

The Democrat.

A NEW PAPER.

The *Welcome* says: "We understand that Prof. Roby's new paper, to be the size of the old *Standard*, and similar to that paper in politics, will make its appearance next week. Seven printers will be employed." And the *Mercury* says: The talk of a democratic newspaper for Portland is again revived. It is said that the material has been ordered and that the paper will make its appearance about the first of December. The bright little *Morning Journal* had this field before it failed to occupy it. The *Journal* is a good newspaper, and will probably not be crowded out of the field by the new publication.

Speaking of the result of the elections last week Ex-president Cleveland says: "It is evident that the heaven of tariff reform has at last leavened the whole lump. The west which has suffered most from the unjust burden of tariff taxation, has awakened. The state platforms of both Iowa and Ohio are abreast of the St. Louis platform on the subject of tariff reform."

"The people have considered and passed judgment. It was for the people to decide. They are now deciding. It is enough for me to say that I am satisfied at the indications and the results of Tuesday's elections. The verdict in Virginia indicates that the South is still faithful to the democracy of Jefferson and Jackson."

Reports come from Rio Janeiro that a rebellion or revolution broke out some time ago against the King of Brazil and that the King is under arrest and the revolution made a success by the formation of a republic. Brazil is a large country having over three millions square miles of territory and a population of about 14,000,000 people. If intelligent enough these people will grow into a permanently formidable republic. There are those, however, who have some doubts about the truth of these reports. (Reports are fully confirmed.)

We want Robert Veatch nominated for Congress by the democracy. Labor has no more tried, true and trusted champion. With Veatch for Congress and Penoyer for Governor, the democracy would seek to win by deserving success.—Roseburg Review. Yes but we have it from a very reliable source that Mr. Veatch would not accept a nomination for congress. We think it entirely safe that Mr. Veatch will be nominated by the democracy of Lane for the state senate, a position which he has filled in the past with singular faithfulness.

Prof. Lintner estimates that if all the species of insects inhabiting the world were known, their number would reach a million, and, descending to the consideration of individuals, he adds that he has at one glance, within a small extent of road seen more snow fleas of a single species than there are human beings on the entire surface of the globe.

The explosive qualities of celluloid were practically demonstrated a few days ago in a Philadelphia saloon, when the spark from a cigarette landed on the collar of one of the frequenters of the place and blazed up in a second. The bartender saved the man's life by turning the seltzer water on him.

Gov. Penoyer will be re-nominated and re-elected. He will carry Douglas county by a handsome majority. He has stood by the people against the jobbers and the ringsters and will receive a hearty endorsement at the polls.—Review. So say you one, so say you all gentlemen.

The persons who are expecting Federal appointments in this state are anxiously awaiting the arrival in Washington of Congressman Hermann. When he gets there, it may be that some of these office-seekers will wish he never had.—Eugene Guard.

F. C. Tolman of Ashland will be a candidate before the next state republican convention for the nomination for state treasurer.

The estimated population of Utah is 230,000, an increase of 86,000 in ten years time.

The total eclipse of the sun, which takes place Dec. 22, will be visible in a long, narrow path 5000 miles long and only 100 miles wide, which extends nearly its entire distance over the ocean. It begins in the Caribbean Sea and skirts the northern coast of South America, being visible at only one point there, French Guiana. It then moves eastward until it strikes Africa, a few miles south of the Congo river. An expedition from the Lick Observatory, in California, will go to French Guiana to view the eclipse there.

According to the information in possession of the United States Government, the charge made by English authorities of the prevalence of pleuro-pneumonia in cattle shipped to Europe from our Western States and Territories is unfounded.
