Subscription Rates: Single copy 5 cents, per week \$1.50, per month \$4.50, per year \$50.00.

LOCAL RECORD.

THE SAME BOY.—Several years ago Rev R L Stevens, then of this city, was riding near Sweet Home when he took a small boy into ride. A brother who saw the act claimed that he thought his brother was being abducted, took a gun and shot the horse dead. He was arrested at this city and acquitted. He was one of the Rolf boys now under arrest for murder, in tampering with the switch that caused the railroad accident resulting in the death of Jack Miller. The Rolf boys are not very bright, and are said to be of an ugly disposition. The noose hangs over them.

A LONG TIME.—Four days are required in which to write to Newport from Salem and receive a reply. As trains make close connections at Albany each day this should not be. Passengers can make the trip in two days and mail should not be slower. Letters mailed in Salem for the eleven a m train do not connect at Albany for Yaguina, as it is generally supposed, but lie in Albany until the next day. As yet mail accommodations on the Oregon Pacific are crude, and in sore need of improvement.—Journal.

UGHT TO DO WELL.—A medicine company, to manufacture and sell medicine for the cure of diphtheria, has been incorporated in Albany; capital \$3,000. The company ought to do well if they can get the patronage of all the sickly towns in the Willamette valley.—Corvallis Times. The Company already has its hands on Corvallis, Salem and Eugene, and a big dose of compounded tonic is being prepared. Lookout for some healthy kicks.

EASTERN OREGON CROPS.—John S. Nison, of Nolin, was in Pendleton today. He thinks the crop average in that section will be about ten bushels to the acre, which is rather disappointing, considering the prospect offered in the spring for a large yield. Some farmers, banking on this rainy-hued promise, presumed too much upon their credit, and now find themselves in a sea of debt when they expected to be landed high and dry on shore by good crops and prices.—Pendleton E O.

NATIONAL BANKS.—The report of the Eugene National Bank shows \$77,406.77 loans and discounts, specie, \$33,392.35. Deposits \$64,601.30, the totals being \$137,687.88. No National Bank in the Northwest in a place of the size of Albany makes such a healthy showing as the First National Bank of this city, whose deposits are about \$175,000, and loans and discounts, \$154,306.63.

FIRST VALLEY MELONS.—Mr William Peacock handed the DEMOCRAT office today the first Valley water melons brought to the market. Though small they are of a good quality. Mr Peacock is nearly always first to the city with this fruit, and has the DEMOCRAT'S thanks for the remembrance.

WILL COME HERE.—A gentleman just in from Crook county says that The Dalles will get very little if any of the wool trade from that county next year, as there is a very good wagon road leading to the Willamette Valley and wool there commands a much better price than east of the mountains. The prospect of the wool trade of The Dalles in the future is not a cheering one.—Times Mountaineer.

AN ACCIDENT.—This forenoon while hewing timbers on the street railway line the ax of Jos. Reece slipped and struck one of his legs just above the ankle, cutting into the bone, severing a muscle and a vein. Drs Maston and Wallace attended him and dressed the wound. The accident will keep Mr Reece from work for some time.

MORE EVIDENCE.—The Oregonian tells about some of the Nebraska editors losing diamonds while out here. We'll bet our old hat that if they had such things with them they were borrowed for the occasion. Editors as a rule don't have such things Register. Another piece of testimony to prove that they were real estate men and merchants.

AS USUAL.—We're in the lead. Tomorrow we will have sweet potatoes, grapes, celery, cantaloupes, cauliflowers, peaches, cabbage, apricots, cucumbers, string beans, green peas, lemons, tomatoes, new potatoes, and an endless variety of the good things of life. Call early and leave your orders. Willamette Packing Co.

LEG BROKEN.—Mr E B Davidson, last evening fell from the building built for a brewery just east of the Albany Iron Works and broke one of his legs, which Dr Maston set. Ed has had his share of bad luck in this world.

VERY NICK.—Don't cook this hot weather. Drop in and get some of our lunch delicacies. We have just received a fresh supply of cream cheese, Limburger cheese, smoked beef chilled to order, etc. WILLAMETTE PACKING CO.

THE TRAIN WRECKER'S TRIAL.

The case of Herbert and Fred Rolfe and W A Hill charged with wrecking the S P train last Sunday evening near this city, came up for preliminary examination in Justice Humphrey's court this afternoon, the accused being represented by Judge Whitney, and the State appearing by H H Hewitt, District Attorney and Mr Northrup, of Portland.

The defendants waived examination and asked the court to make an order that they be admitted to bail. The court refused to allow the defendants to waive examination stating that if the parties were guilty they should be in jail and if not they should be allowed their liberty.

Dr W H Davis was called and testified as to the defendant's calling on him for professional service Sunday. Next saw Hill Monday morning, who had a lame wrist and wanted treatment. The Dr's testimony was substantially as heretofore published.

Mr DeClark testified that he was on the train when it was wrecked. Jack Miller was badly burned and died next day. He examined the switch after the accident. The pin was out and not removed. Search has been made and the pin has not been found. The switch was locked after the accident. Removing the pin would not affect the switch except as to one rail. The result of removing pin would be the wreck that occurred.

Thos Froman testified, am acquainted with defendants. Have been in Foster's and my employ for ten days. Left my place Sunday at 3 o'clock to go to town. Had conversation with Hill Wednesday morning about wreck. Hill told me that there was a man in my employ who caused the wreck. Hill said they took the pin out and removed the rod and put a stone between the rails. He and Fred Rolf went on and told Herbert to come on. Herbert came on and said he had a pin of the S P. They told him to throw the pin away which he did. Hill's arm was not hurt when he left my place Sunday. Fred told me he knew nothing about the wreck. Hill said it was Bert that removed the pin. Hill said that they asked to ride on the Lebanon train but they were not allowed to do so.

Morgan Richardson testified that he became acquainted with defts, a week ago. Saw them just before they started to Albany. They returned about nine o'clock Sunday night. Know nothing about his getting his arm hurt that night. He was uneasy and restless all night. Did not know his arm was hurt until he went to work next morning. Don't think I heard any of the boys say anything about the wreck. Had worked for Froman and Foster 8 days. Hill did not complain of his arm when he returned from Albany. Lebanon engine passed 15 or 20 minutes before the boys returned. Froman's house is two and a half miles from the wreck.

D B Monteith testified that he is not acquainted with defts. Told Hill to tell me all about the matter. Tell the truth. Fred told me he knew nothing about the cause of the wreck. I arrested Hill. He said he hated to give the boys away. The younger Rolf talked something about breaking the lock of the switch. He took the pin out and removed the rod. Hill said he hurt his arm by rolling on it. Talked with young Rolf but he denied everything. Hewitt, Hoffman, Burkhardt and I went to the jail and talked with Rolf. Rolf said Hill took the key or pin about half out and he, Rolf, took it and carried it on up the track.

C G Burkhardt testified that he arrested Herbert. Told him what the arrest was for. Herbert said he knew nothing about the wreck. Said they stopped and cracked hazel nuts on the switch. Talked with him last evening. Said he had nothing to do with the wreck. After 15 minutes talk Monteith told him that his statement and the other defts, did not agree. Herbert then told all about it. Hill looked at the lock and said they could not break it. Hill took the pin partly out. He, Herbert, took it out and carried it and threw it away. He said there was a rock dropped between the rails but he did not know who did it.

Mr Ed Huston conductor testified that he saw defendants first Sunday night at depot. Young Rolfe asked to ride to Froman's on the engine. Left depot at 9 o5. Switch would not work and the brakeman and I examined it and removed a stone. We saw nothing wrong except the stone. Talked with defendants about 8:30 to 8:40. Passed over switch at 9:10. Thos Hogan fireman testified that he passed Lebanon branch Sunday evening and Monday morning. The state here and defendants announced that they had no witnesses.

After brief arguments by counsel, the defts were held to await the action of the grand jury, on the charge of Murder, without bail.

SUN-STROKE.—Mr Bushnell, of Irvine, was in town Monday and informed us that Mr Isaac Cook, of Junction received a severe attack of sun-stroke Sunday afternoon. He was still unconscious at noon and the chances of his recovery were doubtful. He is a well to do farmer residing near Junction and has many friends throughout Lane county who will be pained to hear of his misfortune.—Eugene Register.

IN THE WATER.—It is reported that four dead infants were discovered in the reservoir of The Dalles waterworks, which has been undergoing a cleaning-out process. This is a sufficiently horrible story, but it comes from a pretty straight authentic source. Our Dalles exchanges have kept "mum," although the people of that burg are considerably excited over the matter, as well they might be.—Pendleton E O.

Farmers, if you want the best harness all hand made, call on E. L. Power, next to Deacon's office, Albany, Or. E. L. POWER.

AT COST.—My entire stock of harness, saddles, etc. Call early. Next to Deacon's office, Albany, Or. E. L. POWER.

SUNDAY REST.

Rev. Wilbur F. Crafts, Field Secretary of the American Sabbath Union spoke last evening at the W. C. T. U. Hall in part as follows: "We are pushing a petition against Sunday mails, against Sunday work in the military service of the government, in interstate commerce and in the District of Columbia and the Territories—in short, a petition which asks Congress to supplement the laws of the States in this matter by giving Sunday rest to all who are under the jurisdiction of the general government. This petition is the largest ever presented to any government, representing an army of ten millions of petitioners besides the cardinal of the Catholic church, whose name weighs much in legislative halls, whatever it counts. Labor organizations with a total membership of half a million have taken distinct action endorsing the petition. The petition is therefore not only the largest ever gathered, but unique also in being the only one in which labor organizations and churches of all creeds have generally united. I hold in my hand a saw which I brought from Nazareth, with other tools, such as Christ used when he there toiled as a workman at his trade. In presenting this petition to the Knights of Labor I held up this saw as an ancient badge of knighthood in labor, reminding them that no one who appreciated the story of Christ could despise honest toil in himself or in any other man. And I say to you what I did not say to them, that the church that was founded by a carpenter ought never to be out of sympathy with the true interests of workmen."

THE FOES OF THE PETITION are a motley army. In the second line stand the liquor dealers, side by side with infidels, proprietors of Sunday newspapers and the Jews. In the front rank, strange to say, are two christian sects, who are most active of all in opposition—the Seventh Day Baptists and the Seventh Day Adventists. As to Sunday rest in the army, the stoppage of Sunday Mails and Sunday trains the speaker introduced arguments and illustrations in favor of such movement. Mentioning Toronto and London in reference to mails and referring to the action of the Brotherhood of engineers in reference to trains.

Weather.

Summary of Meteorology for July, 1889, from observations taken at Albany, Linn Co. Oregon, by John Briggs, vol. observer for the Signal Service, U. S. Army.

Highest barometer on the 1st, 30.32. Lowest barometer on the 9th, 29.82. Mean barometer for the month, 30.02. Highest daily average of bar, 30.28. Lowest daily average of bar, 29.88. Highest temperature on the 19th, 96. Lowest temperature on the 1st, 27th, 60. Mean for the month 60.69. Highest daily range of ther, on the 15, 84.1. Lowest daily range of ther, on the 15, 19. Mean temperature at 7 a. m. daily 63.9. Mean temperature at 2 p. m. daily 66.68. Mean temperature at 9 p. m. daily 64.58. Prevailing directions of wind, N. Velocity or force, 2. Total rainfall or melted snow, 0. Depth of snow at end of month, 0. Number of days on which .01 inch or more rain fell, 0. Number of days of cloudiness average 8 scale of 10, 2. Of 96 observations 66 were clear, 4 cloudy, 3 fair, 0 foggy, 0 rain, 13 hazy, 3 overcast, 4 smoky. Light frost on the mornings of 0. Temperature 43.55 on average of 11 years. Rainfall—0.66 on average of 11 years.

AN ELOPEMENT.—At Buffalo Bill's Wild West show in Paris, the other day, the wife of a French nobleman became infatuated with one of Bill's Indians, the consequence of which was an elopement. They were last heard of in London with the outraged husband in hot pursuit—blood in his eye and a determination to scatter that bloody Indian all over England should he catch him. He has been fully convinced that a vigorous Indian policy is about the correct thing. But really a woman who will run off with the best Indian we ever saw is not worth following.

WHY?—Why do you not go to Waterloo? As a summer resort it is unexcelled. Good level ground, good shade, excellent soda water, good hotel accommodations. Board and lodging from \$4.50 to \$6 per week to suit customers. Six miles above Lebanon on the Santiam river. I will be at Lebanon every Saturday at arrival of train to convey parties to Waterloo.
