Pronounced Hopeless, Yet Saved.
From a letter written by Mrs. Ada E. Hurd of Graton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took it all night bottle; it has cured me and thank God I am a well and hearty woman." Trial bottles free at Foshay & Mason's drug store, regular size, 50c and \$1.

Emigration from Ireland, though greatly diminished, still continues at the rate of more than 70,000 persons a year.

THE SURPRISE COME.—The Baker City Reveille, anticipating matters by talking as follows, which now is out of place as the crisis has come, and we may look for the road to be secured by men who will build it with greater rapidity:

"A railroad entering the state near Ontario and ending at tide water on Yaquina bay, was projected and surveyed years ago. The people have been promised, Wall street has been worked, but the road stands dead still—what there is of it. Through the too open opera columns of Willanette valley papers, surprises are promised—unheard of things, 'promised surprises'—and yet the people grow gray, and hope becomes monody. The salvation of Eastern Oregon lies in someone who has not run the limit of scheme and financial wriggle taking hold of the road and pushing it through. That it will pay, there is no doubt. Although the eastern part of the state is rock-rimmed, piled and ranged with mountains, lumpy and bog backed, the valleys are rich and productive, far beyond the promise of any results yet obtained."

A sea-serpent, 100 feet long, was seen to coil itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr. Pierce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the lungs, which is really a scrofulous disease. If this wonderful medicine does not do all we recommend, when taken as directed, we will cheerfully and promptly return all money paid for it. Can any other be more generous or fair? No other medicine possesses sufficient power over that fatal malady—Consumption, to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alternative or blood-cleanser, known to medical science, but also possesses superior nutritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For all cases of Bronchitis, Throat and Lung Diseases, accompanied with lingering coughs, it is absolutely unequalled as a remedy. For Weak Lungs, Spitting of Blood, and kindred affections, it surpasses all other medicines.

\$500 REWARD offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Catarrh in the Head which they can cure. By its mild, soothing, and healing properties, Dr. Sage's Remedy cures the worst case, no matter how bad, or of how long standing. Fifty cents, by druggists.

Many schemes are already in course of formation by which large sums of money are to be drawn from the treasury of the state. There will be the same combines to accomplish these raids that were entered into two years ago to raid the treasury to build local roads. The boldest scheme is one to wrench \$200,000 from the tax-payers to aid in representing Oregon at the World's Fair. A reasonable appropriation should be made, but such a raid as this should be met at its inception and downed.

TELEGRAPHIC NEWS

A Train Wrecked.
PENDLETON, Oct 29.—A bed freight wreck occurred last night about seven miles west of here. It appears the train was an eastbound freight with a double-header attached. An axle under one of the engines broke, pulling up both engines and a number of cars following. No lives were lost. It is impossible to learn further particulars of the disaster except that the track is badly blocked by demolished engines and cars. A wrecking car was sent from La Grande but the track had not been cleared by this morning and it became necessary to send the westbound passenger via Walla Walla.

Cool Headed Gladstone.
LONDON Oct 29.—It transpires that Gladstone had an extremely narrow escape while inspecting the new Fifth of Firth bridge a day or two ago. While he was examining the different parts of the structure, a train rushed by at a high rate of speed just grazing the premier in its flight, and causing him to cling to the girders to prevent his falling in the water. Though the gravity of the situation would have unnerved a younger and more vigorous man he retained his presence of mind and betrayed much less agitation than any one of those who witnessed his peril.

The Usual Game Accident.
VANCOUVER Oct 29.—Hugh Morrison a boy 11 years old living in La Center shot himself accidentally while out hunting. In stumbling through the brush his gun was discharged into his right hand.
