LOCAL RECORD

Good News.—It is a matter of considerable importance to Albany that Jas. F. Powell & Co., successors to G. U. Henderson, will keep the largest, freshest and best stock of groceries and produce to be found in the valley.

Scio Press Squint.—Tom Cornell, now of Albany's big real estate men, was in this city Tuesday.

Harry Chipman is now in charge of the P. roundhouse at Albany. As Harry is now married man it just suits him.

Wash Phillips is out with a new bug, the only one of its kind in these parts. A daisy, you bet.

Mr. Goins has established the rules and regulations to govern the electric light business. They are furnished cheaper than any other town in the state.

Born, near this city, May 5th, to the wife of Riley Calavan, twins, a boy and girl. Mother and children doing all and Riley is happy.

A Western Editor has invented an infernal machine which he places in a paper and sends to those who "refuse" to pay after taking it five years without paying for it.

The above from an exchange is a sample of the course taken by some newspapers to frighten delinquent subscribers into "paying up." There are men in the world who will pay their butcher bill but won't liquidate for their newspaper, and save dimes only tickle them. The Democrat long ago quit dunning through its columns. The above course, though, would be a very just one in some cases.

BOARD OF TRADE MEETING.—Mr. W. F. Beaver, representing the Salem Board of Trade, met a few members of the Albany Board of Trade last evening.

A WEEK'S BUSINESS.—Postmaster Thompson Monday furnished a week's record of the business of the office, something done all over the United States. As it was only a temporary affair he forwarded the record without keeping a duplicate, hence we are unable to give the figures, except on a cent letter. There were over 3500 of these, weighing 85 pounds, and the week was a very quiet one. Besides these there was a good record of postal, drop letters, etc. In Astoria, which will get carriers, the number of 2 cent letters was 4936, weight 108 pounds, being only a little above Albany. In Corvallis it was only half as much.

DIFFERENT CUSTOMS.—In Astoria the papers charge regular rates for giving notice of meetings, such as those of pioneer and historical societies, etc., so anxious are they to get wealthy. In Albany all these things are done free and the editors are often expected to help foot the incidental bills. As a newspaper concerns are its stock in trade there are some things that should be paid for, such as stereotyped memorials, cards of thanks, etc., and perhaps the Astoria style is all right, but it would cause a stir here.

AN INDEPENDENT PAPER.—The Stayton Sun, "The only paper in the upper Kentland," comes out with the following ticket, which is any excellent one so far as governor, state treasurer and supreme judge is concerned: Governor, Sylvester Penney; Secretary of State, Geo. W. McBride; State Treasurer, G. W. Webb; Supt. Public Instruction, T. C. Jory; State Printer, F. C. Baker; Judge Supreme Court, J. P. Bonham; For Congress, Maj. J. A. Bruce. It says: "Our ticket, found in this issue, contains several republican names, but you won't find D. P. Thompson's."

PHILHARMONICS.—Initiatory steps were taken yesterday at a meeting in Prof. Palmer's Musical Conservatory for the formation of a Philharmonic society. At 8 o'clock Thursday a meeting of men will be held to get members for the choruses. 50 cents a month will be the fee, so small that any musician can afford to belong.

FRESH THINGS.—Mueller & Garrett, to begin bottom side up, have just received a large and fresh supply of vegetables and fruits, finest in the market. Rush around and make your orders early, as things at their store go fast.

ALBANY MARBLE AND GRANITE WORKS.—Having lately purchased the stock of S. A. Kings and G. W. Harris, we shall be pleased to show designs and give prices to all intending purchasers. Best of workmen employed and prices as low as any first-class work. Visit us before purchasing elsewhere. EGAN & ACHSON, next door to Democrat office, Albany, Or.

WHERE TO GET THEM.—When wanting an organ or piano call on G. L. Blackman where you can select from a first class stock.

DR. M. H. ELLIS, physician and surgeon Albany, Oregon. Calls made in city or country.

3 cases Golden Star tomatoes for 50 cents 100 pears, and all other canned goods cheap or cash.

RAILROAD RUMORS.—A gentleman arrived in this city yesterday afternoon having come from Yaguina City on the early train, says the Salem Statesman.

He reports it to be the general talk at that place concerning the movement on foot with the Oregon Pacific and Southern Pacific companies wherein the former's road will become the property of the latter. He says that two extra trains came into that city on Monday night about midnight having the officials of the road on board, and that all hands in the shops were doing extra duty in repairing and arranging the machinery. As to the above rumor being perfectly correct he was not prepared to say, it might be stated that there are already plenty of rumors about the Oregon Pacific railway company—many more in fact than of any other line in Oregon. As a general thing, however, no reliance can be placed on what is heard about the road unless it comes direct from the officers. Col. T. E. Hogg, president of the company is a hard man to down, and when he says the company is going to sell out then there is a whole lot of truth in it. He and his brother W. M. are invincible workers when it comes to constructing this line across the valley and on east to a connection with some eastern road, and it is not likely that they will retire from this work until this object has been accomplished, and they can get on their private car at Yaguina and ride clear across Oregon without leaving the Oregon Pacific's rails.

RAILROAD ITEMS.—Creek county's wool crop will soon commence moving in earnest toward The Dalles—not to Albany over the Oregon Pacific.—Prineville News.

The Oregonian takes the item and makes it read better, as follows: Creek county's wool crop will soon commence moving in earnest toward The Dalles—not to Albany over the Oregon Pacific, as it will do in a year from now.

It will be remembered that the promise was made last fall that the crop should come to Albany; and it probably would but for the severe winter, and even now the ground is hardly in a condition for work at the front. The following from The Dalles Times Mountaineers should be a new incentive for the Oregon Pacific to push matters: "Engineers are out looking a route for The Dalles & Goldendale railroad, the survey of The Dalles, Prineville & Southern will be commenced next week. An agent of an Eastern syndicate is here to receive propositions for building both roads."

A COOL PLACE.—There is one place in Albany that will always be cool, no matter how torrid the weather becomes. The cold storage room of the Albany Ice Co. is the place. The temperature is kept at 35 to 40 degrees above zero, a very nice temperature to be comfortable in. The demand for space is already beyond the capacity of the room. Albany has been made the distributing station for Winehart's beer, and there is continually one to two car loads of the beverage stored there. Fruits, meats and perishable goods generally will be stored there during the warm weather. The Albany Ice Co. now has stations at Eugene, Corvallis and Grants Pass, with others being arranged, and will have its hands full the coming summer meeting the demands of the trade. One cent is very cheap in Oregon for ice, being a great reduction from the old prices, so that everybody can afford to keep cool.

A MARRIAGE MATTER.—T. C. Shaw and Commissioner Cornelius went with the O. P. officials to Gatsville yesterday. There were present President Wm. Hoag, Wallace Nash and Abraham Hackelman. The object of the meeting was to examine the damage done by the building of the railroad to the county road known as the Minto trail. A trip was made in a private car over the entire portion, and after fully examining the whole thing the officers of the railroad promised to repair all injury done the highway, and such necessary to build the same anew in such a way as to make it entirely satisfactory to the people of Marion county. The court has appointed Don H. Smith, of Gatsville to look after the county's interests, and the work will be done within a month.—Journal.

DESIRABLE FRUIT FARMS.—Those ten acre fruit farms in Sunnyside, four miles south of Salem, will make a good living for any diligent orchardist. The profit on prunes is \$200 an acre, and on berries the return is five fold. The soil and situation at Sunnyside are peculiarly well adapted to fruit culture and the man who owns a ten acre farm in that tract has a good living in his hands. The Oregon Land Company of Albany and Salem has a few more of those fruit farms for sale.

THUMB CRUSHED.—This afternoon a man by the name of Anderson, who works in the Red Crown mill, caught his thumb in the cogs of a wheel and it was badly crushed the bone being badly broken.

WALL PAPER.—I have just received from the east a large invoice of wall paper, borders, decorations, etc., including the plain ingrains which are becoming very popular. These goods are better styles and cheaper than ever before. SAMUEL E. YOUNG.

SPRING AND SUMMER DELICACIES.—The largest and finest line of foreign and domestic woolsens in spring and summer novelties just received and is ready for inspection at ZACHES & SON, Merchant Tailors and Drapers, Opposite Post Office.

ANOTHER ASSORTMENT.—Of fine Fruits and Vegetables, just received at Mueller & Garrett's. Green onions, Cabbage, Cucumbers, String beans, Cauliflower, Celery, Asparagus, Pie plant, etc.

TWO CAR LOADS.—Price & Robson have just received two car loads of wagons and buggies, light and heavy, and will sell them at remarkably low prices, considering the splendid quality of the wagons. Bargains at Read's.

The object of the meeting was to examine the damage done by the building of the railroad to the county road known as the Minto trail. The court has appointed Don H. Smith, of Gatsville to look after the county's interests, and the work will be done within a month.—Journal.

BARAINS IN ASTORIA.—The enterprise of the Astoria people in raising \$200,000 in twenty-four hours to bring the Southern Pacific railroad to that city has given a wonderful impulse to business at that point. The Columbian says: "The real estate market responded quickly to the enlivening touch of the railroad subscription," and the Astoria papers bristle with the stir and undertakings in progress there. The Oregon Land Company of Albany and Salem has for sale some choice locations in North Pacific addition to Astoria, and as prices are rapidly advancing, the earliest investor has the best show. Now is the time to make money.

DESIRABLE FRUIT FARMS.—Those ten acre fruit farms in Sunnyside, four miles south of Salem, will make a good living for any diligent orchardist.
