THE SAME LOGIC.

The Oregonian says: "The news that China is likely to retaliate upon the United States for the exclusion of her people from this country, by shutting Americans out of the Celestial empire, ought to create no surprise. As a matter of simple justice, a republic ought to be ready to concede all that it demands, whether it be in the line of national courtesy or of international traffic."

Now, let us apply this logic to the matter of excluding a nation's trade by the means of a protective tariff. This, then, would be the argument: "The news that foreign nations are likely to retaliate upon the United States for the exclusion of their trade by means of a protective tariff ought to create no surprise. As a matter of simple justice, a republic ought to be ready to concede all that it demands, whether in the line of national courtesy or of international traffic. It is just this logic that makes Blaine favor reciprocity. The world will very soon come to reciprocity."

The silver conference committee has compromised the difference on silver between the two houses of congress. They have agreed that the secretary of the treasury shall purchase 4,500,000 ounces per month and to issue there on silver certificates redeemable upon demand in lawful money. Bullion redemption is given up by the house and the senate yields up unlimited coinage.

Governor Nichols of Louisiana had the courage of his convictions. He vetoed the infamous lottery bill. While his course may not be approved by a majority of the people of his own state, a large majority of the best people of the nation will heartily approve the veto.

Republican papers are busy in telling how much antagonism there is between Cleveland and Hill. These papers should spare their pains. Governor Hill has too much good sense to antagonize Cleveland, and Cleveland only antagonizes the robber tariff and its defenders.

Henry J Gallagher, 56 Prince Street, N. Y., writes: "Having been troubled with pains in back and chest during the last winter I was compelled to remain at home unable to attend to business, until I was advised by a friend to try one of Adams's Porous Plasters. After applying one to my chest and one to my back, in three hours I found relief when I had not got in over three months. I cheerfully recommend them to persons having spinal weakness and lung trouble."

TELEGRAPHIC NEWS

The Hewitt Murder.

PORTLAND, July 8, 1889.—The following particulars given of the murder of C H Hewitt by Charles Belgrade, the saloon keeper, at Seiwold. Last night the two men were drinking together in the Clayton saloon, opposite Belgrade's hotel, and both are said to have been under the influence of liquor. About 11 o'clock, Belgrade, who was living alone, prevailed on Hewitt to accompany him home. This forenoon they were seen together again, still drinking. Leaving Clayton's saloon they returned to Belgrade's house. Shortly after noon people heard the report of three pistol shots issue from the house. A few moments afterward Hewitt was seen to come out of the back door, closely followed by Belgrade carrying a shot gun. After going a short distance Hewitt fell on his knees. Rising to his feet he again started to run, when Belgrade raised the shot gun to his shoulder and fired. Hewitt ran a distance of about forty feet and fell on his face. Bystanders rushed to him and turned him over. He gave one gasp and expired. After Hewitt had fallen Belgrade returned to the house. In a few minutes the coroner and deputy sheriff arrived at the scene of the killing. While the body of Hewitt was being cared for, a deputy sheriff went to the house for the purpose of arresting Belgrade. Going into the room, the deputy found him lying on the floor in a pool of blood, dead, with his throat cut from ear to ear, holding a blood stained razor in his right hand. The trouble arose over Hewitt getting a divorce for Mrs Belgrade.

Torn to Pieces.

GREGG CITY, July 8.—George Way aged 15, began tending a picker this morning, and this afternoon his hand was caught and literally torn to pieces, by the fine teeth on the cylinder and before the machine could be stopped his hand was drawn in up to the wrist and he was held up on the feedboard with his hand fast. Before he could be freed the rolls had to be broken with a sledge hammer. The hand was amputated above the wrist.

Sweating Strikers.

NEW YORK, July 8.—The thermometer at 90, and under the scorching sun, about 7000 locked out cloak makers paraded through the principal streets to-day, while the strikers were in Union Square. Secretary Garside delivered a brief address, in which he said he hoped the men would be of good cheer and use no violence, for they were about to meet with success. A projected mass meeting for this evening was abandoned.

Brant White Cappers.

LOUISVILLE, July 8.—White cap outages have broken out afresh in Harrison county, Ind. Last night a band of nearly thirty visited the county pothouse and took Superintendent John H. Denboe from his bed and gave him twenty five lashes on his bare body. He was charged with mistreating the inmates. Hickory switches were used in his chastigation, and he was very severely handled. His flesh was cut in places and he was left bruised, bleeding and almost insensible.

Didn't do Well.

LA GRANDE, July 8.—Dr J W Strange, supervisors of census for the second district of Oregon, to-day announced the approximated population of the four leading cities of Eastern Oregon, as follows: The Dalles 3000, Pendleton 2500, Baker City and La Grande, each, 2500. These figures are not up to what was expected by some and not what was expected by the supervisor himself, but it is all the population these cities have, as the work is generally conceded to have been well done by the various enumerators.
