

THE FACTS.

Some time ago the negro population of Upper Alton, Illinois, took it into their heads that their children should be admitted to the High School in that city.

The republican screamers that have the negro in the south under their wings are rather quiet about the race war in Upper Alton, a town noted for its educational institution and its republican majority.

NO BRIBERY.

The Sandusky, Ohio, Register, a staunch republican paper, in commenting on the election of Brice to the United States Senate, says:

"From a purely partisan standpoint we might rejoice exceedingly and be glad if it could be shown that Mr Brice had bought the place. From the standpoint of an Ohio citizen proud of his state and interested in its welfare we should feel anything but glad to have it shown that he had bought votes enough to make him a Senator, and higher than party zeal should be the citizens regard for the honor of his state.

The Toledo Commercial, another strong republican paper says:

"There is no charge, intimation or suggestion that boodle figured in the vote of a single man to-night. The opposition to Brice have watched every movement of himself and friends in the hope that they could catch him on this score, but in no instance is there the faintest suspicion that money, except for legitimate expenses, figured in the contest which has just ended in Brice's triumph."

A strange discovery was recently made at Boise City, Idaho. A sand-pump brought to the surface, from the depth of 320 feet, a little flint idol.

PROF. H. C. PALMER'S Conservatory of Music, Tweedale's block, First street, Albany, Oregon, opened January 20th, 1890. The course of instruction will consist of classes for piano, organ, harmony and voice culture.

Try the Fall cream cheese at C. E. Brownell's.

Poor Humanity!

The common lot is one of sorrow say—at least—the pessimists, they who look at the worst side. Certainly what would otherwise be a bright existence, is often shadowed by some ailment that overhangs it like a pall, obscuring perpetually the radiance that else would light the path.

SOME LAWS.

The school law has this provision: "That the entire school funds received annually by each school district from the apportionments of the five mill county school tax and the reduced state school fund made by the several county school superintendents shall be exhausted within and during the year for which such apportionments are made, and shall be expended for school purposes only."

According to an analysis recently made in the Laboratory of the Louisiana State University, it is stated that, approximately, 4 1/2 pounds of potatoes are equivalent in nutritive value to one pound of rice.

Russia is considering a plan for bridging the Behring Straits. The length of the bridge from shore to shore will be more than sixty miles.
