

THE DAILY DEMOCRAT.

HINTS TO HOUSEKEEPERS.

Salt eaten with nuts aids digestion. MILK which stands too long makes bitter butter.

The surest way to have clear jelly is to let the juice drain through a flannel bag, without squeezing it.

Keep a little beeswax tied up in a cloth to rub your flatirons with, and you will find that even a white shirt to be done up will soon become a pleasant work.

To remove fruit stains from linen, rub the part on each side with yellow soap; then tie up a piece of soda in the cloth, and soak well in hot water; afterwards expose the stained part to the sun and air until removed.

Paper or pasteboard may be rendered waterproof as follows: Mix four parts of slaked lime with three parts of skimmed milk and add a little alum; then give the material two successive coatings of the mixture with a brush, and let it dry.

A simple remedy for round shoulders is to stand facing a corner of the room, and with hands extended on the wall in either direction, and the feet firmly placed, to move the body slowly toward the corner. This exercise, faithfully repeated every morning will make the form beautifully erect.

To keep the bright green color of summer cabbage and some other vegetables, boil fast in plenty of water in which has been dissolved a piece of washing soda the size of two peas; cover until the water boils and then take off the lid. If the steam is shut in the cabbage will be yellow and unsightly.

Small tears in woolen goods should be darned with ravelings of the same, having first put under a piece of the cloth, and afterwards pressed carefully. Breaks in black silk garments may be mended with bits of court plaster, and if the lace curtains become torn, wet a piece of lace in starch and iron it on the wrong side of the curtain.

To clean and restore the elasticity of cane chair bottoms, coaches, etc., turn up the chair bottom, etc., and with the hot water and a sponge wash the cane-work well, so that it may be well soaked; should it be dirty, you must add soap; let it dry in the air, and you will find it as tight and firm as when new, provided the cane is not broken.

To destroy moths and other vermin: Dissolve alum in hot water, making a very strong solution; apply to furniture or crevices in the wall with a paint brush. This is sure destruction to those noxious vermin, and invaluable because easily obtained, is perfectly safe to use, and leaves no unpleasant trace behind. When you suspect moths have lodged in the borders of carpets, wet the edge of the carpets with a strong solution; whenever it reaches them it is certain death.

The crowning piece of impudence occurring the present session of congress is to be credited to Henry Cabot Lodge, though probably he had a number of party associates in the affair. It was an attempt to keep from the press and the republican members of congress generally the compromise Lodge-Rowell election bill, which was the subject of discussion at last night's caucus. The introduction of the bill after its completion was placed in the hands Mr. Lodge. He introduced it on Saturday afternoon in such a way as to attract no attention, and then sent a note to the files room to have it kept away from the newspaper men.

For the first time in the history of congress a bill of this sort was kept out of sight after its introduction, the manifest purpose being to keep the republicans of the house in ignorance of the details of the bill until it could be dragged through the caucus. This piece of cheek came near being a success, but about 3 o'clock yesterday afternoon Lodge was smoked out and was forced to make the bill public after having successfully concealed it for nearly two days after its introduction. The Yankees in the house are crafty, with the nerve to back it up.

A correspondent writes to the Boston Transcript (Rep): "The present duty on pearl buttons is 25 per cent. ad valorem. On a recent importation, duties were paid at the above rate amounting to \$491.25. The same invoice, if entered at the rate proposed in the McKinley bill, would be subject to duties amounting to \$8,347.28. These figures are exact. There are about 200 hands employed in the pearl button industry in this country."

Stanley says that during his recent African expedition he came across a new and interesting race of blacks, the Wanomas, who were absolutely European in type and very intelligent. They appeared to be descendants of the ancient Ethiopians, settled in some way not known to him in equatorial Africa. These people never intermingled with the aboriginal races, but kept their blood intact, considering the ordinary negroes beneath them.

If you want a lovely odor in your rooms break off branches of the Norway spruce and arrange them in a large jug well filled with water. In a few days tender, pale green branches leather out, soft and cool to the touch, giving the delightful health-giving odor.

WHERE TO GET THEM.—When wanting an organ or piano call on G. L. Blackman where you can select from a first class stock.

The federal elections bill will give the party in power between 250,000 and 300,000 additional places to fill with its heelers. It will cost the government about \$12,000,000 annually, and the expenditure will be in effect so much added to the republican campaign fund.

Leaving the United States and Canada out, fully ninety-five per cent of the telegraph lines of the world are owned by governments. There are at least \$2,500,000 miles of wires in use in the world.

Eugene City Bonds For Sale.

NOTICE IS HEREBY GIVEN THAT under the provisions of an act of the Legislature of Oregon entitled, "An act to incorporate the City of Eugene and to repeal all acts and part of acts in conflict herewith," filed in the office of the Secretary of State, February 20th, 1889, the common council of the City of Eugene will issue and dispose of the bonds of said city at par value of from \$20,000 to \$50,000, in denominations of from \$100 to \$1000 as the purchaser may desire, payable 30 years after date of issuing the same, with interest thereon at the rate not to exceed 5 per cent per annum, payable semi-annually.

Sealed proposals to purchase said bonds will be received by the undersigned at Eugene, Oregon, until Sept 1st, 1890, and all proposals received will be opened and considered on the 5th day of Sept, 1890, and said bonds will be disposed of to the person or persons making the best offer or offer therefor.
The common council reserves the right to reject any and all proposals. By order of the council.
May 21st, 1890.
