Portland, Oregon,
Dear Sir: In reference to your inquiry as to kow I liked my Advance Thresher, purchased of you this year, will say the Advance does more and better work than any other machine I ever saw, and I have seen all that are represented in Oregon.

It threshes faster, cleans the grain better, runs lighter and saves the grain better from the straw, than any other machine, and seems to be strong and durable. I am ready at any time to go into a trial with any other machine [except the Advance] and thresh for from \$100 to \$500. They are the best in the market without doubt.
