MISCELLANEOUS

Of the 4200 species of flowers now cultivated in Europe, only ten per cent. give forth any odor. Therefore it cannot be said that most flowers are fragrant.

In an English town there is a shop where gas lights are sold, and from which 20,000,000 of them have been sent to the West Coast of Africa in the last ten years. The manager of the shop has never seen them in their obnoxious form.

Experimenters have found that the most efficient way of removing the odor from the air is by the use of a certain substance.

According to the latest statistics, it is possible that the number of people who are suffering from the disease is increasing.

The fact that the waves in the North Sea differ in shape from those in the South Sea is due to the fact that the waves in the North Sea are more regular than those in the South Sea.

A new kind of oil has been invented by an Austrian for the purpose of scattering oil over the waves during a storm. It is a wooden cylinder, lined with shellac, and it carries in addition a calcium light, which illuminates the water for a considerable distance.

Only fresh eggs are as full of meat as an egg, or in other words, entirely full. After a few days of incubation the egg becomes empty.

Paper made of wood is said now to be made by mixing chloride of lime with the pulp in the course of manufacture. It has been found that the greater the degree of concentration of the lime solution, the greater will be the toughness of the paper.

A tall, good-looking young man, who wore fine clothes, and carried a valise, created a scene at the Stark-street ferry landing, in East Portland, last evening. An attractive young woman, with veiled face, was waiting for the boat, and he boldly walked up to her, lifted her veil and kissed her three times. She did not faint or get angry.

"Stop, sir," she said, blushing. "You are altogether too fresh." The fellow walked away, and joined two other men, and a woman. All four were awfully drunk. When they reached Portland, they walked up Stark street, jostling everybody who came along.

CHEMUNDA INDIAN SCHOOL.—Dr. Dorchester, superintendent of Indian schools with headquarters at Washington, D. C., and Mrs. Dorchester, a special agent in the same department, who have been visiting at the Indian training school near this city, examining into its affairs and the manner in which it is conducted, started for the East this afternoon. The result of their investigation is not known or within reach of the news-gatherer, but it is said there are some changes probable in the management, the whys and wherefores of which can only be surmised.—Capital Journal.

TILL RUINED.—Early this morning the money till of Eastman & Van Winkle was rifled to the sum of a few dollars in change. The spring latch failing to catch, left easy access to the apartments. The festive pad availed himself of this opportunity. The offender is well known to the police force, but well connected. No names are mentioned as his plea may have a shadow of justification. Upon being closely hemmed by circumstantial evidence, he disgorge claiming it was only a joke. A court interpretation of "joke" would doubtless fool such chaps.

TO CELEBRATE.—The Veteran Firemen's Association of California will celebrate September 9th as California's Admission Day. To that end an invitation has been extended to all exempt firemen of the state to attend and join in the festivities. All exempt firemen wishing to join in an excursion will send their names to R D Freeborn, 129 Third St. San Francisco.

SHE ARRIVED.—The United States cruiser Charleston arrived at Yaquina Bay yesterday morning after a fourteen day's trip from Honolulu and sailed for Port Townsend at noon, taking in fresh supplies. She made slow time to acquire more coal. Admiral Brown forwarded telegraphic dispatches to Washington from here.

John H. Curley, the well known merchant tailor, of 442 Market St., S. F., writes to the Albany Journal, that for years he has been afflicted with dyspepsia, which nothing relieved till he commenced taking Joy's Vegetable Capsules. He continues, "I am still taking it, and my digestive efforts are exceedingly gratified to the system. It is a pleasant surprise that again those who do not know what our vegetable juices do for debility, sluggish liver and impaired digestive organs."

Also read what one of the solid men of Linn county says about them:

MR. Z. T. WRIGHT, Portland, Oregon. Dear Sir: In reference to your inquiry as to how I liked my Advance Thresher, purchased of you this year, will say the Advance does more and better work than any other I have ever used, and I have seen all that are represented in Oregon.

It threshes faster, cleans the grain better, runs lighter and saves the grain better from the straw, than any other machine I have ever used. It is strong and durable. I am ready at any time to go into a trial with any other machine (except the Advance) and thresh for you from \$100 to \$500. This is the best machine in the market without doubt. If you desire you can refer to me at any time. (Signed) I. D. MILLER.
