Joe Watson, lead machinist in the Albany Iron Works, has resigned his position with this company, and after a trip to the Bay, starting to-morrow, will go to T. Oms, where he has accepted a lucrative position with Cherry & Parker. Joe is a good fellow and deserves to succeed.

AN IMPORTANT ITEM.—The following from the Salem Journal, if true, is more important to the public than a foot race or knock out: Luxuriant hair is an article of wearing apparel that is not possessed by all. An old acquaintance passed through Salem a day or two since, who, several years ago, had a pate as slick as a peeled onion, and which is now covered with a thick growth of hair. On inquiry as to the change in his appearance, he said it was all brought about by the use of salt. Once a day he bathed his few remaining locks in strong salt water, and the result was a full head of hair. He also said that he was fifty-four years of age, and had never worn glasses, which he attributed to the fact that he had for years past bathed his eyes every morning in a weak solution of salt and water.

CROOK COUNTY.—Mr. J. C. Luckey returned from the Warm Springs agency last Thursday. He will return to the agency in a few days and take official charge of affairs over there. The other day there passed by this oceanic immigrant wagon in which were an old man and wife, seventeen children and five dogs. Wm. Allen returned from Halsey last Monday. He reports the early grain in the Willamette valley as being excellent, but grain that was sown late has suffered from the dry weather. L. N. Liggett and family have gone to Willamette valley, where Mrs. Liggett will spend the summer.

GRASSHOPPERS.—The East Oregonian says L. K. King, who is farming land leased of the Indians on the reservation near the agency, says a wave of grasshoppers has struck his locality and cleaned out every green thing in sight. His garden looked like a miniature desert after the grasshoppers got in their work. He says in two more days they will reach Pendleton, and warns the people to be prepared for the worst.

A SPLASH.—Several weeks ago an Albany bicyclist took a header in the Santiam ditch, and the DEMOCRAT immediately dated the incident public. But for this fact and the desire to do by oneself as one would do to others this item would not appear. Local Editor DEMOCRAT on bicycle, Ferry Street, High sidewalk at raging Santiam. Rotten place. Big Crack. Careless rider. Splash. Another suit of clothes to-day.

NOT LEFT.—A sleepy stranger this morning at the Depot got into a bunch of sandwiches and coffee got into a dispute about the pay and the train went off leaving him. He kicked around the city some but left on the noon train, having to buy another ticket, only having a check in his hand. It is to be hoped he will awaken sometime.

APPOINTED WHAT.—Mr. T. Buford has been appointed collector of customs at Yaquina city. We have to congratulate Thomas on getting there. Some of these days to be collector of that port will be a bigger thing than it is now. Benton Leader. Come, now wasn't Tom appointed agent at Siletz.

CROP WEATHER BULLETIN NO. 20.

Oregon State Weather Bureau co operating with U. S. Signal Service Central office, Portland, Or., for the week ending July 20th, 1889.

The weather all over the State has been very dry with the exception of a light fall of rain on Sunday and Monday, and in some places rain is reported to have fallen on Tuesday.

The week has been especially notable in the reaction over the loss the farmers thought they had sustained in the grain crops, which have not proven near so bad as they thought before the harvest was well advanced. The poorest yield reported is fifteen bushels to the acre, and the best average yield fifty bushels. It is true that wheat will be a great deal better in quality than was thought last week and consequently a good price may be expected.

A very severe thunder storm passed over Pendleton doing considerable damage to property, but being of local origin did not extend beyond the city limits. This storm occurred on Sunday afternoon, the 14th instant. In the Coast region of the State a heavy N. W. wind has prevailed during the week. Light rains on the 8th, 12th and 14th. In the Willamette Valley two or three cloudy days being the past several days. Fall wheat is being cut. Hay harvesting is almost done. Hops are looking good. In the Umpqua Valley no rain during week and want none until crops are harvested. Rogue River Valley reports that the weather has been beneficial to fruit. Highest temperature 96 at Grant's Pass. In the lake region crops are an almost entire failure. In Eastern Oregon dry hot weather has been experienced but the condition of the grain is far from being a failure. Corn is looking well. In Umatilla county spring and fall grain is excellent in quality and yields well. The rain of two weeks ago has helped Wallaw county considerably. Wheat, oats and barley will be an average crop in Union county. At La Grande on the 18th, 0.29 inches of rain fell. In Crook county fud will be better than last year. Many of the crops that were sown for the production of grain will not yield on account of dry weather; but nearly all of them will make good hay.

The condition of fruit all over the State is excellent and the prospects are that this year will be above the average in this respect. TOM A. CARPENTER, Asst. Observer U. S. Signal Service, ON THE SOUTHERN BOUNDARY.

Harvest is now claiming the attention of all our neighbors, and reaping, binding, heading, threshing, are the chief, and almost the only topics of conversation. Fall grain is yielding very well. Mrs. Osborn and daughter, Beulah, and Mr. Frank Tilton are now convalescent from attacks of the measles. Mrs. Kate Coldron has gone to stay awhile with her mother near Eugene, in hopes of benefiting her health. Hon. Enoch Coleman returned from Southern Oregon last Wednesday bringing with him about twelve hundred head of sheep that he purchased there. Mr. Boyeman and family have moved down to Lake Creek to harvest their grain there. They will probably be gone two weeks. Mrs. W. H. H. Grant and children came up from East Portland Saturday to spend a month with her father and sisters. Mr. Grant accompanied her and will remain visiting four or five days. J. D. Kennedy, of St. Paul, is in the neighborhood on business.

THANK YOU.—A big watermelon, the first of the season, rolled into the DEMOCRAT office this afternoon, with this greatly appreciated legend on it: "Compliments of Wallace, Thompson & Co. A full car load just received from Lodi, Cal." Thus another meal is provided for and the DEMOCRAT will continue its evening effusions. If you want a good dinner eat of the best in the market, go to Stewart & Sox's.

Notwithstanding we have several transcontinental lines a large number of people cross the plains as they did in the days of '52; but there are no savage Indians now and plenty of land marks.
