AT McMinnville.—A H Haswell, who has recently put in the large woolen mills at Albany in the city looking up a location for another plant. If a woolen mill could be put in here it would help the town considerable. He wants to organize a stock company. A certain portion to be subscribed by the citizens of the city and he will take the balance. Besides this the company will expect a bonus from the people of the city who will be benefited by the mill. This is not a fake scheme for the mill at Albany is a sample of the factory which will be put in if the necessary help can be secured. The citizens of this city should take an interest in the matter and start the thing along if possible. —McMinnville T. R.

Will January 1, A. D. 1900, be the beginning of the twentieth century, or will January 1, 1901? is a question that is now bothering the college professors in the east. —Telegram.

It may bother college professors but it doesn't editors. They all agree that the latter date has to be the one. It can't be anything else. That is what the figure 1 is for, to indicate the beginning. The first century began Jan 1, in the year 1, and the second century Jan 1, 101, of course, the year 100 closing the first century. Anybody can see that but professors who try to be too erudite. Perhaps, though, the ex. lies about the question bothering the Profs.

SIMPLY IMMENSE.—Speaking of big things, L E Blain has the largest and best selected stock of clothing in the valley, his counters being packed to their utmost capacity. This is not an advertising statement but a fact. His new goods embrace a fine line of suits, among others some manufactured by the Albany Woolen Mill Co., which will be sold for \$10 a suit. Wear an Albany suit. His new stock of boots and hats is also large and embraces the latest styles. The advantage of a large stock to select from is greatly appreciated by Mr Blain's customers.

NOTHING IN IT.—There is nothing substantial about the Anacortes boom, says the Olympia Partisan. People are beginning to leave there already, notwithstanding the efforts of the Portland Oregonian to boom the place, because Elijah Smith is one of the principal owners of the townsite. The only substantial boom in the lower sound country is on Bellingham bay, where a great city will surely spring up.

WILL STRETCH OUT.—The report published a week or two ago in the DEMOCRAT that four or five miles of road would be added to the street car lines is now verified by the statements of the directors. The talk is strong for making a motor line of the road and doing away with horses. It is found that all the suburbs of the city need to be reached for business.

WHAT IT PAYS.—"What does the Oregonian pay for its dispatches?" was asked the writer yesterday. It pays five-sixths of a cent a word. It gets, regularly, 180,000 words a month, 6,000 words a day; that is, \$1,500 a month. In addition it pays as much more for special service, making its bills about \$3,000 a month for telegraphic news. —Ex.

AN ADVERTISER.—The Oregonian is full of ads of the business of Ana Cortes. They are sugar coated like that paper's ads of the Louisiana lottery. It is the greatest booming enterprise in the history of the Northwest and it will at least pay to keep ones eyes open.

THE WAY TO DO IT.—J H Albert, cashier of the Capital National Bank of Salem, yesterday agreed with the county court of Marion county to carry at six per cent interest, instead of eight per cent, the legal rate, the \$10,000 appropriated to the Salem bridge and the \$6,000 to the Jefferson bridge. —Statesman.

CLEVELAND realized about \$100,000 profit on the sale of his Washington residence. This will probably cause the late democratic standard bearer to forget the loss of that \$10,000 donation to the campaign fund. —Telegram.

In order to make Harrison forget, then, he would only have to make a profit of \$7500 on a transaction.

JACOB WISECARVER has purchased "Brilliant," a full blooded Clydesdale of Dr B F Fuller. He will make the season in this city. The purchasers price is \$1500. —McMinnville T. R.

This is the animal recently taken by Dr Fuller to that city from Harrisburg.

A Eugene paper says that Mt Jefferson is smoking, and now comes the Bellingham Bay Beville with the information that Mt Baker is taking a smoke. —Ex.

And both were sulphurous items, built on sand.

No. NINE.—Townsend & Wilson are nicely located in their new offices in the Thompson block. There are now nine real estate offices in the city. Not a large number for a city of the importance of Albany.

HE OWNED IT.—Astoria certainly must be getting in the fix Seattle and Tacoma were, for the Astorian tells the following old fashioned story about it, one that has a familiar ring:

An amusing incident was told yesterday in regard to a certain "curb stone" real estate man, as he was called. He was talking with a man whom he supposed to be a stranger. Finding that this person was interested in real estate, the dealer commenced to extol the wonderful merits of a certain tract of land a few miles to the south. The gentleman listened very attentively, apparently absorbing it all. He acquiesced in everything said. The real estate man was happy. He was sure of a sale. He told how finely the land was situated and how lovely the blue sky hung over it. At last he finished his little speech and confident of a choice result awaited some remarks from the gentleman. He turned around, looked pitifully at the lover of good dirt and made him supremely unhappy by the simple statement: "Yes, I agree with you. I own that land myself."

OUR SENATOR.—An Eastern despatch says Senator Dolph is getting a great deal of attention in the newspapers, some of them criticising him severely, because he is chairman of the special committee investigating the newspaper correspondents and because he reported a resolution to imprison the correspondents who refused to answer questions. He is especially ridiculed by the men who would be subjected to this punishment. A man makes a big mistake when he officiously goes to inquiring into the source of a newspaper's news. It is a papers business to get it the best way it can. Oregon's pompous Senator will come down a peg before the reporters get through with him.

CORVALLIS.—We were informed this week that a representative from the east will soon arrive in Corvallis, and within sixty days a woolen mill will be under way of construction.

Ala Harris and wife left for their home in San Francisco yesterday, after a visit among relatives and friends in Corvallis. They go from here to Portland where they will take the steamer for their destination.

Cam Hemphill this week ordered \$600 worth of new scenery for the opera house in Corvallis. It will be painted by the same parties who did the work for the "Marquand Grand" at Portland. —Leader.

THE USUAL EXPERIENCE.—The editor of the Goldendale Sentinel gave notice recently that a certain man in the town could find sufficient muscular exercise by calling at that office, instead of whipping his wife. About twenty have taken it as a personal challenge, and the editor is very likely to have more than he can properly manage. There are some men who are always hit at every remark a newspaper makes, if it comes within a mile of them.

CHUCK.—The Willamette this evening was 16 feet above low water mark. It had risen four or five inches during the day, 2 feet 8 inches during the night and about 5 feet since yesterday morning. Though higher than when a few ex's said it was raging before there are no many fears expressed about its getting high enough to do any damage. The Santiam is six feet below its former mark and is taking the snow out of the mountains very rapidly, which is what is wanted.

THEATRICAL.—The date for the opening of the opera house, heretofore mentioned, has been placed on Monday next, the advertisement for which appears elsewhere. Lindsay is one of the best actors ever in Albany, and it will be a treat to hear him again. There will be big houses.

NEW ADDITION.—"Wright's addition" to Albany is now on the market and comprises 165 large, level and beautiful building lots. The blocks have eight lots to the block, each lot being 60 by 100 feet. The streets are 60 feet wide, with two large avenues one of 100 feet, the other of 90 feet in width. These will probably be a motor or electric line to this addition before long. For terms of sale apply to any real estate agent in the city.

DR PATTON treats successfully all diseases of women, and guarantees to cure all curable private diseases. He has a sure remedy for catarrh of the head. He sleeps in his office and answers city calls day or night. Consultation is free and everything is strictly confidential. He can be found in his office in Blumberg's Block from 10 to 12, 2 to 4 and 7 to 8.

ALBANY Marble and Granite Works. Having lately purchased the stock of S A Riggs and G W Harris, we shall be pleased to show designs and give prices to all intending purchasers. Best of workmen employed and prices as low as any for first-class work. Visit us before purchasing elsewhere.

EDAN & ACHISON
(next door to Democrat office) Albany, Or.

KID GLOVES.—I have just received an invoice of the celebrated P. Centemeri kid gloves in black and colored. These with the other brands I handle, Foster genuine hook and Our Own brand, makes an assortment that any lady can be suited in prices and quality. These are all first-class goods and warranted as represented.

STOCKINET AND JERSEY JACKETS.—Just received a new supply. I think the best ever shown for the money.

SAMUEL E. YOUNG.

PATENT FLOUR CHEST.—Mr. E C Brown is canvassing the city selling a patent flour cabinet which is a model of beauty and convenience. Let those upon whom he may call give it a thorough examination as it will certainly please those who may purchase.

THE PROPER THING.—Marion county has ordered \$6000 appropriated towards building a bridge at Jefferson. That is active and means business as far as it goes. Linn county should do likewise at the next meeting of the county court. There are "no flies" on our people and we should be up with our neighbors, besides, Jefferson needs a bridge, and Linn county can as well afford it as its next northern neighbor, who also gives \$10,000 towards the Salem bridge. Before Linn county makes the order, though, it should amend its order, which reads: "It is ordered that \$6000 be appropriated toward building a free bridge at the town of Jefferson, across the Santiam, provided Linn county will pay the balance," and make it read so that county will pay its half; \$6000 is only one-third of the cost, and the order as made is very contracted.

A CHERKY TRAMP.—The usual monotony of the stop at Bonneville was varied Saturday, say trainmen, by a singularly entertaining incident. There were a number of Celestials on board who stopped at Bonneville and deposited, besides their usual luggage, several dozen chickens on the platform. A tramp who had chartered the free baggage, and was going nowhere in particular, watched this proceeding with covetous eyes. He had a sack in his possession, and slipping off the train watched for a favorable opportunity. He soon had the sack full of fowls and started at full speed up the side of the mountains, with the Chinamen in angry pursuit, uttering "kikies" of angry despair as the wily vag disappeared in the woods. —Pendleton E. O.

JUST FIKE BOYS.—Portland boys are causing trouble to the Cable Car company of that city. The cable running along the street is tarred and they have discovered that if a string is permitted to touch it the tar will carry it along. They then fasten a wad of paper to the string, and with delight watch it bob along up the road, riding on the slot rails. It isn't long, however, before the string catches upon a pulley and then it gets wound into a bearing and stops the wheel. Then the cable runs over one spot in the pulley and wears a notch in it, causing a jumping noise. Therefore the wheel is ruined and must be replaced by a new one. The sport is very dangerous to the boys and exceedingly costly. —Telegram.

POLITICS.—The county campaign promises to be an interesting one. Besides the two old party nominees there will be a new feature in the canvass, that of a set of Union nominees. How many votes the new party will poll is now of course a matter of speculation. There will be the usual talk about the contest being close; but, after all, it will be found that there will be numerous old time Democratic majorities. Keep track of the idea.

AN INDUCEMENT.—Col. Smith, of the Ind. regiment has offered a \$95 gold badge to the member of any company in the regiment getting the most recruits before July. Several Albany militiamen have their eye on it, and the DEMOCRAT hopes will secure it for this city, as it is a prize worth obtaining.

NEW ARRIVAL.—A large and complete stock of carpets, linoleum, oil cloths, shades, etc., at the store of A B McIlwain, all of the latest designs, and which will be sold at from 10 to 20 per cent lower than by other houses.

MADE TO CUT.—When buying an axe get the best, one that is durable as well as sharp, and the place to do it is at Price & Robson's, who also have a fine line of wedges, etc.

GET A MACHINE.—And when getting one let it be either a Domestic or Davis Price & Robson are agents for these superior sewing machines and invite an inspection of what they can do.

LARGE LUMINATION.—They are coming fast, from all quarters, and are large, plump fellows, dressed ready for a fine Sunday dinner. A large lot of chickens can be had at the Willamette Packing Co's store. Call early.

CENTER TABLES.—A large and elegant shipment of center tables, in new designs, finest stock in the valley, just received a Fortmiller & Irvings.

A RIGHT IDEA.—We refer to the large as. line of saws and carpenter's tools at Price & Robson's. The best in market and prices the lowest.

REMNANTS.—A large and fine line of remnants at G W Simpson's at your own price. Try it.

Carpet Department.

I have added about two thousand dollars worth of carpets to my stock this spring. New styles in 3 ply Ingrain tapestry and body Brussels; also hall and stair to match, rugs, cocoa and napier matting, hemp carpet, china matting, etc. I have also connected with my carpet department, lace curtains and curtain nets, portiers, window shades, wall paper, linoleum, and floor oil cloths. I have and am receiving the largest and best assorted stock in these lines of any house this side of Portland. These goods are all on the second floor, where I have them arranged so that buyers have very little trouble in selecting what they want. Plenty of room and light. Those Montith has charge of this department and will take pleasure in showing the goods at any time.

A few newspapers, perhaps with interested parties at the back of them, are trying to create a prejudice against Dr Lane as superintendent of the insane asylum. From all we can learn the institution was never under better management than at present. —Dallas Itemizer.

During the recent cold snap in Eastern Washington a stockman in the Big Bend country offered 1,000 head of cows, steers and calves at \$2 a head, but could find no buyer. There is no feed in that whole up-per country. They hardly needed any last year and that spoiled them and made people careless.

Slogger John L Sullivan got drunk in a saloon the other night, in New York, and dared to whip a young man seated at one of the tables. The young man with his right arm floored the boss slogger and immediately ran away. Sullivan arose and wanted to clean out the saloon, but his friends prevented him.
