUIT.—A suit for $10,000 has been brought against the Northwest Insurance Company by the proprietor of the Monroe flouring mills burned sometime ago. The Company carried the whole amount alone without any reinsurance and will have it to stand alone should it be defeated in the suit.

SOCIAL AND PERSONAL.

Mr Pete Hume, one of Brownsville's solid citizens, is in Albany to-day.

Mr Chas Mueller left this noon for Waterloo on a two weeks outing for health and pleasure.

Mrs Piper and children, Grace and Fred, of Salem, are in the city the guests of Mr E W Langdon.

Maj. George Stronge is in the city and proposes to locate here for good and run a market on a small scale as he did years ago. There's no place like Albany.

Mrs Hendrex, wife of Dr Hendrex, who has been visiting her daughter, Mrs Davis, in this city, returned home last evening accompanied by her daughter.

DON'T SELL IT.—The question of selling Albany's hand engine is one that may come up before the city council at some future meeting; but we predict the council will not order it sold. There is a strong feeling here among old citizens particularly to keep it. It has done much good work for the city of Albany and should not be disposed of. It is in good condition now, and only needs men to man it to be first to get water on the flames that would destroy. It has saved serious fires unnumbered in Albany by its timely action and can continue to do so. No steamer can get water as quickly. Mr M E Brink, secretary of the board of fire delegates, will make a canvass for a company to man it and should succeed. Let it be used to do its work as in the past at the beginning of a fire and then retire and let the steamers do the work. When water is needed most is at the beginning of a fire and the old engine has always been to the front, and with men to run it will be in the future.. Don't sell it. If the city needs hose let it buy it in some other way.

ASHLAND.—The Building and Loan Association made the following loans at Monday's meeting : M R Moore, $225, thirty-seven months, interest in advance ; T O Andrews, $400, thirty-seven months interest in advance ; and A S Hammond, $363, eighteen months interest.... J T Flinn, of Portland, representing the town site of Grant's Pass, was in the city Saturday. He is negotiating for an excursion from San Francisco to Southern Oregon towns.... A short time ago miners working the Sunny side claim near Downieville, Sierra county, took out four large gold nuggets. The largest weighs 181 ounces, and is worth $3200. In shape and size it resembles a small cobblestone. The other three nuggets weigh 70 to 80 ounces each, and are worth nearly $3000.—*Record.*

PENDLETON. — Nineteen carloads of freight were received at the depot to-day for Pendleton, the receipts being $1000. This is hardly more than the usual average, and is a fair criterion of the amount of business done by Pendleton merchants. .....J H Turner has accepted a bet of two to one offered him that the wheat crop will not be the largest ever raised in Eastern Oregon. Mr Turner has lots of confidence in the country.....Several boys who have violated the curfew ordinance have been given a berth in the city skookum house, working a wholesale fear in the minds of other urchins.—*E. O.*

THIRTEEN DAYS IN JAIL.—Mike Schlosser, an account of whose arrest was given yesterday, was taken before Recorder Henton and fined $20 for resisting an officer, and $5 for being drunk and disorderly, and costs. In default of payment of fine he was consigned to the city jail for thirteen days.

CORVALLIS TO ALBANY.—On July 4th the fare for the round trip between Corvallis and Albany will be fifty cents. The first train will leave Corvallis for Albany at 8 a. m., the second train at 10 a. m Returning, will leave Albany at 6 p. m. and 9 p. m. The tickets will be sold on the 3rd, good for return to and including the 8th.

THE 4TH.—The 4th of July committee will meet to-night and make final arrangements for prizes. There will be twelve hours of steady work and if the whole business is seen it will take a multitude of eyes.

M'LISS. — The Georgie Woodthorpe troupe played M'Liss last evening to a large audience, giving a fine entertainment, in which some excellent acting was done. To-night Fanchon the Cricket, and to-morrow night the Two Orphans.

TO-MORROW.—Pay your dues to the Building and Loan Association before to-morrow evening. Afterwards it will cost you ten cents a share extra.

BET YOUR BOOTS.—Pipes, of the Benton *Leader* while in Albany the other day witnessed a marriage at the Revere House, and gives the following graphic account of it. "The happy couple were from some rural district in Linn county. While the bride was making her wedding toilet the poor impatient groom kept pacing up and down the hall repeating these words o'er and o'er, "I wonder if she is dressed ? I am awful anxious to see her." About two hours after the appointed hour the bride made her appearance, and joined the expectant groom, and they immediately took their places on the floor, to be made man and wife. Just as the Justice was about to proceed with the ceremony, the groom concluded that he was on the wrong side of the lady, and went around on the other side, whereupon the Justice told him to get back on the other side. After the ceremony was over they were seated, and the young husband to break the silence, asked the bride if she was glad that she was married, when she unhesitatingly replied : "You bet your boots I am."

DON'T.—Don't patronize quack doctors. Don't go away from home to trade. Don't let the moss grow on your back. Don't be afraid of a few cents for the public good. Don't try to take advantage of a new comer. Don't charge a dozen prices for a thing. Don't let your youngsters run on the streets nights. Don't be a clam.

P S.:—Don't let the man with the non-explosive article for kerosene lamps take you in. It is N G, particularly the price.

A POOR LECTURE TOWN.—Col Copeland, who lectured here Tuesday and Wednesday nights must not have a very fine opinion of Corvallis, says the *Leader*. The first night, he had an audience of about twenty-five persons, and the second night only thirty were present. He decided not to lecture Thurday night as advertised.

TO THE MINES.—Prof S A Starr and A S Huntley, of the Eureka mining company, started yesterday with a force of seven or eight able bodied young men and the necessary supplies, to commence active operations in their valuable claims in the Santiam mining district.—*Statesman.*

TO A WARMER CLIMATE.—"I've lived here thirty-five years," said an old timer on First Street, "and in about twenty five years I may conclude to go to another climate, not till then." "Probably a warmer place," said a by-stander.

WEATHER INDICATIONS.—For the 12 hours beginning at 12 o'clock, noon.

Fair, nearly stationary.

Just to please the *Transcript*, of Astoria, we will remark that there is not a hack in the whole city. A bad state of affairs for a place of its importance.

It was reported that fifty circus men struck at Corvallis yesterday, and that no tents were up at 12 o'clock; but the matter seems to have been compromised, for two exhibitions were given.

Mr Wilcox and wife of the C & N W Photo Co, left this noon for Jefferson where they will remain a few days, finishing up their Albany pictures, when they will go to Portland and pitch their tent.

Without an exception the best place on the globe to start a paper mill is Albany. We have a beginning for a big manufacturing city that we should keep pushing forward.

The Roseburg *Review* and Umpqua *Herald* have been consolidated, and the firm name now will be Bell & Flood. It will make a strong paper, and with an enlarged hatchet the *Plaindealer* will now please look out for certain.

The regular monthly meeting of the missionary branch of the Vineyard Laborers of the Baptist church will be held to night at the church when an interesting program will be presented A cordial invitation is extended to the public to be present.

The fishing season of 1889 has thus far been remarkable for one thing, that is no lives have been lost as yet. This record is without a parallel since the industry was started, as during every season heretofore, drowned fisherman were to be seen at the morgue so frequently that their presence barely excited comment except among acquaintances.—*Pioneer.*
