

THE DAILY DEMOCRAT.

HINTS TO HOUSEKEEPERS.

Salt will curdle new milk, hence in preparing milk porridge, gravies, etc., the salt should not be added until the dish is prepared.

Clear boiling water will remove tea stains and many fruit stains. Pour the water through the stain and thus prevent it spreading over the fabric.

Clean carved ivory with a paste of day-empowered sawdust and a few drops of lemon-juice. Lay it on thickly, allow it to dry, and then remove with a nail-brush.

After thoroughly sweeping a dingy carpet, wipe it with a damp cloth partially wrung out of a mixture of water and ox-gall in the proportion of two tablespoonfuls of the latter to a gallon of lukewarm water.

Bronzes may be plunged into boiling water until warm, then cleaned with soap suds and dried with old linen cloths. If this is ineffectual, beeswax and turpentine, rubbed on and off with clean, soft cloths, sweet oil, and polishing with a camellia, is another remedy.

People in the country who are annoyed by flies should remember that clusters of the fragrant clover, which grows abundantly by nearly every roadside, if hung in the room and left to dry and shed its faint fragrant perfume through the air, will drive away more flies than sticky saucers of molasses and other fly traps and fly papers can ever collect.

Amber figures are cleaned with the following mixture: One ounce of borax and a quart of boiling water. When cool, wash the figures gently and dry with a silk handkerchief. If badly stained, try a paste of quick lime and water, and let it remain on for a day; then wash off in soap and water. Olive oil occasionally applied with a soft woolen cloth keeps burl cabinets and ornate ornaments bright; first, clean off all the dust.

It sometimes happens that one's wall paper, while an excellent background for pictures, is not equally so for china and bric-a-brac; in that case a wall-hanging of crimson plush, or plush of any dark, appropriate shade, may be suspended back of the cabinet, and will serve admirably to show to advantage any dainty bits of china which would be lost against a pale vanilla colored cartridge paper, or one of pale gray or olive, such as form lovely backgrounds for engravings or etchings.

There is no reason why women should tire themselves in squeezing juice from fruit for jelly or in stoning cherries, when there are several patent processes for doing this work with perfect success, enabling the worker to go through preserving time with unstuffed hands and unexhausted patience. There are enough necessary things to do in a household which cannot be done by machinery. Housekeepers should take advantage of every chance that offers for genuine help in their work.

The choice of a spring-bed is one of the most perplexing things a housekeeper has to undertake. There are a multitude of styles of spring beds in the bedding stores. The most luxurious springs are probably those boxed in mattress form, though there are many who prefer the woven-wire springs, every part of which is visible to the eye and open to the air. It is always a mistake to buy any spring which is not properly ventilated. The newest box-in mattress springs are open at the side, with lacing at the top and bottom.

To any who have had experience with the insects variously known as the carpet bug or buffalo moth, the following recipe will be invaluable, for it is said to be sure death to them: One ounce of alum, one ounce of chloride zinc, three ounces of salt. Mix with two quarts of water and let it stand over night in a covered vessel. In the morning pour it carefully into another vessel so that all sediment may be left behind. Dilute this with two quarts of water and apply by sprinkling the edges of the carpet for the distance of a foot from the wall. This is all that is necessary.

The most richly endowed college in the United States, it is claimed, is Columbia of New York City. Its landed property in that city, received from the Trinity corporation in 1754 and from the state in 1814, affords a yearly income of \$342,000. The total capital of the corporation is placed at \$9,000,000. Harvard's endowments amount to \$6,853,000. The New York Sun says: "Ninety-four of our colleges received in gifts during the past year the great sum of \$3,624,579, and the total of their present endowments is \$51,765,449."

LADIES SUMMER BLOUSERS, the latest novelties, just received from manufacturers by express. SAMUEL E. YOUNG

You have a big stock to select from at J. F. Powell & Co.

Shortly after noon the other day, according to report, a meteor fell with a terrific explosion on a farm near Washington, Kan., scattering great quantities of rock in every direction. One piece was imbedded in the ground to the depth of several feet. The rock was of a grayish color and intensely hot when found. The shock was felt for miles around, many people thinking it was an earthquake.

The temperature of the snow next to the ground is found by Sig. Chittenden to vary but little, while that of the uppermost layer is sometimes nearly 20 degrees F. higher. The air an inch above snow is always colder than the top of the snow, and colder than the air twenty inches higher.

NEW ADVERTISEMENTS.

FOR WELL BERING, ROCK DILLING and prospecting, write to J. B. Hughes, Albany, Or.

NOTICE IS HEREBY GIVEN THAT property owners are required by ordinance to cut down and remove all thistles and obnoxious weeds growing upon their premises and upon the street adjoining thereon, within the city limits of Albany. Those failing to do so will be liable to a fine of \$5. Albany, July 29, 1890.

J. N. HOFFMAN, City Marshal.

Eugene City Bonds For Sale.

NOTICE IS HEREBY GIVEN THAT under the provisions of an act of the Legislature of Oregon entitled, "An act to incorporate the City of Eugene and to repeal all acts and part of acts in conflict herewith," filed in the office of the Secretary of State, February 20th, 1889, the common council of the City of Eugene will issue and dispose of the bonds of said city at par value of from \$30,000 to \$50,000, in denominations of from \$100 to \$1000 as the purchaser may desire, payable 30 years after date of issuing the same, with interest thereon at the rate not to exceed 5 per cent per annum, payable semi-annually.

Scaled proposals to purchase said bonds will be received by the undersigned at Eugene, Oregon, until Sept 1st, 1890, and all proposals received will be opened and considered on the 5th day of Sept, 1890, and said bonds will be disposed of to the person or persons making the best offer or offer therefor.

The common council reserves the right to reject any and all proposals. By order of the council. May 21st, 1890. B. F. DORRIS, Recorder for the City of Eugene.
