DAILY DEMOCRAT.

It is an on year for democrats—on top. It is an off year for republicans, because the people want the war taxes off and hands that hold bayonets kept off the elections.

Statistics show that about thirteen per cent. of all railway accidents in the United States arising from derailments are caused by defective frogs and switches.

Texas reports state that owing to the poor crop of wheat this season a great many farmers are turning their attention entirely to cotton or reducing the acreage of wheat.

In consequence of large importations of American cattle into Belgium, a royal decree has been issued ordering that the duration of quarantine be regulated entirely by circumstances. At present the period of quarantine is ten days.

When Senator Ingall's term expires it is reported on excellent authority that he will enter upon editorial work on the New York *Sun*. It is said that editor Dana has offered him $10,000 per annum to take a position which shall be held to represent the *Sun* in western politics.

Every democrat who was ousted from his seat by Reed's "business congress" and was renominated was elected by an increased majority and every district deprived of its democratic member by his being ousted, will be represented in the next congress by a democrat. This is the response of the people to Reed, McKinley & Co.

R K Armour, of the Chicago Armour Packing Company, stated in Kansas City the other day that the prices of canned meat are to be raised, but it is not definitely known just how much. The raise is attributed to the raising of the tariff on tin by the McKinley bill. They also advance the price of lard in tin cans one fourth of a cent per pound for the reason of the increase in the duties on tin. The Armours are strong republicans and now that the elections are over speak frankly as to the cause of the advance.

W G Ewing, of Chicago, will probably contest Abner Taylor's seat in the next congress. At the recent election the names of the latter and A H Taylor, the candidate for clerk of the supreme court, were placed in juxtaposition on the republican ballots. When the vote was counted hundreds of ballots were thrown out because Ewing pasters were placed over the name of A H Taylor, instead of Abner Taylor. The democrats claim to have lost 5000 votes in this way. This claim is partly borne out by the fact that the vote for congressman fell several thousand short of the vote for sheriff.

MR. BLAINE'S PROPHECY.

In his Philadelphia speech, no longer ago than last Saturday night, Mr Blaine told his audience that Pennsylvania, with the bordering states of Ohio, Indiana, New Jersey, Delaware, Maryland and West Virginia, constitute the key to the presidential election of 1892.

He warned his hearers that if those states should be carried by the democrats this year the fact would be in effect determinative of the result in 1892. He said he had gone to Philadelphia to give the people of that city warning that "as Pennsylvania votes on next Tuesday the nation may vote two years hence."

Well, Pennsylvania voted democratic on the Tuesday of his prophecy, and of the other six states named by him the democrats have carried all but one—Ohio. In addition, by carrying Iowa a second time and by an increased majority they have fairly added that traditionally strong republican state to the democratic column, and they have carried the republican strongholds of Massachusetts and New Hampshire and achieved remarkable success in other unexpected parts of the country.

Mr Blaine's sagacity plainly saw that democratic success this year would mean that the people reject and condemn the republican policy as reflected in the work of the present congress. The extraordinary victory achieved means that with the utmost emphasis.—New York *World*.

The deepest lake in the world is Lake Baikal, in Siberia. Its area of over 9000 square miles makes it about to Lake Erie in a superficial extent; its enormous depth of between 4000 and 4500 feet makes its volume of waters almost equal to that of Lake Superior. Although its surface is 1350 feet above sea level, its bottom acreage over 3000 feet below the same level.

Rev. Joseph Cook of Chicago, who declares himself a staunch republican, was interviewed by the Seattle *Telegram* the other day and gave it as his opinion that the tariff bill was largely instrumental in bringing defeat to the republicans in the late election. While a protectionist himself he did not like the McKinley bill as it favored manufacturers too much at the expense of farmers and miners. Very few men agree with the *Oregonian* that the McKinley bill was contrived in the interests of the farmers as against manufacturers.

The republicans are said to be very much worried over the state legislatures which have been lost this year. To prevent any gerrymandering, which they claim to fear, it is said that they will try to pass McComas's anti-gerrymandering bill at the short session.
