Some Our Property - Yesterday was the 88th birthday of Mrs Fisher, mother of Mrs Jas Elkins. The event was duly celebrated by an old folks party that was pro-nounced a very billarious and enjoyable affair. Most of the furniture, though, re-mains intact in Mr Etkins hundsome residence. Though tatended purely for old people several younger women were invit-ed. Mrs Dr Sewart, who is only 70, being allowed to attend, and was the youngest of the invited guests. Mrs Althouse, mother of Mrs 8 E Young, 90 years of age was the oldest. The afternoon was spent very oldest. The afternoon was spent very harmoniously. A nice tea was served in the evening which showed that at least appetites remain youthful. Mrs. Fisher, according to present indications a good for several more birthdays and the Descocast topes to be able sometime to tell of her rooth birthday.

CUT THROATS. - A Pendleton paper says Robinson's circus is accompanied by a Robinson's circus is accompanied by a big crowd of the worst ent throats ever in the northwest, the shell man, the berry man, etc, all being an hand. As usual a lot of smart alceks tried to beat the strangers and several bundred dollars were captured. Such open robbery should not be allowed, and right here we ask why it cannot be prohibited when the circus reaches Albany. At least these thieves should me be ficensed, even though they ask for the license under some other name. All the same, if allowed to play their games the same old greenies will be on hand to lose their money.

HARVEST True. Matters are becoming lively out through the country, where harvest is in full blast. The binder is singled in annual song "give us a doltar a bustlet," on nearly every farm, and the golden stalks bound in sheaves are telling of a pretty good harvest. In a few days the threshers will begin work and the precious grain will be placed in readiness for storage until the price raises, probably after a big expense account to be sold at no increase in price over the October or November market. For awhile the farmer will be scarce in the city and the streets may look quiet, only to give place to an after harvest bustle that promises to be big. lively out through the country, where har,

HELD BY THE ENEMY .- A Very appreciative audience witnessed the rendition of the above play last evening, and the troup sustained their reputation as first-class comedians. The play is full of the predicaments and elever hits, and was as well one containing scenes of deep inter-est. The two nieces by Belle Inman and Louise Howard were particularly well presented, as were all of the leading parts. To-night Black Diamonds, or the Mollie McGuires, will be given. parts. To-night Black Diamond Mollie McGuires, will be given.

FAITH WOST SET BONES .- In response to a telegram, Mrs Jennie Frazier, the faith cure doctor, of Salem, came to Al-bany last evening to attend Mr Jos Eagan, injured in z runaway accident. It was thought two or three ribs were broken, but this is not known for certain, as no surgeon has yet examined Mr Eagan's injuries, he refusing to have any one but a faith cure. This is a free country, but a good surgeon is good enough for the writer when his bones get broken. Faith cure can't set bones nowadays.

SENDS OFF THE BEST. - Opic P Read, editor of the Arkansaw Traveler, is writing some very funny articles for the New York World, appropriately illustrated. Several in Albany who subscribed for the Arkansaw Traveler would like to have Opic, who knows how, once in awhile to write for his own paper, which is not so very much appreciated as gotten up now.

A FORMER ALBANIAN, -S R Copeland, of Harney, was granted a license on the 5th inst, to wed Miss Virginia A Ed.nunson. The bride elect accompanied the bridegroom to Burns, and immediately after the issuing of the license they were married by the Rev E K Taylor,—Burns Herald.

QUITE ASTONISHING .- Probably the largest and finest line of fruits, vegetables, etc., ever brought to Albany, may be seen at J F Powell & Co., just in from Califor-nia. For peaches, apricots, pine apples, berries, etc. Cal on them.

WARM WEATHER .- A fine stock of refrigiator, and the cream freezers may be seen at Stevert & Sox's. Nothing like them for the house.

A Live Game, Every day a live game is played at the corner of Second and Ells worth streets, where Mueiler & Garrett and their cierks have to run to await on all their customers. They now have a five line of fruits and vegetables on hand

AN EMBARKSSING POSITION .- The fol lowing census story is from the Walla Walla Statesman, and as it is a little different from anything else, we give it to

One of Walla Walla's modest young One of Walla Walla's modest young enumerators had a rare experience. In one of the families he visited he found the mother in bed, while three little children tumbled around promiserously at their own innocent will. The enum-erator, with some difficence, inquired of the lady if she was sick. She replied with a sly twinkle in her eye, that she was. Our young census taker then in-famed her that it was his duty to record consed her that it was his duty to record he nature of her disease. Without unthe nature of her disease. Without un-necessary parley, she pulled down the covers and revealed to the blushing emmerator as plump a specimen of infantile humanity as was ever beheld. The first mine to be given to it will be the same as that of the blashing young consus-tator for North Walla Walla district, and the reporter has the facts from the haly berself.

ONE OF THE BEST country companies that has ever played here is announced to appear at the opera house next Tuesday. It is H Gratian Donnelly's latest comedy, "A Pair of Jacks," which has just closed a most successful two weeks engagement at the Eush street theatre. The play is said to be very funny, and the plot certainly bears out that statement. The prediction has been given. Manager W O Wheeler has gone on that principle that when the people go to the theatre to be amused, they want good, clean, bright amusement and plenty of it. He has accordingly made the musical features strong, and has provided a cast with good looks and voices. The corps of comedian singers, dancers, and to appear at the opera house next Toescast with good fooks and voices. The corps of comedian singers, dancers and specialists includes R G Knowles, Wm Russell, Sol Aiken, Julius P Witmark, John P Savage Ernest Sinelair, Mollie Thompson, Jellula Evans, Julia Aiken, Nina Heyward, Winifred Johnson, Alice Greene and Margery Thompson.

THE MATTER SETTLED.-Every established local newspaper receives subscriptions from large cities which puzzle the tions from large cities which puzzle the
publisher to account for, but the New
York Times lately threw some light on
the matter: "A wholesale grocer in this
city, who has become rich at the business says his rule is that when he sells
a bill of goods on credit, to immediately
subscribe for the local paper of his debtor. So long as the customer advertised
liberally he rested, but as soon as he began to contract his advertising space, he
took the fact as evidence that there was

lew, if any, 'towns in Oregon the size of Prineville that serves as a depot of sup-plies for an area of country nearly or quite seventy miles square. It is little wonder, when the facts are considered, that a single mercantile house in this town will some times seil in one day as much as five thou-sand dollars worth of goods. The annual purchase of stockmen's supplies in this town is simply immense. No purely purchase of stockmen's supplies in this town is simply immense. No purely agricultural region is more prosperous than our own. Our wealth is our stock, from the sale of which we get more profit than the valley farmer can possibly obtain from the sale of wheat at 75 cents per bushel—News. A Princeille man informs us that one firm there did a business of \$125,000 a year, until this year, when it will drop to \$40,000 to \$20,000, due to the recent disastrous winter.

We have a railroad commission in this state, drawing an aggregate salary of \$9,500 a year. What do they do? They draw the salary. That's all,—Astorian. "Correct you are," and it makes the

average citizen mad to contemplate the average citizen mad to contemplate the fact. Nothing causes more general in-dignation than for a man to get pay for doing nothing. Huntington discharged a wivile crowd of just such men as form the railroad commission, and it is to be hoped Oregon's next Legislature will have as much sense as Huntington.

NICE SPOKANE, - A spasm of virtue has NICE SPOKANE.—A spasm of virtue has struck in on Spokane Falls, and every device is being tried to hunt out and pun ish the erring. The latest and most novel means pursued is for a good looking police officer to go around the city luring big fat women to sit on his lap in order to testify against their character. Why he should pick out "big fat women" is a conundrum, unless on the principle of the Hoosier schoolmaster to "git a plenty while you're a gitting,"—Yakima Herald,

At five oclory, this consists a difficulty.

At five o'clock this morning a difficulty arose between the horse loss and the tent gang boss at the circus grounds. The former struck the latter over the head with a tent stake, inflicting a sovere wound. The latter then drew a pistol and fired, but missed his antagonist, who ran like a deer and scoreted himself in a show wagon. In the meantime a negro employe disarmed the man with the pistol, and peace was soon restored.—E. O.

AN UNSETTLED MATTER -In some maccountable manner, says the Spokane Falls Review, the impression has gained credence throughout the northwest that Spokane Falls has raised \$5,000 to be offered in prizes at the next annual tournament of the Northwestern Firemen's Association as an inducement for the holding of the tournament in this sity. In all ing of the tournament in this city. MR. Z. T. WRIGHT,
Portland, Oregon,
Dear Sir: In reference to your inquiry as to Now 1 liked
my Advance Thresher, purchased of you this year, will say the Advance does more
and better work than any other machine lever saw, and I have seen all that are represented in Oregon.
It threshes faster, cleans the grain better, runs lighter and saves the grain better
from the straw, than any other machine, and seems to be strong and durable. I am
ready at any time to go into a trial with any other machine [except the Advance] and
thresh for from \$100 to \$500. They are the best in the market without doubt. If
you desire you can refer to me at any and all times.
