**Far too large a proportion of farmers' diet in Summer is salt pork.**

Those who work hard out of doors can stand such dieting without injury, but it is hard on women and children kept indoors. In the country there should of course be plenty of fruit and vegetables at any time during Summer and Fall. With these to aid digestion salt pork becomes less injurious. But with the best of vegetables and fruits there should be more fresh meat than salt. To secure this keep poultry. If chicken meat is not hearty enough for men who work in the harvest field, give them eggs, and oatmeal or graham corn, all richer in strength giving nutriment than fat pork, which is mostly carbonaceous matter.

The British seem bent on accomplishing with money what they failed to accomplish by arms—the subordination of American institutions to English commercial interests. Already owners of millions of acres of soil, they are seeking to buy up and control about every leading line of manufacture in the country. This accomplished, America will become a dependency as before the revolution.

Mr Blaine is having his billiard room in his Bar Harbor cottage put in order for the entertainment of President Harrison. A match game of billiards between these two men would interest the whole country. Would Harrison's conservative, cold and careful manipulation of the cue overcome Blaine's brilliant, bold and Blainian treatment of the balls? The answer to this question may yet be made.

One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience is Electric Bitters." **A Big Train Robbery.**  
DENVER, Col., Aug. 7.—A special received here this afternoon says: The Rio Grande Western train number 3, known as "The Moloc," was held up near Prevasse last night by train robbers.

Two of them boarded the baggage car at Thompson Springs. They climbed over the car to the engine, and pointed their revolvers at the heads of the engineer and firemen and compelled them to stop the train. They forced the fireman to attempt to chop through the doors of the express car. Messenger Willis was ready with a magazine shot gun and two self cocking revolvers. The fireman was made to chop through the boiler iron door, so the robbers fired a dozen shots through. Messenger Willis lay on the floor and was not hit. The robbers dared not show their heads at the broken windows lest they should get shot.

They gave it up finally, and joined two other robbers back in the other cars. The four went through the train with their revolvers drawn and gather \$500 and twenty watches.

**Wanted Liberty.**  
WALLA WALLA, Aug. 7.—To-day at noon Frank Williams, of Port Townsend, and Charles Emerson, of Tacoma, convicts working in the penitentiary brickyard, instead of going to work as usual, crawled through the barbed fence surrounding the yard, climbed on the engine belonging to a clay train, and pulled the throttle wide open, expecting to make their escape thereby, but there being too much clay on the track, the cars wouldn't move. Finding half a dozen Winchester's aimed at them they returned whence they came, and marched to their places in the line somewhat crestfallen.
