LOCAL RECORD

At Salem the ruling price paid for wheat this week is 66 cents. At Albany the ruling price is 65 cents. The Albany wheat is the best of the crop, 65 cents is the highest price paid. At Corvallis last Monday wheat brought 65 cents, Tuesday it jumped to 67 cents, and to 70 cents and remained at 67 and 70 cents since, making a difference of 20 cents per bushel over the price paid at Salem and five cents more than at Albany. The cause is no doubt principally due to the superior location of Corvallis as a shipping point and the low freight rates thus obtained by our dealers. Corvallis Gazette.

The cause stated is not correct at all, as the Gazette knows, for Albany has the same shipping rates as Corvallis, exactly. The reason is simply a better fight between the two mills, and the price paid is not paid by the market, 67 cents net, was paid in Albany at the time mentioned, and the fact is the prevailing market price here is the same as there, except sometimes early in the season, when a fight is made among the mills or for advertising the warehouses.

Was a Jail Bird.—A E. Barton is no more nor less than a former jail bird, and the facts have come to light through the investigation of several prominent citizens of Pendleton, who had purchased lots in good faith. They proceeded to Seattle and discovered their error. The fact is, Barton was formerly a member of the firm of Henderson & Gowan, but his convict record happened to be exposed and the partnership was dissolved. Barton selling his one-third interest in the property of the firm. The sales made at The Dalles and Pendleton by him were bogus, but as Henderson & Gowan have a reputation to maintain they have concluded to make the losses good of innocent purchasers swindled by Barton. This has been done at The Dalles and will be done at Pendleton.—E. O. The Albany man who bought a lot might well write to that firm also.

A FOOT MASHED.—This morning Mr. Grubb, who had been at work in the Cow creek canyon for the Southern Pacific, accepted a position as temporary brakeman for a man who was living off at Junction and had reached Shedd on his way to Portland, when in getting on a flat car a rail tipped over on his left foot breaking two bones and badly bruising the foot. He was left at this city and taken to the Exchange hotel, where Dr. Ellis attended him. His home is at Kansas City, and he was about to return to his family when the accident happened.

A TRIP TO THE NESTUCA.—E. E. Montague, of this city, and C. B. Montague and Dr. Courtney, of Lebanon, returned last evening from a trip to the Nestucca, on the line of the Albany & Astoria R.R. They saw the grade stakes along the route, a good one, and reported the trip a splendid one for health and pleasure. Having left when the Behring sea trouble was the chief talk, and not having seen a newspaper while gone, they were considerably surprised to find that the United States had not whipped England during their absence.

AN ANNIVERSARY PARTY.—Yesterday was the twenty-fifth anniversary of the marriage of Rev. and Mrs. T. J. Wilson. In the evening their friends surprised them by tendering them a birthday party in honor of the event, and their home in Washington and Fourth streets, was filled with friends laden with offerings for this most estimable couple, just such as they can do the most good; a Henetta dress, table cloths, silver spoons, etc. A very profitable evening was passed, seasoned by a palatable lunch. Mr. Irvine made an address to the happy couple which was nicely responded to.

THE COLLEGE.—The annual catalogue of the Albany Collegiate Institute is just out. It is nicely gotten up and shows some facts already published in a supplement. The faculty is strong, important additions having been made. There are four departments, collegiate, normal, business and primary. The senior class for the coming year will consist of Vesta M. Mason, Carleton F. Sox, Richmond Wheeler and Percy A. Young.

LOST THE TAG.—P. B. Johnson, editor of the Walla Walla Union, who is at Santa Cruz for his health, trusted his silver watch and gold chain, together with \$65, to a man who had about him, to the barman of clothing at the Neptune hotel while he went in for a swim. He left the brass tag representing the clothing and other valuables, and has been compelled to bring suit against the proprietor of the bath to recover them.

PREACHING.—Rev. M. Sneed, of Albion, Ill. preached at the Congregational church in this city next Sunday morning and evening, at the usual hours. The public are invited.

LOST.—A small gold pin, shape of pyramid, monogram in center and letters E. H. Son corners. Please return to the Democrat office.

DON'T RUN AROUND.—Every steamer, however foggy the bar, brings to Albany a tremendous quantity of fruit and produce. The best and largest variety always goes to Powell & Co's. Their bins are always full of just such things as the public wants. Save running around calling at their store first.

New embroideries, soundings, lace stitching in cotton and silk, black and cream. Laces in imitation point, also new colors in blues and white lace, including Andyck and Eiffel Tower. New neckties. SAMUEL E. YOUNG.

RUSHED WITH BUSINESS.

A city is built up by its factories. Manufactured goods sent away, or distributed at home, keeping out the product of other places, is what counts for a city. Albany is getting a good start in this direction. Among its most important institutions in this respect is the Albany Iron Works. Under its present management it is showing a marked advancement in business. An addition 36x24 feet has been erected on the east side, a large new crane has been placed in the moulding room, and new and improved machinery of many kinds, such as lathes, etc., have been placed in the different departments, making it one of the finest equipped shops in Oregon, with a capacity of doing any work, no matter how difficult, brought in. The result is it has been rushed with business, for six weeks employing fifteen hands, nearly all mechanics, creating one of the largest weekly pay rolls in the city. The output has consequently been large. Among other jobs the company have shipped two stone fronts to Junction City; eleven tons of castings for stores in Roseburg; four fronts for stores in Corvallis; the castings for two stone fronts in Salem; the iron work and front for the Seis Bank; three sets of beams from head blocks, three sets of saw mill irons; the front of Allen's block in Albany, etc. They are now at work on two lathes, of 5500 pounds each, columns, palasters, etc., of new designs for the Baltimore block. Their work is giving great satisfaction, and they are as well prepared to make it do so as any shop in the state.

Just Received for the Fall and Winter.

To tell the truth, the stock of suitings in the tailoring department of L. E. Blain, is a large one, and entirely new. It has just been received for the fall and winter trade, the remnants of light weights having been cleared aside. The new stock embraces a variety of designs in imported and domestic goods that is a credit to the city. The present styles are very attractive, and a big field is offered for a man to dress well, which is what the progressive citizen does. Mr. E. A. Schiffer, who is superintendent of this department, is an expert at the business, and a suit made under him is assured a perfect fit, which is always guaranteed. The progress being made in tailoring is well exemplified in the manner in which Mr. Schiffer conducts this department, and a larger stock and bigger variety of goods is being carried for customers to select from than ever before.

POWERFUL ACTING.—The advent of Maud Granger in Albany will long be remembered as a great theatrical treat. Inherited is a dramatic play of peculiarly strong emotional parts, and as Helen Carruthers, who inherited insanity and becomes mad. Miss Granger does some remarkably strong acting, in such a natural way as to hold the closest attention of the audience. Her acting makes a play popular, that would be unpopular in mediocre hands, for the public taste does not run in such disastrous lines. Her support is a splendid one. Harry Mainhall is an old favorite; John Findley as the Raynolds, does some grand work; Claude Brooke as Sammy Sanders is funny without trying to be, and is well matched by Carrie Elbert as Fay Merwin. The support generally is good. Little Baby Parker, only about four years of age, is a prodigy, her performance being remarkable for one so young. The attendance was good.

A MANUFACTURING STATE.—Mr. Callahan, of San Francisco, one of the proprietors of the paper mill, arrived in town a few days since. He says that Oregon straw possesses the properties of California straw in an exalted degree and that it will make a superior quality of paper. Mr. Callahan says Oregon has superior advantages as a manufacturing state and that the time is coming when she will surpass the old Bay state in this regard.—Express. Lebanon is very fortunate in getting the paper mill at that city, and with its splendid start should become an important manufacturing city. It can easily get a fine water power from Waterloo if necessary.

A THING OF BEAUTY.—The art studio formerly kept by W. H. Greenwood, has been renovated and refitted in such a neat way as to make it "a thing of beauty and a joy forever." New furniture, new scenery, new appliances of the latest and most approved kind. The very best artistic work of the day can be had of the photographers, Wilcox & Conn on call and view the new arrangement as they are highly pleasing.

LARGEST IN THE VALLEY.—Will & Stark have received the largest and finest display of silver ware in the valley, as their elegant display of novelties in the line will testify. They invite the public to call at their store and see their fine metropolitan stock.

WANTED AT ONCE.—Bartlett pears for shipping, and dried fruits of all kinds. Highest market price paid by G. W. SMITHSON.

WARM WEATHER.—A fine stock of refrigerators and ice cream freezers may be seen at Stewart & Sox's. Nothing like them for the house.

DRESS WELL.—A choice line of suitings has just been received at L. E. Blain's tailoring department, embracing some of the best patterns ever brought here. Stylish suits, good goods and perfect fits are the order in this department. With the best facilities for doing work, satisfaction can be given.

WALL PAPER.—I have just received from the east a large invoice of wall paper, borders, decorations, etc., including the plain ingrains which are becoming very popular. These goods are better styles and cheaper than ever before. SAMUEL E. YOUNG.

WANTED.—The undersigned desires to purchase the usual amount of baled hay and oats for his farm in this city. Those having either or both to sell, should call on me at once. L. SENDERS.

CALL AND SETTLE.—Those knowing themselves indebted to the old firm of Krause & Klein, will please call and settle at once.

MISCELLANEOUS.

A Salem man sold some cider to an Indian boy attending the Chemawa school, and was arrested for selling intoxicating liquor to an Indian. Next.

As many Albany people are troubled with palpitation of the heart we quote the following: Dr. Nelson (in Journal de la Sante) says that an excessive palpitation of the heart can always be arrested by bending double, with the head downward and the hands pendant, so as to produce a temporary congestion of the upper part of the body. In almost all cases of nervous or anemic palpitation, the heart immediately resumes its natural action. If the respiratory movements be suspended during this action, the effect is only the more rapid.

People coming from Yaquina Bay have a great time getting their freight. As they ship it from Newport and the freight office is in Yaquina, they are generally unable to attend to the matter themselves at the latter place, and the result is they are in clover if they get it a piece at a time within a month or two. The arrangement is a miserable one. One man was told by an agent if he wanted his freight to go and get it himself. The summer business is quite an important one and the traveling public should be accommodated when they pay for the accommodation.

An Evangelical convention has just been held in Salem. Revs. J. Bowersox, C. C. Poling, O. L. Hamis, D. V. Poling, C. N. Plowman, M. S. Ballantyne, F. J. Strayer and E. S. Bollinger were present. "The members of the convention seemed to all agree on this one point—viz: that 'heaping coals of fire upon the heads of our enemies' (controversialists) is the best method of defence," says a local paper. That is the way they are doing in Albany. Some of the coals are at white heat, though, and scorch.

The Lebanon Express very sensibly says: We received another letter relating to the church controversy this week, but in justice to our many readers who see nothing of interest in this protracted discussion we cannot give it publication. Every attack seems only to widen the breach and intensify the bitter feelings which already exist.

The M. E. conference, recently in session at Grants Pass, evidently does not like the Indian agent at Klamath, and no wonder. The Courier, in giving the proceedings of the conference, says: "On this day some consideration was given to the Klamath Indian agency. The conference unanimously is not satisfied with Gen. E. L. Applegate as agent, and if it can, it will have a successor appointed. There may be music in the air when the General learns of the move."

NO DANGER.—As the DEMOCRAT mentioned the fact that the Chinese peasant was being thinned out in justice to that beautiful bird we publish the following from the Lebanon paper: "Some of our exchanges are fearful that the Mongolian peasant will become extinct unless the claretine slaughter of these birds is arrested. Calm your fears. The Mongolian has several qualities that will forever serve to keep alive his name and guarantee a numerous brood. He is very tenacious of life, can outrun the narrow gauge, dodge chain lightning, is very prolific and can multiply in the face of a battery."

TO THE PARENTS OF SCHOOL CHILDREN.—Klein Bros wish you all to know that they have just received a large invoice of the celebrated C. M. Henderson's Red School House shoes, in heel and spring heel; and every pair warranted to be solid sole leather counters and insoles. Every pair that rip, or cover or the soles come loose, will be repaired free of charge by us, as we are practical shoemakers, and do our own work and are not out anything by doing so. We also give with every pair of school shoes a neat pencil box containing penholder, two pencils and ruler. Call and see sample of the shoe at Klein Bros shoe store.

A CELESTIAL ARRESTED.—Wa Sing, of Corvallis, was arrested in Albany a day or two ago for assault with intent to kill Tye, of the former place, with an axe. Cause: Wa Sing owed Tye, and wouldn't pay him. Sing was taken to Corvallis and placed in jail. He will be examined tomorrow.

KINDERGARTEN.—Misses Wheeler and Crawford will reopen their kindergarten Sept. 1st, at the W. C. T. U. Hall. A select school will be run in connection with the kindergarten, to which pupils will be admitted up to the age of 12 years. Children taken to and from school.

EVERYBODY SAYS SO.—If the wild javes could talk they would say, "Go to Powell & Co's for groceries and produce, for their stock is large, their prices low and quality the best." This is the universal verdict of their customers.

HOLMES BUSINESS COLLEGE, of Portland, Or., will open Sept. 1st. J. A. Wesco, the leading proprietor of the coast, has become a partner in this school and will make it the leading business college. Send for a catalogue.

BARTLETT PEARS.—I am agent for the Salem cannery and prepared to buy all the Bartlett pears brought to me in a condition to ship. Parties having pears to sell will do well to see me. SAMUEL E. YOUNG.

WANTED.—200 cords of body red fir wood at the Albany Woolen Mills. Call at the Mills for particulars.

OBITUARY.

Margaret K, wife of Dr. E. C. Hill, was born in Kentucky in November, 1809, and died in Albany Aug. 28th, 1890. The deceased came to Oregon in 1853, where she built up an enviable reputation as a loving wife, kind mother, accommodating neighbor and pure Christian, leaving many to mourn the death of a noble woman. She was the mother of nine children, six of whom, with her aged husband, survive her. Those now living are Hon. W. Lair Hill, of Seaside; Judge G. A. Hill, of Seattle; Dr. J. L. Hill, of Albany; Mrs. Rufus Thompson, of Albany; Mr. Taylor Hill, one of the present commissioners of Crook county, and Mrs. Alexander Marks, of McMinnville. Those deceased were Elijah Hill, who was killed in the Indian war of 1855-6, Andrew Hill, who died at Albany, and Emma, the first wife of Rev. A. J. Hunsaker, now of McMinnville.

Funeral services occurred at the Baptist church at 4 o'clock, and were largely attended. Pres. Brownson, of the McMinnville college preaching the sermon. The remains were interred in the Masonic cemetery.

A BEWED SPOW.—The Chicago Comedy Company, which held forth in this city last week, were unable to pay their bills, but through the intervention of a personal acquaintance, they were able to transfer their chattels to the next town. Lives of actors and actresses are made up of striking situations, and one of the principal features of the drama is the act of getting broke. All great artists have been there.—Yamhill Register.

A VOICE FROM THE WEST.

A Lady Relates two Astonishing Experiences.

As when I may concern I have had through every conceivable remedy for millions of years the past five years I am of a yellow complexion and suffer much from dropsy and liver troubles. But nothing ever gave me relief that I obtained from using Dr. J. C. Williams' Pink Pills. In fact I think I am cured for these ailments. At the time I was using it I had a little girl living in my family whose neck was seriously affected by a burn upon her neck, and I tried a great many kinds of lotions, ointments and blood purifiers to no avail. I gave her some of my medicine (Dr. J. C. Williams' Pink Pills) thinking it might benefit her and so it was. To my astonishment she began to breathe, and within two weeks it was entirely healed and she is now as well as ever.

MILLER, LINN COUNTY, OREGON, September 25, 1890.

MR. Z. T. WRIGHT, Portland, Oregon.

Dear Sir: In reference to your inquiry as to how I liked my Advance Thresher, purchased of you this year, will say the Advance does more and better work than any other machine I ever saw, and I have seen all that are represented in Oregon.

It threshes faster, cleans the grain better, runs lighter and saves the grain better from the straw than any other machine, and seems to be strong and durable. I am ready at any time to go into a trial with any other machine (except the Advance) and thresh from \$100 to \$500. They are the best in the market without doubt. If you desire you can refer to me at any and all times.

[Signed] I. D. MILLER.

For further particulars address Z. T. WRIGHT, Albany, or Portland, Oregon. Send for his list of 193 names of parties who have purchased Advance threshers in Oregon, Washington and Idaho.
