

The Democrat.

A new post office in Indiana has been named after Tanner, Protection to Dudley and honor to Tanner is the Indiana policy of the Administration.

Senator Allen, of Washington State, is so youthful in appearance that he was recently refused admission to the floor of the United States Senate Chamber by a doorkeeper who did not know him.

President Carnot receives a salary of \$120,000, while the head of this nation gets only \$50,000. And yet there are people who would rather be President of the United States than France.

RINGS TO HOUSEKEEPER.

If you have been traveling any distance on the cars, don't wash your face in cold water the moment you reach a washstand. If you want to remove all trace of dust and smoke, rub your face well with vaseline or cold cream, and wipe it off on a dry towel. The towel after the wiping will show you where the dirt has gone. Then you may wash your face in hot water if you will. There is nothing like hot water for the complexion. It keeps not only clean, but clear.

A cotton flannel case for silver knives and forks is the best thing to keep them in when they are not used every day.

Powered chalk and vinegar are good for a burn.

The girls are crocheting silk over rings, to use for fancy articles. These rings cost but twenty-five cents a gross, and the silk comes at thirty-five cents a ball. Sometimes several rows of the rings are placed diagonally across a black satin shopping bag, or they are used to finish a scarf or tidy. Certainly this style of trimming is cheap enough, for a gross of rings and a ball of silk go a long way.

A feather-bed or mattress will remain clean and in an excellent condition for years if kept in a case made of common sheeting, which can be removed and washed at will.

If your flat-irons get rusty, rub them first (while hot) with beeswax, then put a handful of salt on a bit of old cotton cloth or coarse paper, and rub the iron over it hard and fast. This operation, repeated two or three times, will make the rustiest iron smooth.

An egg beaten in a glass of milk and sweetened makes a nice strengthening drink for a teething child.

Almost any kind of fruit stains may be removed by turning boiling water through the stained part. If the first trial does not entirely remove the stain, repeat the operation. This should be done before the spot is "set" by the usual method of washing.

White clothes can be marked with one's name on the back, with a common pen and ink, and will not wash off for a long time.

A good dressing for shoes is white of egg, or some good oil, olive or sweet oil, applied with a bit of flannel. It keeps the color of the leather, and shoes thus treated do not harden after being thoroughly wet. Oil is the proper dressing for patent leather, linseed oil, some shoemakers say. It's first rubbed on and then polished with a dry flannel. Patent leather treated in this way does not crack or become dull after wetting.

Equal parts of bay rum, borax and ammonia make a nice preparation for cleaning the head; apply freely to the scalp with a brush and then wash in clear water. A coarse comb is good to smooth the fringe of towels, napkins, tidies, etc.

Senator Chandler is a leading advocate of the new Federal election scheme. There is fitness in his championship of this project. He is the man who claimed that he initiated the conspiracy that, for the first time in the country's history, fraudulently reversed the result of a Presidential election. He engineered the theft of the Florida electoral votes that honestly belonged to Mr. Tilden, as Gen. Barlow, a Republican "visiting statesman" appointed by President Grant, declared. Mr. Chandler proposes to use the Federal judiciary for party service and thereby corrupt the Bench and undermine popular confidence in the courts. And yet there can be no certainty that even this plan will maintain Republican ascendancy for a single Presidential or Congressional term.
