"LITTLE BO PEEP"
had lost her sheep and couldn't tell where to find them. So the old nursery rhyme says, and it goes on to bid her "Leave them alone and they'll come home and bring their tails behind them." All this may be true of lost sheep, but if you have lost your health you cannot afford to leave that alone. It will not come back of its own accord. Some people brag that they never bother about colds. They "let them go the way they come." Alas! too often the victims go to a consumptive's grave. Until very recently a cure for Consumption, which is universally acknowledged to be a scourge afflicting the lungs, would have been looked upon as miraculous, but now people are beginning to realize that the disease is not incurable. Dr. Pierce's Golden Medical Discovery will cure it if taken in time and given a fair trial. This world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this. It is the most potent tonic, or strength restorer, alterative, or blood-cleanser, and nutritive or flesh builder known to medical science. For Liver Complaint, W. A. Lungs, Spitting of Blood, Liver Complaint, and Dyspepsia or Indigestion, it is an unequalled remedy.

DR. SAGE'S CATARRH REMEDY
cures the worst cases, no matter how long standing. 50 cents by druggists.

A VOICE FROM KANSAS.

The Western farmer has no interest whatever in a protective tariff. His interest rather lies in the direction of free trade—of access to all markets—whatever his products may be in demand. It is for his interest to sell what he raises wherever in all the wide world he can find a purchaser, and thus provide himself with the means of disposing of his surplus crops. Not only is he vitally interested in securing all possible markets, but equally so in buying what he needs as cheaply as possible. Sell where he may, and buy at the lowest figures; this, selfish as it may seem, is what most concerns the Western farmer. Free trade will give the West the markets of the world, and an opportunity to buy what it requires at less than half its now pays for these same articles. Lumber, hardware, furniture, clothing, groceries and agricultural implements—these the West needs principally. Free trade will bring these things to us at figures far below protective prices.

In all this the *Champion* speaks solely from the standpoint of self-interest. It is with states and sections as with individual citizens—self-preservation is the first obligation. A due regard to our sectional preservation, our territorial interest, demands the adoption of free trade—commercial reciprocity with all nations. The East, as we have stated, has grown dangerously rich by means of a protective tariff; now let the West assert itself and use the means at its command to change its economic policy to one more conducive to sectional welfare.

The question is broader than party lines. It is more vital than mere formal political dominance of any particular set of politicians, for it touches our life and is indissolubly interwoven with our existence.

Protection continued twenty years longer, and the West, with its vast agricultural possibilities, would be a pauper beyond hand and foot. Let us who live in the West be fools no longer, but let us exercise our common sense and protect our own interests by obtaining, just as quickly as possible, the freest trade with all its attendant benefits.—*Atchison Champion (Rep.)*

What they are Good For.

FRANKLIN'S PILLS are the best medicine known. First—They are purely vegetable, in fact a refined food. Second—They always produce the same effect—other purgatives require increased doses and finally cease acting. Third—They purify the blood. Fourth—They invigorate the digestion and increase the stomach and bowels. Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions. The skin becomes clear, the eye bright, the mind active, digestion is restored, costiveness cured, the animal vigor is recruited and all decay arrested. Brandreth's Pills are sold in every drug and medicine store, either plain or sugar coated. John Miller, a son of the celebrated Joaquin Miller, escaped from the penitentiary yesterday. He was an untrustworthy testy.

The Pulpit and the Stage.
 Rev. F. M. Shroot, pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 lbs in weight."

TELEGRAPHIC NEWS

Fast Riding.
 New York, Aug. 15.—A mile in thirty seconds was the rate at which a party of newspaper men were whirled along the Baynton bicycle railway from Gravesend to Brighton, Coney Island. A simple bicycle passenger car was used. The car itself was a double-decker in each deck being six double and one single compartment, each compartment being by itself and entered from the side of the car. Each is less in width than half of the standard gauge track, so that two cars can pass each other when they are run on opposite rails. The wheels of the car are directly under the center, a double flange grasping the rail. The car is prevented from tipping over by double wheels attached to the top of the car and running on each side of a continuous beam held up by framework on either side of the track. The engine is a bicycle one also. The car is run on the principle of a loop in motion, which the faster it goes the less likely it is to wobble or fall over. Some engineering papers have already declared it is destined to revolutionize the present system of passenger transportation.

The B. R. Strike.
 Buffalo, N. Y., Aug. 15.—The effects of the New York Central strike are still apparent in the business of that company. Passenger trains have been arriving and departing very nearly on time, and in the passenger depot everything is moving smoothly. The condition of affairs in the freight yard is different, however, and the yards are now blocked. The Lake Shore and Nickel Plate roads are finding much trouble in getting rid of cars. The yards of the former are completely choked at East Buffalo. This afternoon three trains of stock and perishable freight were sent out, but dead freight still lies there. The reason given is that there is no room East. Switchmen are all at work and the brakemen are in their callous ready to take their trains out. It was stated in the yards this evening that freight would be moved late to-night. Conductors were received in the freight office to take freight for the East.

A Big Sale.
 Seattle, Aug. 15.—The announcement is made that the Vester cable road has been sold. It is stated to-day on direct authority that a syndicate of Seattle gentlemen, headed by L. S. J. Hunt, bought the property for \$400,000, paying down the sum of \$110,000, the balance of the purchase price to be paid on the 23d of this month. The syndicate composing the new buyers of the present property, controls the cable systems of this city, Messrs Furth, Stewart and others being interested.

Overwhelmed With Silver.
 St. Louis, Aug. 15.—Ban'as at Kansas City and a few other Missouri points are overwhelmed with silver coin and are trying to reduce it by shipping to the St. Louis sub-treasury and getting silver notes instead. Forty five thousand dollars in silver came in this morning. The banks have to pay express charges both ways on the money, which amounts to about \$1 per \$1000.

E. B. Pardon.—A prisoner of Albany, was not expected to live till night as we went to press.

The Records of Marion county show the platting of many thousand acres of land in small tracts of from 5 to 10 acres. Capital City Fruit Farm of 640 acres, Sunnyside No. 1—320 acres, Sunnyside No. 2—140 acres, Sunnyside No. 3—470 acres, and a number of others have been placed on the records by the Oregon Land Company of Salem, Oregon.

This company is also doing business in Portland and Albany, and have for sale numerous other small tracts. The great advantage of this plan is that it brings together in one community the class of people who are all engaged in the same business, viz: fruit growing, consequently there springs up large drying and canning establishments similar to those in the vicinity of Salem, which advantages makes possible market for the products of these fruit farms.

Consult your interest by buying of the Oregon Land Company of Salem, Portland or Albany.
