ROAD TALK.—Mr Miller, reader of the Gazette office Friday. He informed that he had just received word that the Pacific is about to secure control of Oregon Pacific, and that that road will rush it through to Boise this season.

ADDITIONAL LOCALS ON 4TH PAGE.—Mr Miller, reader of the Gazette office Friday. He informed that he had just received word that the Pacific is about to secure control of Oregon Pacific, and that that road will rush it through to Boise this season.

GRIZZLY BEAR.—Our citizens will remember the account in the papers last week of the killing of an immense grizzly bear in the Siskiyou, known as old Foot. He had been the terror of the country, killing an immense amount of stock, resulting in a large reward being offered for his death.

ACCIDENT.—Daily accidents occur in which individuals become more or less incapacitated to follow their usual avocations. In such cases it is a great convenience to be insured in some safe Accident Insurance Co. Such is the Union Mutual of Chicago. Any male person over 18 and under 65 years of age is eligible to membership.

ONE-SIDED.—A couple residing near Salem have just been married. The man aged 72 and the woman 56. The marriage contract shows how a woman can shield the wolf from the eyes of men. Should she die first he is to get none of her property, but should his days come to an end she is to receive his wealth.

GAS.—The matter of getting gas at Drain seems to be a matter of "prospect," as same as at Astoria and with W S Ladd. Says the Plaindealer: "Boring for gas at Drain is progressing with more and more favorable indications. Boring will continue until the well is 1000 feet deep unless gas or oil is sooner reached. It is now thought that something will be struck before half that depth is attained."

CORNER STONE LAYING.—The cornerstone laying of the new M. E. Church will take place to-morrow evening, the exercises beginning at 6:30 p. m. Rev S P Wilson, the presiding elder, and several other ministers are expected to be present and participate in the exercises, which promise to be of a very interesting nature. A cordial invitation is extended to all to be present.

TO NIGHT.—The Board of Trade meets to-night at the Council Chambers. There should be a full attendance. Albany is in position now to act with good results. The recent census shows that the city is not made up of a pack of liars and that our word can be relied on. Suppose we organize a light lively and take advantage of the plentifully we have gotten.

THE MILL BEGUN.—The gentleman Mr J F Haswell, who was in Pendleton some months since and remained here several days, seeking assistance to establish a woolen mill, and went away without being assisted, met with better success at Spokane Falls. Capitalists there subscribed to \$75,000 of the stock in three days and work on the mill has commenced. The mill will employ one hundred hands.—E. O.

AHEAD OF TIME.—The freshest and best groceries and fruits in the market at Jas F Powell & Co's. Get your canned goods at Jas F Powell & Co's. Jas F Powell & Co lead in the grocery business. Jas F Powell & Co are rushed with business because they have the goods and give bargains.

QUITE ASTONISHING.—Probably the largest and finest line of fruits, vegetables, etc., ever brought to Albany, may be seen at J F Powell & Co, just in from California. For peaches, apricots, pine apples, berries, etc. Call on them.

OH! YES.—Call at J R Douglas' confectionary store for choice ice cream, 10 cents a dish, milk shake, 5 cents, and everything else equally cheap. First street, opposite Russ House.

FOR SALE.—The undersigned will sell at public auction at Schmeer's stable, in this city, on the 26th day of July, 1890, at 10 o'clock a. m., a number of good horses. Terms of sale: Six months time without interest, with approved security.

WARM WEATHER.—A fine stock of refrigerators and ice cream freezers may be seen at Stewart & Sox's. Nothing like them for the house.

MUSLIN UNDERWEAR.—In great variety of styles at bottom prices. Samuel E Young.

NEWS.

Saturday was the 7th anniversary of the Salvation Army on the Pacific Coast.

There is a woman fakir with Robinson's circus who runs a knife, ring and cane game.

Salem has 200 more population than Albany. We weekly admit it now that the census has been taken.

The late Charles H Hewitt left a daughter by his first wife, aged about ten years, now a resident in Burns, Oregon, who is heir to any property left by deceased.

The latest play on the tapis is one called "The Oath." A horse appears in the play and throws his rider in a tank of water. A large dog appears, bites the horse, who disappears, and then the dog, and the horse, plunges into the tank and drowns the man.

It may be a source of satisfaction to our citizens to know that ten years hence, when the census man will again be around, that the Queen City will have added another goose egg to her present figures, making her population 25,000, very happily says the Blazer, City Democrat.

The Willamette Valley never has had a cyclone, but recently it had a cyclone among other places, doing great damage, tearing off the roof of the Statesman office, demolishing electric wires, mashing a lot of boom pamphlets and demolishing matters generally.

H F Sloan, a real estate dealer and hotel keeper of Gray's Harbor, has jumped the country and left a number of mourning creditors to get what consolation they can out of his new remaining effects. Sloan was last seen at Hoquiam on July 17th and it is supposed he went to the Sound and thence to British Columbia or to California. Sloan collected together as much money as he could get, by some supposed to be \$5,000 or \$6,000, before skipping.

THE JACKS.—The Cincinnati Enquirer says of "A Pair of Jacks," which comes to the Opera House to-morrow evening, "Havill's Theater, had the appearance of mid-season yesterday, when 'A Pair of Jacks' opened. The lobby was crowded with ticket buyers, and at both the afternoon and evening performances the house was packed by enthusiastic auditors. The gratifying was assuredly made a most performing hit, and the bits of comment made by those who came between the acts were of the most favorable tone. There is just enough of distinct in 'A Pair of Jacks' to lift it from the classification of a farce comedy pure and simple. The humorous complications into which Judge Jack and Dr Jack are involved are never lost sight of. R G Knowles, in the first named character, displayed the same quality of comely ability that made him a valuable member of the company at Augustin Daly's theatre the past season. W J Russell, as Doctor Jack, was quite of his co-worker in the matter of fun making, and these two had the most valuable assistance in the person of Sol Alken, whose work in the old man's character stood out with marked prominence. Mollie Thompson is a sourette who need not fear any rivalry in her line, and it is safe to say that her 'cartwheel' finish to her dance in the first act gave the audience as complete surprise as an audience ever gets. It was the reason for raising the curtain twice. 'A Pair of Jacks' is a sure card. It is yet young, but even now it is crowding the best of similar entertainments for the first place, and the hit it made augurs well for its future."

CROOK COUNTY.—The Mercury in thermometers showed a temperature of 98 degrees at noon several days this week, though there was no inconvenience caused from the heat.

A C Palmer, accompanied by Mrs T M Baldwin and children, started on Thursday for the Willamette Valley. Mrs Baldwin goes to Scio to visit her mother.

M Mulvahill, who was down from Summit Prairie the first of the week, tells us in a Jackson county the second crop of alfalfa is being cut and the yield is unusually heavy. About Hardman, Morrow county, grass-hoppers are doing considerable damage. Sweet corn, peaches and melons are now being shipped from The Dalles.

The plum and prune crop is large. The codlin moth is doing damage, especially in the Willamette Valley. Spraying the trees is proving beneficial.

From every section of the state come reports of good crops.

B. S. PAQUE, Observer U. S. Signal Service, Assistant Director Oregon Weather Bureau.

A BIG VARIETY.—It is always a privilege to have a big stock to select from. J F Powell & Co always have on hand the largest variety of fruits and vegetables of any establishment in the city, a fact easily learned by inspection.

POPULATION OF CITIES.

Last Friday the DEMOCRAT wrote Mr John Kelley for the census of Albany and Saturday noon received a response stating that it approximately was 7000. Believing there was a mistake the DEMOCRAT wired Mr Kelley in reference to it receiving in the evening a reply that the estimated population was seven thousand for voting precincts of Albany, East Albany and West Albany. The Eugene Guard gives the figures at 6872, and this will probably go on record as Albany's population.

The population of Nat. m's voting precincts is but a little more, 7231. Where, as all along 15,000 has been claimed; but, of course, it was all bluff. Oregon City 3,135; Roseburg 2,351; Grants Pass 2,193; Corvallis 2,122; Hillsboro 1,345; Jacksonville 1,307. The population of Eugene, in the city limits, is 3,017, and the city now will probably exceed it's bluster about being as large as Albany. Ashland 1,779; McMinnville 1,335, which is just about half the population of Albany, very happily says the Blazer, City Democrat.

The census of Oregon is showing the same tendency of population to gather in the cities that is noticed all over the country. It is unlikely that the total population of the state has increased more than 100 per cent since 1850. While most of the cities reported so far have gained 200 per cent, some of the estimates given by the supervisor are remarkable. Salem remains the second city in the state, but falls sadly short of the 10,000 claimed. Albany exceeds the expectations of its people and comes within 200 of Salem, with 7000 people. Grants Pass shows the greatest growth, 300 per cent since 1850. Roseburg, Eugene, Ashland and Oregon City show about the normal urban gain, 200 per cent.

WEATHER CROP BULLETIN NO. 19.

If the Oregon State Weather Bureau, co-operating with U. S. Signal Service, Central Office, Portland, Oregon, for the week ending Saturday, July 19th, 1890:

WEATHER.

In the western portion of the state the temperature was below the normal, in the central portion about normal, in the eastern portion above the normal. Temperatures of 90 or more occurred in Umatilla, Baker and Malheur counties. In Western Oregon the temperature was below 83 and above 46.

Generally partly cloudy weather prevailed; no rain is reported to have fallen.

The weather conditions have been extremely favorable to growing crops and to harvesting operations. The hay crop has about all been housed and it has been more than anticipated; both quantity and quality are about an average. Late wheat is filling well, the meshes are quite large, the berry large and plump. The spring wheat will make a much better crop than was expected. Early wheat harvest is in full blast and the yield is fully an average or more so. The entire wheat crop of Oregon this year bids fair to be larger than ever before. Thousands of acres in Umatilla and Union counties will average from 35 to 40 bushels per acre. The average number of bushels of wheat per acre will generally be secured, with the increased acreage will produce the increased yield. Barley, rye and oats are promising good yields. The weather has been cool for corn, though in Wasco county it is doing very well. In Benton county a number varieties of early peaches are ripe. In Jackson county the second crop of alfalfa is being cut and the yield is unusually heavy. About Hardman, Morrow county, grass-hoppers are doing considerable damage. Sweet corn, peaches and melons are now being shipped from The Dalles.

The plum and prune crop is large. The codlin moth is doing damage, especially in the Willamette Valley. Spraying the trees is proving beneficial.

From every section of the state come reports of good crops.

MR. Z. T. WRIGHT, Portland, Oregon.

Dear Sir: In reference to your inquiry as to how I liked my Advance Thresher, purchased of you this year, will say the Advance does more and better work than any other machine I ever saw, and I have seen all that are represented in Oregon.

It threshes faster, cleans the grain better, runs lighter and saves the grain better from the straw than any other machine, and seems to be strong and durable. I am ready for any time to go into a trial with any other machine [except the Advance] and thresh for from \$100 to \$500. They are the best in the market without doubt. If you desire you can refer to me at any and all times.

I. D. MILLER.

DR. PATTON, SPECIALIST.

Blumberg Block, Albany, Oregon. By the most modern and approved methods cures Female diseases and Private diseases of either sex. He has a sure cure for Catarrh of the head. Consultation is free and everything strictly confidential. Office hours 10 to 12, 2 to 4 and 7 to 8. Residence, corner Third and Montgomery streets.

The Road to Wealth. Cannot be successfully traveled without good health. To reach wealth or any coveted position in life requires the full possession and operation of all the faculties that nature has endowed us with. These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, thus obstructing the circulation, causing indigestion and dyspepsia, with all of their accompanying horrors. DR. BENTLEY'S English Bile-Liver Tonic exerts a specific influence over the liver, excites it to healthy action, resolves its chronic engorgements, and promotes the circulation; cures indigestion and constipation, sharpens the appetite, tones up the entire system, and makes life worth living.
