The RECORDS of Marion county show the platting of many thousand acres of land in small tracts of from 5 to 10 acres. Capital City Fruit Farm of 640 acres, Sunnyside No 1—320 acres, Sunnyside No 2—140 acres, Sunnyside No 3—170 acres, and a number of others have been placed on the records by the Oregon Land Company of Salem, Oregon.

This company is also doing business in Portland and Albany, and have for sale numerous other small tracts. The great advantage of this plan is that it brings together in one community the class of people who are all engaged in the same business, viz: fruit growing, consequently there springs up large drying and canning establishments similar to those in the city of Salem, which advantages makes profitable market for the products of these fruit farms.

Esop has told us the tale of a mule which from over-eating, became stout and fat, and was so heavy that it could not get up a hill. A high-spirited man, who had a child in need of a mule, saw the fat mule and wearily heaved a sigh. "I wish I could have made a mule like that," he said. "I wish I could have had a mule like that, that would eat so much and be so fat, that it would be a good dinner for a whole family." The man was so fat that he could not get up a hill. He was so fat that he could not get up a hill. He was so fat that he could not get up a hill.

**Washington's Population.**  
WASHINGTON, July 28.—Superintendent Porter to-day, after further verifications of the census of Washington, told Representative Wilson that the state had 350,000 people, and this basis of representation will give Washington two members in the election of 1892. About 85 per cent of the population for the entire country has been received at the census bureau, and Superintendent Porter hopes, with the present rate of counting, to have a rough estimate of the population of the country ready within a few weeks.

**The South American War.**  
BUENOS AYRES, July 28.—The revolutionary movement continues to spread. Fighting between government troops and the revolutionists to-day has been desperate. A twenty-four hours truce has been arranged.

**Self Praise.**  
Self praise is no recommendation, but there are times when one must permit a person to tell a truth about himself. When what is said is supported by the testimony of a disinterested man will doubt his word. Now, to say that Allcock's Porous Plasters are the only genuine and reliable plaster made is not self-praise in the least degree. They have stood the test for over forty years, and in proof of their merits it is only necessary to call attention to the cases they have effected and the voluntary testimonials of those who have used them.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's and be no solicitation or explanation unless you accept a substitute.

Allcock's corn and bunion shields effect quick and certain relief.

**ACCIDENT.**—Daily accidents occur in which individuals become more or less incapacitated to follow their usual avocations. In such cases it is a great convenience to be insured in some safe Accident Insurance Co. Such is the Union Mutual of Chicago. Any male person over 18 and under 65 years of age is eligible to membership. To fully understand the benefits and workings of this company you should call on their agent, Joseph Tait in the office of L. H. Montanye, Strahan's Block.

**THE HEAT OF SUMMER**  
Evil is the system, reduces the vitality and weakens the energy. In this condition the body readily falls a victim to disease. Purify the system against those debilitating influences, by taking Dr. Hille's Hydrastic Restorative. It enables the nutritive system to absorb sufficient nourishment to keep the body vigorous and healthy, and in a fit condition to resist disease.
