Large deposits of ice, believed by some to be relics of the glacial period in this country, have been discovered in Idaho. They are embedded in earth and overgrown with moss, which has prevented them from wasting away. It is seriously proposed to form companies to mine this ice for sale in Western cities, where ice is always scarce and dear. It might give the users of this product some queer sensations, to think they were cooling their throats with ice formed before even the first human footfall was heard on this planet.

In France they now use for steam and water pipe joints, gaskets made of wood pulp, which are boiled in linsed oil. They give satisfactory results, and are not subject to decomposition at high temperature.

TELEGRAPHIC NEWS

R. I. Officials.

Salem, Or., Sept. 6.—Manager Kochler, of the Southern Pacific, came up on a special train to-day and took a hack for Maclay, where he met Receiver Scott and other officials of the narrow gauge, and it is reported that the Southern Pacific took control of the narrow gauge lines and that such was the purpose of the meeting.

Negro Troubles.

Atlanta, Ga., Sept. 6.—Wednesday night a negro boy was lynched for rape at East Point, near here.

The negroes held a mass meeting last night to discuss the matter, and the whites, becoming scared, sent for the Atlanta police. No trouble ensued, but after the officers returned to the city a number of white men, whose identity, it is said, is unknown, went to different cabins and severely whipped fourteen negroes.

Deadly Lightning.

Macon, Ga., Sept. 6.—There was a remarkable display of electric force in Southwest Georgia this morning near Albany. H. H. Kouse, John Shivers and J. W. Shisor were instantly killed. They were on their way to market with cotton, and sought refuge from the shower under a tree.

An Awful Disaster.

Antwerp, Sept. 6.—Dynamite exploded to day in a carriage factory in the vicinity of the bourse, killing many persons and doing much damage to property. Portions of the bourse were struck by burning fragments and set on fire, causing a panic in the building, which was crowded.

The latest estimate is that there are 300 killed and 1000 wounded.

A Fatal Accident.

Seattle, W. T., Sept. 6.—John Nelson a telephone lineman, was climbing poles this afternoon, with a wire in his hand, and when about twenty feet from the ground the line became crossed with an electric power wire, Nelson received a current which burned his first finger nearly off, which threw him shrieking to the ground.

To those afflicted with pain in the back, non retention of urine, nervous debility, painful or suppressed menstruation, we can offer a remedy that has been in constant use over twenty years, Oregon Kidney Tea. That Cantankerous Old Woman

Described in the nursery ballad, who "drived upon nothing but victuals and milk," and yet "would never be quiet," was undoubtedly troubled with chronic indigestion. Her victims, like those of many other elderly persons whose digestive powers have become impaired didn't agree with her. This was before the era of Hostetter's Stomach Bitters, or some one of her numerous friends and relatives would undoubtedly have persuaded her to try the great specific for dyspepsia, constipation and biliousness. This would have been a measure of self protection on their part, for she would soon have been cured and ceased to disturb them with her clamor. The most obstinate cases of indigestion, with its attendant heartburn, flatulence, constant uneasiness of the stomach and of the nerves, are completely overcome by this sovereign remedy. Chills and fever and bilious remittent rheumatism and kidney troubles are also allayed by it.
