LOCAL RECORD.

A CAR LOAD.—Fortmiller & Irving receive their furniture by the car load. Another one is just at hand, loaded with a finer stock of goods than ever before, showing an increasing demand for first-class goods in the Albany market. Elegant bed room sets; about one hundred extension tables, with some new and solid designs, and book cases of fine architecture are stored in their warehouse ready for putting together. A line of elegant parlor sets was a part of the shipment. A rich solid mahogony, parlor set, one of the finest ever brought to the city now graces Dr. Maston's residence and another beautiful set C E Wolverton's home. Some elegant sets are in their store room ready for inspection. A large stock of new designs of moulding is a feature in their store. Nothing like them ever before seen here. A new thing is the towel ring, of which they have a stock. Be up with the times and get a few. Fortmiller & Irving propose to keep a line of goods in keeping with the growing city of Albany and are always ready to show what they have.

LUCK.—A prominent farmer north of town is down on his luck says the Pendleton *E. O.* He was just ready to harvest and had engaged his men before the recent rain. He fed and lodged them during the rainy days, and when Old Sol again appeared and he was ready again to begin harvest, the hands left. They had had free board and lodging for several days, which was all they wanted.

NOT INSANE.—Young Wade, who was sent to the asylum from Jackson county recently, has found an opportunity to follow his mania of horse stealing, in spite of the asylum authorities. He filed his way out of the asylum one day last week, went to Jefferson, stole a horse, and sold it in a neighboring town before being recaptured. The asylum authorities after taking him in again sent word to his father that he was cured and should be discharged.—*Tidings.*

MUMMY WHEAT.—Last fall the McMinnville *Register* published an item concerning the mummy wheat, the experimenter being the editor. The wheat is claimed to be genuine, the grains being found in the wrappings of a mummy which was estimated to be at least 2000 years old. The grains planted are growing, and it is thought will produce mummies.

ACCOUNTED FOR.—Senator Mitchell is out of town, and office seekers will save wear and tear of muscle and shoe leather by not visiting the Esmond till he returns, perhaps Sunday.—*Telegram.* This accounts for the very pleasant conduct of Senator Mitchell while in Albany.

A GOOD EXAMPLE.—The cows have gone and Dr G W Maston, with his usual enterprise, has torn down the fence around his handsome residence on Lyon street and terraced the lawn, presenting a nice front and making the place an ornament to the street.

MARRIED.—At Scio, on July 3rd, 1889, Mr. Geo M DeVaney and Miss Addie Bilyeu. The DEMOCRAT extends the happy couple its best wishes.

SOCIAL AND PERSONAL.

W B Scott is in town.

Mrs Dr Dodd, of Scio, is in the city.

A fine time was had at Brownsville on the 4th.

Mr Henry Burmester, of Fish Lake, is in the city.

Mr G L Blackman took a business trip to Portland to-day.

Mr W E Price, of Ashland, formerly of Scio, is in the city.

Mr C J Stewart and family, of the O P, left for the Bay to-day.

A B Seal leaves this evening on the S. P. train for a three weeks trip to San Francisco.

Mr Chester Skeels left a day or two ago on a several months' trip to Eastern Oregon.

Mrs J H Townsend and daughter, of Portland, are in the city, the guests of Mr L E Blain.

Mr Mack Merrick, of Toledo, formerly of this city, has been here for a day or two, for the first time for several years.

The family of Mr Elderkin, accompanied by Miss Hattie Ross, left this noon on the O. P. for Newport, where they will sojourn for a number of weeks.

Dr Frank Ballard, after graduating has decided to locate in his former home Lebanon, where his father was so well and favorably known for many years.

A very fine banquet was tendered Governor Pennoyer, Hon J H Mitchell, Hon M C George and the staff officers of the 21 regiment in the city, at the St Charles hotel 4th of July night.

Mr W L Jester, with his mother and sister left last evening by way of the S P and Union Pacific for his old home at Princeton, Ill. Mr G P Jester will run the S. P. office during his absence.

Mr D S Smith has retired from the sheriff's office, after a residence there as sheriff and deputy of six or seven years. There are few men in Oregon who know more about the business of the office than "Vanny."

THEY FEEL GOOD.—The Salem *Statesman* talks about the steamer contest as follows: "Salem has no particular desire to boast over its neighbor, Albany, upon the successful issue of the contest between steam fire engines, but there is a good deal of consolation in knowing and feeling that the capital city has fire engines capable of doing powerful and reliable work in case of need. Albany's engine is of the Clapp & Jones make, scarcely a year old and has been considered the crack engine of the State up to the time of this contest. The Capital engine is of the La France make, same size, class and apparent power as the Albany engine, both having double plunger pumps. But it appears that when it comes to absolute service, the Capital gets to the front with ease. Both Companies laid 250 feet of single line hose. The Albany boys threw the first stream with an 1⅛ nozzle, making a throw of 238 feet 8½ inches and were followed by the Salem boys with an 1 3-16 nozzle, making a throw of 268 feet 8½ inches. The pressure of each engine was 100 pounds. The Salem boys feel proud of their engine and are open to competition from any engine on the North Pacific coast." The distance thrown by the Salem engine was 259 feet instead of 268 feet 8½ inches. The mistake arose from the fact that the nozzle of the Salem hose was nearly ten feet ahead of the Albany nozzle and the ground was not remeasured.

FINGERS IN EATING.—A young man of Albany who uses his fingers in eating desires to have the following from a reliable authority published: "The list of things that can be eaten from the fingers is on the increase. It includes all bread, toast, tarts and small cakes, celery and asparagus, when served whole, as it should be, either hot or cold; lettuce, which must be crumpled in the fingers and dipped in salt or sauce; olives, to which a fork should never be put, any more than a knife should be used on raw oysters; cheese in all forms and fruit of all kinds except preserves and melons. The latter should be eaten with a spoon or fork. In the use of the fingers greater indulgence is being shown, and you cannot, if you are well bred, make any very bad mistakes in this direction, especially when the finger-bowl stands by you and the napkin is handy."

LEBANON.—There was considerable excitement Wednesday over a fight between C Case and Charles Compton, who got into a quarrel and went outside the city limits and had it out.... Mr C B Montague left last Tuesday for Vancouver. Mr Montague owns considerable property up there which he has gone to attend to....193 tickets were sold from this place to Albany for the celebration. A great many went down in private conveyances....Our hose team got the second prize at the race yesterday in Albany and would have gotten the first if the boys had staid off of the hose. One of the time keepers told us that when the coupling was made that they had over two seconds to go on, and two others standing by said that they would swear that they saw some of the Corvallis boys on the hose.—*Express.*

NEED AID TOO.—The Ellensburg fire was comparatively a greater loss to the city than the Seattle fire to that city. On account of the enormous rates very little insurance was carried, hence the loss will be a burdensome one. Among the losers was Dr Henton, brother of Recorder Henton, of this city, who lost property valued at $30,000, with only $12,000 in insurance.

HE SWORE.—The ties for the switch on the street railway on Lyon street have been laid, and are not yet ballasted. A night or two ago a farmer drove on to them in the dark, and the air is said to have been blue with curses about our rough streets.

A SALEM FIRE.—The fine residence of Hon Edwaod Hirsch, at Salem, was entirely consumed by fire last evening. Loss, $2500. But for poor water service the building could easily have been saved, says the morning paper.

BABIES.—The finest line of baby carriages in the Valley just received at Stewart & Sox's. Prices are remarkably cheap considering the superior quality of the carriages.

A SHARP ITEM.—The finest line of cutlery and shears in the city at Stewart & Sox's. Their goods are the very best and will stand the test.

THE MAN ABOUT TOWN.

There is always a calm after a storm, and the same may be said in reference to the 4th of July.

Really the crowd is what makes a 4th of July celebration. Like circuses, though, a program is gotten up to draw. If it is a good one it takes business qualities to manage it, and it is a fact that even a very mediocre program will be appreciated if pushed through on time, while a good one will be kicked into splinters if allowed to run itself and half is left out. A city, for its own reputation, deserves to have a big celebration managed in banking style, for it is generally the place that gets the heel prints.

As nearly as the M. A. T. can learn there were just ten thousand people present at each of the celebrations in the Northwest on the 4th

It is a very serious question to decide whether to go to the mountains or the sea side for a summer vacation. Soda water or sea breezes, which?

It looks as if all the fires were taking place in Washington territory, but that is the way things run. In the mean time it pays to be on the safe side and keep our three engines oiled, our hose in good condition, the water supply high and be careful of matches. An ounce of prevention is worth several pounds of cure, and this is a good rule for Albany, by the way, one already being followed. Our splendidly equipped department may have an influence in frightening fires off in the first place.

HOT WEATHER ITEMS.—Keep cool. The finest refrigerators in the market at Stewart & Sox's. Buy one now.

All sizes of ice cream freezers at Stewart & Sox's. Purchase one and manufacture this delicious dish at home.

L. Martin begins shipping peaches this week, taking to Portland with him yesterday 100 boxes of fine Early Alexanders which average about 4¾ inches in circumference. Mr Martin has bought the crop of O Coolidge and J T Rogers, and will have some of the finest peaches in the State to ship this season.—Ashland *Tidings.*

George Rogers has commenced work on the first issue of his new weekly democratic paper, says the *Journal*, to be cast upon the waters as bread for hungering democracy. He has unwisely named it the *Capital Democrat*, thus infringing upon the name of *Capital Journal*. Mr Rogers celebrated the 4th by putting in type his salutatory and leading editorial.

A total of four million dollars of contributions to the aid of the Johnstown sufferers is one of the best evidences that selfishness is not the only motive that controls society in these days. It may look a good deal as if that was the most powerful factor in commerce during ordinary periods, but occasionally evidence to the contrary comes in the disguise of a calamity.
