### ANOTHER FIRE AT SCIO.

### A Fire Bug Among Them.

A little after 3 o'clock this morning a oung man sleeping in the second story of the building adjoining Frank Mack's barber shop, smelt smoke coming up from the shop, and hastily dressing discovered that the inside of the shop was in flames. An alarm was given, and the citizens torned out enmasse. It looked as if the previous fire, just across the street, would be repeated; but the fire company did the best work in its bitzer, though not assist be repeated; but the fire company did the best work in its history, though not assist ed by the county candidates, and saved the adjoining buildings by some splendid work. Mack's barber shop, though, was entirely consumed, not a to sel even being saved. This boss amounted to \$300, no fin-surance. The building was owned by Alex Montgomery and was valued at \$250. It was insured in the Farmers  $\leq$  Merchants Insurance Co. of Aligny.

It was insured in the Farmers & Merchants Insurance Co., of Albany, The fire was the work of an Incendiary, and there is no doubt Scio has a fire bug. A man was heard just previous to the fire in that vicinity, and there are some effective states to indicate that we may be in-dentified. The people there are confident the villah is the same one who caused the other fire and nothing will be left undone to contire him. o capture him.

#### THEY BATIFIED.

LEBANON, Or., June 6. - Lebanon rati fied the election of Pennoyer and the county ticket last night by the firing of anvils and music by the band. A large crowd was in attendance. DEMOCRAT.

The Excussionists.—The excursion party arrived home at 9:30 last evening after an enjoyable trip. The Statesman tells about what they did there: As the ropes were thrown out the Second Regi-ment band, which was present to meet the excursionists, commenced playing and continued until the boat had been cleared of its party of nearly 300. The two bands marched to Commercial street, in the lead of the visitors, and played sev-eral numbers. Several hundred Salemites were on the river bank before the boat arrived and its whistle brought out a few hundred more. The Albany people spent the day visiting the state institutions and seeing the sights. The electric cars took them quickly to the penitentiary and asylum and the horse cars carried them to the city's northern and southern ad-ditions. After dinner there was a game of baseball at Wilbon avenue between the Albany organization having failed to put in an appearance, much to the disap-pointment of the Salem boys, who were anxious for a contest. While the games were in progress the band played, lending very much to the entertainment. At 4 o'clock the excursionists returned to the boat, which left at once for Albany, ex-pecting to arrive there at 90'clock. THE EXCURSIONISTS .- The excursion

pecting to arrive there at 9 o'clock. COMING .--- The McKanlass minstrels

are billed for Albany on Friday evening, June 13. The Spokane Review speaks as follows of this well known troup : The follows of this well known troup: The McKanlass minstrels played to another good house last night, and the encores were so numerous that the program was lengthen fully thirty minutes longer than usual. Master Willie, the boy wonder, and his little sister were recalled so often that they had to refuse. They certainly are wonderful children. McKanlass is justly named the Minstrel King and mu-sical phenomenon. Miss Griffin is a fine singer and Mr Sales is always funny. The company remain antil Sunday night.

dyspepsia, An exchange gets lots of crumbs out of the remark : "We'll beat 'em next time." The man who lives on "next times" soon becomes a skeleton.

Some one wants to know why it is that in this rushing age when people are al-ways in so much of a burry the old gen-tlemen are always secured to count the roles. Though they go slow they gener-ally go pretty sure. Live mining stocks and town latestraw

herries fluctuate in price, and like the ignis fatures before you know it they are gone. We know a person who is never so well as during the strawberry senson, a fit time to take the consus-

Several Oregon cities have been telling what their populations would be reckon-ing from the number of votes in the city predicets. As the precincts go several miles into the country the test is a very peer and unreliable one,

In 1888 the total vote in East and West In 1855 the total vote in East and West Albany was 550. This year the yote in the same territory, now covered by four precincts was 1050, showing an increase of 251 votes, indicating an increase in population of about 1250, a healthy show-

Election bills in Oregon seem pretty targe to some people; but in England they would be triffing affairs to the man running for a seat in Parliament. There with fewer to hay the price is enormously high. Men with property do not sell their votes for \$2.50 pieces.

Most men had rather pay their way in this world than not. One of the other kind came to light on the Salem excur-sion. He jumped on the boat, he thought unseen, willhout a ticket; but he was spotted, and on returning was watched and asked for a ticket at the gang plank. Not having it he backed away and re-turned by some other conveyance. Com-ment is not necessary in such a case.

An Albany man who stopped at a Sa-lom hotel a few days ago over night, says he was charged \$1.50 for a bed. That was pretty high even in a kigh hotel.

#### bunnyside Fruit Farms,

Salem continues to grow and the building industry never was so actively pur-sued in this city before. This activity extends to the section adjoining the city, and each contributes to the others prosper-ity. This condition of affairs gives added value to those ten-acre fruit farms at Sunnyside, four miles south of Salem, for sale by the Oregon Land Co., and renders them increasingly desirable to those who them increasingly desirable to those who wish to engage in any farm speciality.
