

THE DAILY DEMOCRAT.

HINTS TO HOUSEKEEPERS.

It is said that one may live in a malarial region by avoiding the night air and by sleeping above the ground floor.

How to pick out a good lobster: If you examine a lobster that was alive when thrown into the boiler you will find that the tail is curled up to the body, while one that was dead has the tail extended. In buying lobsters this is a good thing to bear in mind.

To starch collars, make some gum water of clean gum arabic; keep it in a bottle, and when wished work a little of it and a trifle of common soda into the ordinary starch. It adds both gloss and stiffness to the collars.

Paint splashes may be removed from window panes by a very hot solution of soda, using a soft flannel.

Mildewed linen may be restored by soaping the spots, and while wet covering them with powdered chalk.

To extract paint from clothing: Saturate the spots with spirits of turpentine, let it remain several hours, then rub it and it will drop off.

Tarnished paint may be cleaned by rubbing with a cloth wet with kerosene.

It is a common occurrence for children to get beans, grains of corn and other foreign substances up their noses. This simple remedy is worth remembering: Get the child to open its mouth, applying your mouth over it and blow hard. The offending substance will be expelled from its nose.

The mother's kitchen is the girl's best cooking school.

If any housekeeper finds it imperative to clean windows on an icy cold day, she can accomplish it safely by using a cloth dampened with alcohol, which never freezes.

Scratches in varnish are removed if a coarse cloth well saturated with linseed oil is laid over them.

Carbolic acid has become so generally used in households for antiseptic purposes, and so many serious results have followed its accidental internal use, that it is well to know that soap is considered to be the best antidote. It should be taken at once and freely.

To clean coats: Take of ammonia two ounces, soap one ounce, soft water one quart, and a teaspoonful of salt; shake well, and let the mixture stand a few days. Pour enough on a coat to cover the grease spots; rub well; wash off with clean cold water.

Two ounces of common tobacco boiled in a gallon of water, rubbed on with a stiff brush, is used to renovate old clothes. It is said to leave no smell.

Marks on tables caused by hot dishes may be removed by kerosene rubbed in well with a soft cloth, finishing with a little cologne water, rubbed dry with another cloth.

For ingrowing toe nails use equal parts of mutton tallow, castile soap and white sugar made into a salve. Apply until the swelling is down, then trim the nail in the centre.

NOVEL USES FOR OLD PAPERS.

Most housekeepers know how invaluable newspapers are for packing away the winter clothing, the printing-ink acting as a defiance to the stoutest moth as successfully as camphor or tar-paper. For this reason newspapers are invaluable under the carpet, laid over the regular carpet-paper. The most valuable quality of newspapers in the kitchen, however, is their ability to keep out the air. It is well known that ice completely enveloped in newspapers, so that all air is shut out, will keep a longer time than under other conditions, and that a pitcher of ice-water laid in a newspaper, with the ends of the paper twisted together to exclude the air, will remain all night in any summer room with scarcely any perceptible melting of the ice. These facts should be utilized oftener than they are in the care of the sick at night. In freezing ice-cream, when the ice is scarce, pack the freezer only three-quarters full of ice and salt, and finish with newspapers, and the difference in the time of freezing and quality of the cream is not perceptible from the result where the freezer is packed full of ice. After removing the dasher, it is better to cork up the cream and cover it tightly with a packing of newspapers than to use more ice. The newspapers retain the cold already in the ice better than a packing of cracked ice and salt, which must have crevices to admit the air.

President Harrison is in a fair way to test his theory that it is easier to deal with a surplus than with a deficit. This Congress is evidently about to show how easy it is to get rid of a surplus without reducing taxes and revenues. But when the appropriations are increased to \$450,000,000 or \$500,000,000 and the Republican party has to deal with a deficit by increasing taxes it will then have to deal with the taxpayers at the ballot box.

The farmers who are using corn for fuel will doubtless be gratified to read of Carnegie's princely gifts to the cities of Allegheny and Pittsburg. It shows that Protection is benefiting some one.

PAISLEY & FISH, JOB PRINTERS, ALBANY.

The Republicans in Congress purpose to put a tax upon every dinner pail, tea kettle, tin can, tin roof and all other articles made of this article of universal use. Why? The Treasury does not need the revenue. There is already a surplus to squander. There are no manufacturers of tin plate in this country to protect. The tax is to be laid simply to enrich more speedily and more lavishly a small syndicate of speculators who claim to have discovered a tin mine out West! Thus are the bounties of Nature to this favored land made a means of robbing the people. They cannot use their own resources without paying a tribute to protected monopolists, nor buy foreign products without being fined thereby by the Government.

REY ALBANY PROPERTY first and last and all the time, yet if men must and will buy, Astoria lots and acre property always buy the best and nearest to water front and O R N docks, and that addition is Kinney's addition to Astoria, the nearest by one mile. While we have lots and acre property in nearly all the additions and acre tracts near Astoria, will be pleased to quote prices and terms on all and each of them.
