

The Democrat.

Henry George is going to California in January. He will afterwards go to Australia and New Zealand lecturing.

The number of certificates for original pensions issued during the months of July, August and September, 1888, was 8,705, and during the corresponding months of the present year, 13,660.

The campaign of education still progresses and by the next presidential election a vast number who started to school last year will be ready to graduate. The college will be democratic.

A childless old lady of Stoddardsville, Penn., years ago set apart a small room for spiders to make their webs in, and no broom has ever disturbed it. The spiders dwell together in harmony as a rule, although the lady says they sometimes have regular cat and dog fights.

The great mining enterprise of uncovering the bed of the Feather river, in California, at Big Bend, has proved a failure. The stream was successfully diverted, but the gold expected to be found at the bottom was not there. It is said that \$2,000,000 was expended on the project.

The steam war vessel Pensacola, which is to take the solar eclipse expedition to south Africa and back before she goes to the Pacific squadron as flagship, is nearly ready for sea. She is now lying at the Brooklyn Navy Yard and before starting will take a lot of sounding and other apparatus. It is reported that Professor Agassiz will go on the Pensacola, and while the other scientists are observing the eclipse he will engage in deep-sea soundings and make an analysis of the water and other observations.

The committee selected by the California Legislature to erect a monument in honor of J. W. Marshall, discoverer of gold in California, has accepted the monument made by Sculptor Wells, of San Francisco, and ordered payment of his claim. The statue will be unveiled at Coloma, El Dorado county, the site of the discovery of gold, next May. Some of the old canons and anvils which were used in the settlers' fort will be placed in position about the monument.

A Republican organ has an article on the "Attitude of Reputable Democrats." It is quite a concession in that quarter to admit that there are any reputable Democrats. To read its habitual Pharisaic screeds an uninformed foreigner would conclude that the Democrats of New York are all "whiskeyites," rascals or ignoramuses. The attitude of all Democrats just now is confidently erect, with the right foot forward and the eye on the Presidential pennant of victory in 1892.

Benjamin C. Jones, only son of J. Russell Jones, a Chicago millionaire, has been adjudged insane and sent to an asylum. He was wrecked by dissipation. Recently he lost \$250,000 in speculation. He married a worthy woman, but his downward course could not be stopped. In six weeks, not long ago, he spent foolishly \$25,000. One of his orders was for \$5,000 worth of fireworks representing scenes from "Little Lord Fauntleroy."

The attention of those friends of civil reform who voted for Harrison because they were not satisfied with the record of Cleveland's administration is once more respectfully invited to a comparison. It is to be kept in mind always that Cleveland found the service filled with Republican partisans after a long period of Democratic exclusion from power. The changes in the railway mail service from all causes during the four years of his administration numbered less than 2000. Under the Harrison administration in a little more than three months 2434 changes were made in same branch of the service, after it had been decided for the first time to bring it under the civil service rules.

CONSUMPTION SURELY CURED.
To the Editor—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their express and post office address. Respectfully,
T. A. SLOCUM, M. C., 181 Pearl St., New York.

Advice to Mothers.
Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain caused by sore throat and diarrhoea, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price 25c. a bottle.

If President Harrison were simply looking for a competent and suitable man for Pension Commissioner he would have little difficulty in filling the vacancy left by the collapse of Tanner. The Commissioner should be a good lawyer, a capable executive chief and an honest and fair-minded man. There are plenty of such men in the country. But President Harrison is looking for a man who will suit the surplus-busters, the prudent Republicans in congress, the professional "old soldiers" and the taxpayers, all at once. And such a man cannot be found.
