 and is considered as healthful

 ould come to the front and

COLLECTING GRAINS.—Mr Parker, representing the Oregon Immigration board of Portland, has been in the city and surrounding country, collecting cereals and grasses for several exhibition cars to be sent from Portland on the 15th of next month, to exhibitions at Philadelphia and Buffalo and a state fair at Detroit. Mr Ashby, of the Oregon Land Company took him out into the country and assisted in making a collection for this county, one, though small, that will do credit to this part of the valley. Mr Parker had been as far south as Ashland, and reports small crops of grains, though the fruit outlook is good. Cereals improve as the journey northward continues, until Linn county is reached. The outlook here he pronounces comparatively remarkably good. These exhibit cars will attract considerable attention and our Linn county people should make it a point to have their interests represented on all such occasions. Linn county is big and important enough to send a whole car load of products east alone, and should do it. All it costs is the collecting and a man to attend to the exhibit.

HAIR PINS.—A young man recently filled by his best girl says there is scarcely anything women cannot do with a hairpin. They use it to pick their teeth, button shoes, clean finger nails, punch bedbugs out of cracks, fasten up stray bangs, clean out the stem of their husband's pipe, scratch their heads, run it into cakes to see if they are sufficiently done, and about one million other things the poor deluded men know nothing about, and they do it all with the same hairpin too.

A DEFECTIVE TITLE.—One Chris Dunbach, bought a Linn county farm some time ago, and recently sold it to a Kansas man named Croft. Dunbach claimed to be single; but now comes to Albany a woman claiming to be his wife. If true she has a dower interest in the property, and Mr Croft's deed would be much more valuable if her name were signed to it, if she proves to be Dunbach's wife.

SOME DIFFERENCE.—From the amount of independence displayed by Oregon Celestials it can hardly be realized that the following prices prevail in China: "A farmer may be hired by the year for from \$8 to \$14, with food, clothing, head shaving and tobacco, those who work by the day receive from 8 to 10 cents, with a noon day meal. At the planting and harvesting of rice wages are from 10 to 20 cents a day without food."

FOURTEEN MILES BUILT.—Mr Stewart, who was interested in a four mile contract of grading on the Astoria & Coast R R, is in the city and reports fourteen miles of the road to Seaside completed. This leaves fifteen or sixteen more miles to be built, and it is expected that it will be done this year, as the money has been raised and the contract is to be let. People there are becoming jubilant over the prospect of a rail connection with the valley, and as a result real estate sales in Astoria are beginning to boom.

A BURGLARY.—Some time last night the Oregon Pacific depot was broken open by one or more strangers who have been making a transient residence of our city, and several very unkind and unchristian acts were done. Among others forty nickels belonging to the company, and the only money in the office, were appropriated. Two trunks and a valise were broken open and the things scattered, evidently with a view to getting valuables. But what was stolen will not be known until the owners call for the trunks. No clue to the burglars.

CORVALLIS.—Mr Bonner, recently from Memphis, Tennessee, was in the city Wednesday. He is looking for a place to locate. He says that he likes Corvallis better than any town he has visited. ... Miss Cameron, who has recently come here from the east, was cutting a chicken's head off Tuesday morning and instead cut the end of her thumb smooth off.—*Leader.*

NEW REAL ESTATE OFFICE.—Hughes, Brown & Co., of Portland, have opened a real estate office in the Cusick block, just north of the DEMOCRAT office, and propose doing a land office business. Mr G A Vanderbeck will be associated with Mr Hughes in the management of the Albany office.

THE NEBRASKA EDITORS.

Fifty-eight, including their wives and sisters and cousins and aunts, they passed through Albany on their return trip this noon. A DEMOCRAT man talked with several, and all seemed delighted with the Willamette Valley, which they pronounced the finest in the world. Just what it will be when they get home and the poetry of it gets threadbare is the rub. One of the nicest fellows in the crowd, a young man who "never takes soup," is Mr L. D. Denny, of the Red Cloud Democrat. Dr. Denny suspects a distant relationship to our own Denny family, including Judge O N Denny, and says likewise he has done China. Mr B F Tabler met his old friends Albie Hart, of the Dakota City Eagle, and F W Sprague of the Rushville Sun, and others shook up friends they knew something about. As the train was late and the stoppage short only a limited number were present to greet the quill shavers. They took with them some of the Board of Trade's birdseye views of Albany and literature of a refined and entertaining character, and though their tarry was short they will not forget entirely the railroad center of the glorious Willamette Valley.

A BUSINESS GIRL.—There is a young girl in Walla Walla who is destined to make her mark. Some one gave her ten cents one day. She bought a yard of calico, made it into a sunbonnet and sold the bonnet for 40 cents. She invested the 40 cents in more calico, made more bonnets, sold them, and pretty soon had \$10. With this \$10 she bought potatoes, planted them and came out with a clear profit of \$40. Most girls would have bought chewing gum and chewed and chewed and then called for more, and a majority of the boys invest their money in cigarettes and wouldn't save \$40 in a hundred years.

GOOD FOR CHILDREN.—A pleasant feature of the visit of the Nebraska newspaper people to the Clarke fruit farm was that there were a number from Nebraska City, and the foreman on the place—Thomas J Childs—was for many years a resident there and they all knew him well. They talked of Nebraska and Oregon and the visitors were decidedly impressed when they asked him how he liked Oregon to hear Childs reply that it was the best country he ever saw and nothing could induce him to return to Nebraska.—*Statesman.*

THE BIGGEST.—The Cheops is the biggest pyramid in the world; the Statue of Liberty caps all other monuments; Oregon has the biggest wheat; the N Y World the biggest circulation; Tacoma the biggest boomers; Salem the biggest "in prospects"; Corvallis the biggest holes in her sidewalks; Eugene the biggest little State University; Albany the biggest railroad prospects in its mind and John L Sullivan is the biggest brute.

CAN'T TOUCH THEM.—There are plenty of men around wanting work until you want to hire them, when they become ice sawyers in the summer and patent fan manipulators in the winter. Several Albany men say this has been their actual experience. Few men remain idle long if they have the desire and push.

HOT WEATHER ITEMS.—Keep cool. The finest refrigerators in the market at Stewart & Sox's. Buy one now. All sizes of ice cream freezers at Stewart & Sox's. Purchase one and manufacture this delicious dish at home.

WILL COLLECT.—Owing to unavoidable circumstances I did not collect water bills on the 10th-13th of this month as advertised, but I will be round collecting the first of next month. Let every one be prepared to meet my call.

A long and bitter legal war is likely to grow out of the Johnstown, Pa, calamity. A mercantile firm is to sue the South Fork Fishing Club, which maintained the dam that did the damage, for \$150,000 and it is said the plaintiffs have plenty of means to carry on the suit. The suit will be a test case and will be fought to the end. If it is successful it will make the club liable for at least \$50,000,000 in damages, and the members of the club being all wealthy men could probably pay it and it is to be hoped will have to.
