

DAILY DEMOCRAT.

Dr. Starr, of London, says that it is impossible to draw any conclusion from the size or shape of the head as to the extent or surface of the brain, and so as to the mental capacity. It is absurd to judge of the brain surface by either the size of the head or the extent of the superficial irregular surface which is covered by the skull, without taking into consideration the number of folds or the depth of creases. "For a little brain with many deep folds may really, when spread out, have a larger surface than a large brain with few shallow folds." Physiologists will probably dispute this theory.

Carpet Department.

I have added about two thousand dollars worth of carpets to my stock this spring. New styles in 3 ply Ingrain tapestry and body Brussels; also hall and stair to match, rugs, cocoa and napier matting, hemp carpet, china matting, etc. I have also connected with my carpet department, lace curtains and curtain acts, portiers, window shades, wall paper, linoleum, and floor oil cloths. I have and am receiving the largest and best assorted stock in these lines of any house this side of Portland. These goods are all on the second floor, where I have them arranged so that buyers have very little trouble in selecting what they want. Plenty of room and light. Those. Monteth has charge of this department and will take pleasure in showing the goods at any time.
