

Healthfulness of Water Supply

MINTHORN.

In the selection of a residence location no element is so important as that of healthfulness, and no single element contributes so much to the healthfulness of a locality as water supply. In this respect Minthorn Springs is easily superior to any residence locality in the city of Portland. It is high, and drainage is complete. The water supply is from a spring capable of abundantly supplying 25,000 people with water. A distance from the river of one-half mile places it out of reach of malaria. A system of water works will at once be constructed, so that parties building will have an abundant supply of pure cold water direct from the spring.

Some Facts in Regard to its Location in Reference to the Business and Employment Centers.

PORTLAND is the great manufacturing center of the Northwest. Portland's source of power for manufacturing purposes is at the falls of the Willamette river at Oregon City. Already the manufacturing interests of Portland, mostly conducted at Oregon City, produce an income of \$20,000,000 annually. They are constantly growing and increasing. This great manufacturing center is distant on one side 8 1/2 miles from Minthorn Springs, while Portland, the great commercial metropolis and business center of the North Pacific coast, is 5 1/2 miles distant in the opposite direction. It requires no stretch of imagination to see that the country intervening between Portland and Oregon City [the base of power supply] is the natural residence location of the business men, and busy workers and wage earners who keep in motion the various enterprises of the commercial and manufacturing interests of the North Pacific coast.

At This Time the Property Reached in 4 Ways.

VERY CONVENIENTLY.

FIRST. By Southern Pacific trains running through the property.
SECOND. By Willamette river steamers running every hour in the day, 5 cent fare, the ferry to the property.
THIRD. By Portland and Willamette Valley trains to the White House and across the ferry to the property.

FOURTH. By carriage on the beautiful drive controlled by the Multnomah Driving Association. The most beautiful carriage way in the United States, commanding the most beautiful scenery; wooded hills on one side, Willamette river on the other, and snow capped mountains in the distance. The beautiful drive is kept sprinkled during the entire summer season.

Some Facts in Regard to its Location in Reference to Rapid Transit Facilities.

FIRST. The Southern Pacific Railroad, whose line runs directly through this beautiful valley, has existing each way three regular trains, and is contemplating a proposition to inaugurate an hourly suburban service from Portland, giving a fare of 10 cents for the round trip.

SECOND. The Woodstock Motor Line, already graded to a point within one and one-half miles, will eventually be extended to this property.

THIRD. A company incorporated in Oregon City to run an electric motor line from that city to Portland propose to construct their line through Minthorn Springs property.

FOURTH. A company now organized and stock subscribed to build a steam motor line between Portland and Oregon City will run their line within a quarter of a mile of the Minthorn Springs property. For a city

DAILY DEMOCRAT.

A GRAND SCHEME.—The Oregon Pacific Railroad company could increase its revenues and at the same time provide a convenient means of pleasure and recreation to many people of the valley, by putting on a special train from Albany east to the mountains every Saturday evening and back Monday morning. As now arranged, a person going by train to the upper Santiam country has to stay in Albany over night, and cannot go up the O.P. at all Sunday, so that hundreds who would avail themselves of a weekly chance such as above suggested are now deterred from so doing. The attention of the O.P. officials is respectfully directed to the matter.—Journal.

LEBANON EXPRESS NEWS.—Draw a triangle including the Calappa and Santiam mines with Lebanon in the acute angle, and you have our exact position with reference to these two localities. If Lebanon does not become the distributing point for these mines, then we will acknowledge that the prophet is dumb and the seer is blind.

We had the pleasure of riding to Waterloo Tuesday in company with J. K. Weatherford and Thos. Kay. These gentlemen went up to examine their possessions at this celebrated resort. From time to time they have been adding to their property until to-day they own 218 acres of land, including several houses, and a water power second to few in the state.

BUGGIES AND HACKS.

The best makes are to be found in Albany at Price & Robson's, who have just received a carload of the finest hacks and buggies to be found. Their prices, considering quality, are remarkably low. It pays to ride in a good buggy or hack. Keep this fact in your head, and when getting one call on Price & Robson, who have the largest variety to select from.

Evacuate the system, reduce the vitality and weaken the energies. In this condition, the body readily falls a victim to disease. Fortify the system against these debilitating influences, by taking Dr. Hiller's Hydrastine Restorative. It enables the nutritive system to absorb sufficient nourishment to keep the body vigorous and healthy, and in a fit condition to resist disease.
