

DAILY DEMOCRAT.

WEATHER CROP BULLETIN NO. 17.

Of the Oregon State Weather Bureau, co-operating with U. S. Signal Service, Central Office, Portland, Oregon, for the week ending Saturday, July 5th, 1890:

WEATHER.

The forecast of the week was extremely warm, latter part cool and cloudy, with local rains to-day.

The temperature ranged from 90 to 108 degrees on June 30th and July 1st, in all parts of the state, except along the coast. Local thunder showers prevailed on the last two days of June and first day of July. On June 29th a very severe thunder storm, accompanied with rain and hail was experienced in a few miles north of Grants Pass, Josephine county.

CROPS.

The extreme heat of the forepart of the week did very little injury to crops. The weather during the latter part of the week was very beneficial to the growing crops. Fall wheat is now generally past the point that the weather could injure it. Spring wheat is doing remarkably well, and if no unforeseen causes interfere the yield will be much greater than anticipated. The warm weather was beneficial to corn which is growing well.

Columbia county reports a fair crop, on uplands very good; in Washington county hay is an average crop; in Clackamas county fall wheat will be ready to cut inside two weeks, crop will be an average one or more, spring wheat and oats growing well; in Yamhill, Polk, Marion, Benton and Lane the wheat outlook is very promising, spring wheat will make more than was expected, corn, oats, hops and hay will average well. Codlin moth doing some damage, fall wheat will soon be ready to cut, heads are well filled. In Douglas county good crops are now assured. Josephine and Jackson counties will have fair cereal crop. Fruit crop will be large, except peaches, melons promise to be plentiful, berries are in abundance. Clatsop, Tillamook, Coos and Curry counties will have very good crops, fully up to the average.

Hay is quite generally reported to be short in Western Oregon and reported to be an average crop in Eastern Oregon. Wasco county has indications of a better wheat crop than for years, the same for Morrow county. Sherman and Gilliam counties report average crops. In Umatilla and Union counties reports indicate a yield of from 30 to 50 bushels per acre. Wallawa, Baker, Crook, Grant and interior counties bid fair to make average or more than average yields. The present outlook is most encouraging for a fine harvest throughout.

B. S. PAGE, Observer U. S. Signal Service, Assistant Director Oregon Weather Bureau.

I have just received a large invoice of lace curtains, ranging in price from one to nine dollars a pair, scrim, curtain nets, etc. Also a line of curtain poles and furniture covering.
