LOCAL RECORD.

FROM ALBANY ITS NATURAL COURSE.—This morning surveyor W. B. Barr, of Albany, began the work of running the preliminary survey of the recently incorporated Albany & Astoria railroad company. This company propose connecting with the Astoria & South Coast line for the Willamette Valley. At Albany they will have connection with both the Southern and Oregon Pacific. This reminds the writer that Salem has an incorporation, the object of which is to connect with this Astoria road. They were to raise money for the purpose of making surveys, but it has been several days since anything has been said about the matter. Nothing has, as yet, been done. It is high time the survey was made, for if Salem really wants this road she must rustle for it and that very soon, else it will be diverted from its natural course.—Salem Journal.

MORE REMARKS.—The Denton Leader has the following additional remarks to make about our celebration: "A remarkable thing about the celebration in Albany was the absence of drunkenness. We saw only one fellow who could be said to be drunk. He was weaving his legs along the street in the evening in the charge of a companion, and he said as he passed us, 'My father gave me fifty dollars this morning, and I haven't got a cent.' The Albany papers were a little bit sarcastic because the program on the 4th was not fully carried out. But it was really almost impossible to manage the crowd. Delays were inevitable. The difficulty in this and all big celebrations is in not having a place where the people can see. Every town ought to have a park prepared and arranged for exhibitions."

WANTED A RIDE.—A very laughable incident occurred on the picnic grounds at Brownsville Sunday evening a short time before the beginning of the afternoon services says our correspondent. A young man and his best girl being desirous of taking a ride and not having a conveyance concluded to borrow one without asking the owner. They untied a beautiful white horse, got into the buggy and started on the coveted ride. They had barely started when the owner of the horse, from out the crowd about the speakers stand, fairly yelled: "Bring back that horse." They halted, turned slowly around, drove the horse back to the place where they got him, and without looking toward the three hundred pairs of eyes that were fixed upon them perambulated toward the city.

RULE NO. 1.—All parties are positively forbidden from sprinkling or wetting lawns, gardens or streets except from 5 to 8 o'clock A. M. and from 5 to 9 o'clock P. M. Sprinkling or wetting first street is positively forbidden at all times, between 150 feet west of Washington and to Montgomery streets. The penalty for breaking said rule is the water will be turned off without notice, and before you can get it again it will cost you two dollars for shutting off and turning on said water.

A CANARD.—In these days of excitement over prize fights, it is rather too bad to wipe out a reputation in that line, but really Thos Kay declines to accept the honors extended to him by the Albany Herald, which declares he was once the middle-weight champion of England and carries a handsome champion belt. Mr Kay says he never was a prize fighter and never had a champion belt. He may have had a few scraps in his young days, but he was never a professional fighter.—Salem Statesman.

A WET ITEM.—Mr. Crawford, of the Albany Water Works informs the DEMOCRAT, that consumers of water abuse their rights by using water at all hours day and night. Though a million gallons a day is now consumed on second and third stories of buildings the pressure is hardly sufficient, though for lawn purposes there is sufficient. More care should be observed, else some day our citizens might have to pay for the water used, and then the whiff of a would stop nights and in the heat of the day. See notice elsewhere.

RECENTLY IN MONTANA.—Mr. Roy Raber, a Corvallis mining expert, has been in the city. Mr Raber has recently been in Montana and reports everything dried up, and no work being done in the mines. Where there was an output of \$40,000,000 last year, there will be practically nothing this year. An old miner, who had been from Lower California to Montana and done the whole business, very knowingly remarked that if a mine is a good one it needs no "blowing up." It is the poor mines that are shouted about. Mr Raber has invented a mining machine which is said to be a fine thing.

HAY WANTED.—Mr. L. Senders, of this city will buy all the clean timothy hay brought to him in tightly compressed bales, for which the market price in cash will be paid. Deliver at stables.

A BIG MILL.

Capt Stone, representing the Pacific Land Co., an immense syndicate of Michigan capitalists, a member of which is the millionaire Governor Alger, is in the city in the interest of the company. The company now has three large mills running in Washington Territory and proposes erecting three as large ones in Oregon. One of these is to be built on the Santiam, just where is not yet known, but probably pretty close to the Oregon Pacific. Capt Stone, who is a shrewd man and keen observer and knows the business thoroughly, says the Santiam offers one of the grandest water powers to be found anywhere, one of unlimited power, a fact Linn county people are to be congratulated over. The mill buildings will cover a space 600x900 feet, and will have a capacity of 600,000 feet a day, making it the largest mill in Oregon. It will take a twelve double engine or 1300 horse power to run it, and will in connection with the business, require the services of several hundred men. The plant will represent several hundred thousand dollars in money. Albany will be the headquarters in the valley for the enterprise. Where the other mills will be erected we do not know, but perhaps the Calapooia will get one and the West Side another.

PAYMENTS.—An Albany gentleman has handed in the following on a subject that is of interest to the city of Albany: "Professor Newberry, of Columbia college, has been studying the subject of pavements for cities, both in this country and in Europe. He has found that the asphalt pavement, made of the Trinidad asphalt, is the best of all. He declares it to be the pavement of the future, and says: Its excellency, cleanliness, silence and salubrity are so apparent, that no argument is now needed to enforce them, and to these may be added, and placed first on the list, economy; for it costs as little and lasts as long as any other good pavement, and is much less trying to horses, vehicles and human nerves."

PATRONIZE HOME INSTITUTIONS.—The young men who were in Linn county several months ago, representing the Wrought Iron Range Co. of St. Louis, are now doing Umatilla county. The East Oregonian says they are sharpers and swindlers; but are doing a big business. The DEMOCRAT would like to hear from some of the many in this county who invested when they were here as to the merits of the range and the price paid. The safest way always is to patronize home merchants, not only in buying ranges but everything else. Don't be taken in by every stranger that comes along.

DIDN'T SUCCEED.—A day or two ago Mr Jacob Zimmerman, a wealthy East Portland rancher, tried, in company with a bunko sharp, to beat another bunko sharp out of \$10,000 which he claimed to possess, resulting in Mr Zimmerman's losing \$2000 in hard cash. Old citizens who have lived quite peaceable lives should not try to beat bunko sharps. It is naughty business. Several in Linn county always think they are sharp enough when the circus is here.

GIVE US SALEM ALONE.—Salem is to be illustrated in the West Shore in a month or two. We suggest that this be a Salem number and not a state building edition. Salem has plenty of good buildings of her own without appropriating all the state buildings. Albany and Portland own them as much as Salem.

A FOLDED TENT.—J F Ellis, who has been holding a holiness camp meeting just across the river, has "silently folded his tent and stole away." The people of Linn county became so indignant at his abuse, that they threatened to tear his tabernacle down and set fire to it if he did not seek other fields. We understand he has gone to Newport.—Corvallis Times.

SEWER BUILDING.—Bids were opened last night for two new sewers in Salem. On the Marion street sewer they ranged from \$11,110 to \$14,534 and on the Ferry street sewer from \$6,800 to \$13,260. Evidently somebody didn't know what he was about.

SUNDAY CHICKENS.—We will have a fine lot of spring chickens to regale yourself and friends with on Sunday. Call early and leave your orders. We will also have a nice lot of potatoes, fresh vegetable, choice butter, etc.

WILLAMETTE PACKING CO.

A NEW TOWN.—Constable Wm. Harper informs that the surveying parties on each end of the Oregon Pacific line met at what is called Sagebrush Butte, in Harney Valley, and staked off a town on top of the butte. A well that was sunk there produces an excellent flow of salty water.—Baker City Reville.

Tubbs & Co's pure Manila twine, best quality, at Stewart & Sox's.

A B Woodin and W E Kelley are in Portland attending the Grand Lodge A O U W, which convened at 10 o'clock this forenoon.

BEETING.—A fine line of rubber and leather belting kept constantly on hand at Stewart & Sox's. All required sizes in stock.

BARBERS.—The finest line of baby carriages in the Valley just received at Stewart & Sox's. Prices are remarkably cheap considering the superior quality of the carriages.

TEMPERANCE COLUMN.

Edited by Albany W. C. T. U.

At the regular meeting of the Union on Tuesday the financial report of the 4th of July work was made. The gross receipts were \$301.75, expenses, \$66.45, leaving a balance of \$235.30. The ladies of the Union are quite satisfied with the result, although a number of them were quite worn out when the day was over. Notwithstanding the great rush and immense numbers which crowded the hall, all were well served, special attention being given to the militia and firemen. So far as known, the entertainment provided for the guests gave entire satisfaction.

The members of the W. C. T. U. are especially grateful to the friends who assisted them in the labor of the day. There were quite a number of ladies who are not members of the Union, who gave their time and strength unsparingly, and several gentlemen also rendered great service. To these, the ladies of the Union return sincere thanks. Also to the many who contributed so liberally to the dinner. Also to the ladies and gentlemen who so kindly volunteered to gather up and take to the hall the many cooking utensils and other articles necessary for the day's work. All these acts of kindness the Union will hold in grateful remembrance.

The proceeds of the dinner added to the amount already in the treasury will enable the Union to make a payment of \$250 on the hall.

Mrs. J. H. Townsend, the former President of the Union, was present at the meeting on Tuesday afternoon. She was also with us on the 4th. It seemed like old times to see her in our midst, with her apron on, her sleeves pushed up, tea towel in hand, making a clatter among the queensware. She gave an interesting account of the work in Portland and of the Refuge Home, and urged that a committee be appointed to co-operate with the board in bringing to the home such persons as can be induced to accept its protection. We hope to see Mrs. Townsend with us frequently. The Albany W. C. T. U. will ever hold her in grateful remembrance, and extend to her a cordial welcome at all times.

Let the friends and workers in the W. C. T. U. and Sabbath schools, bear in mind the excursion to Corvallis on the 30th, to hear the eminent Sabbath school worker, Wilber F. Crafts and his wife. He will lecture in the evening on "Sabbath Observance," and both of them will talk in the afternoon on Sabbath School work in general. Mrs. Crafts is celebrated as a chalk talker, and will no doubt present many practical points for the teachers in our several schools.

Conundrum.—If prohibition worked so admirably in Seattle for three weeks after the fire, also in Johnston and other places, why will it not prove satisfactory if continued? Echo answers, Why?
