to use the new Messian, or second Christ, saw him and talked with him. They located him in the mountains beyond Salt Lake, and from their description of him he is an old man with a long white heard, which hangs down over his breast. Some days he wears white hair, and at other times has no hair, on his head, from which it appears that he is hald headed and wears a wig. He made one of the Cheve

Epoch,

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the great alterative and tonic. It you are troubled with any disease of kidneys, liver or stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 5to and \$t per bottle at Foshay & Mason's Drug store.

EUGENE, Or., May 13.—Mr A S Powers came down from the Blue river mines last night and reported the finding by James Wy-colf of the parts of the body of C B Hatch, who perished in an attempt to reach the sum-mit of the mountain, December 31 last, A thigh bone and some picces of clothing were found within half a mile of the Eugene Mining Company's cable, The body had been de-voured by wild beasts, Further search is be-ing made. corporations, says: "11("the Oregonian)" might show, as it has done over and over, that the constitution his done over and over, that the constant of a gives the legislature power to exempt from taxation property employed for munici pai purposes, and that the means employed by a city for supplying itself with water would fall within this definition."

It is not creditableto the sound judgement of the Oregonian to make such a specious argument. Can not the editor of that paper comprehend the plain proposition that when a municipality issues bonds and sells them to individuals, that these bonds then suddenly conspect this alternoon, throwing into the water four men who were on it. They were injured, but not, it is thooget, sev erely. This bridge was built by the San Fran cisco Bridge Company for the provinical gov ernment last year. It collapsed from the pres sure of ice last winter and the company were compelled to reinstate it. It now falls again, before the government has accepted the work, one o'clock, p.m. Sweet Home, Wednesday, May 25th, at are private property and therefore under the constitution could not be exempted from taxation by legislative enactment? Suppose a city had real estate which it deemed proper to sell and use the proceeds to supply itself with water, does the Oregonian suppose that the legislature could pass a law exempting such real estate from taxation because, forsooth, the city employed it as a "means" to secure such water? And yet these are parallel cases and stand or fall together. The Oregonian may not understand this but the voters of the state are rapidly coming to a comprehension of it.
