GUESSING,-The San Francisco Examner gives a list of those winning prizes in its prize guessing contest. All the close guesses on Oregon were by Cali-fornia men. C E Dingle, of Woodland, Cal, came within ten guessing 312,500, and he received the \$1000 bull. W E and he received the \$1000 built. W E Osborn, of Sacramento, Cal, and Gustav Liesek, of San Diego, each guessed Port-hand's population at 47,300, being within 6. J E Carr, of San Francisco, guessed Astoria's population at 7,005, within 24, getting a lot in Traver; Edward Weller, of Salem, guessed closest on Eugene, 3,050, within 8, and received two lots in Palermo, Cal. John Clarke, of San Diego, guessed Salem's population at 1,981, and the Examiner gives it as 1,865.

1.987 and the Examiner gives it as 1.805. A mistake there of course. G H Park, of Eugene, gets a lot in New Chicago, gues-sing The Dalles population as 3.175, given as 3,015. August Kess'er, of Oakland, Cal, was closest on Washington's population, gressing 349,576, within 70. Police News .- A man too drunk to wars, tumbled off the sidewalk this fore-noon, was tumbled into Mueller & Gar-rett's delivery wagon, and thence into the caliboose. As he is a 200 pounder, muscular and from Stayton, on the San-tiam, we refrain from publishing him to the world.

Two word choppers from across the river came to the city last evening, filled up on fermented corn juice, got glorious-ly drunk, and were corded up this after-noon in the caliboose.

P. S.—They have just broken out of the rear end of the building and skipped out.

# ONLY ONE PAPER in Oregon stands up

for the recent census. The Pendleton Tribune, edited by superintendent of the census, Stange says, "What is the sense of the continued "kicking" against the au-thenticity of the census, It was better taken than any previous census, at was better taken than any previous census, and though not absolutely correct, it will be the found-ation of all data concerning population etc., for the next ten years. This being the case why shouldn't those dissatisfied with it stop botting their against a brick wall. They cannot by any possibility have it changed."

## MISFITS.

Silverton has the broad gauge now and will soon have electric lights. Probably in no other state can so many towns be found able to support electric lights as in Oregon, in proportion to its population.

Hazlett, the pilgrim printer, is now making his 22nd annual journey on foot northward through the Willamette valley. Some years ago he worked for us on the Goldendale Gazette a whole week without getting drunk, the reason being that he had not a cent and nobody would treat him.—Dallas Itemizer.

A boy with a new \$1,50 toy engine and shoes in shreds, his heels and toes sport-ing in the frosty atmosphere was a spec-tacle a Democrar i.ean did not contem-plate with urbanity. The world is full of it of it.

Drummers bring most "gags" to town. Like the bee they gather the pollen of joke in town after town and spread it about. One of them in the city says the gag now, when a man is "laying anything down" to you is to say. "Oh. I don't know" to every remark. Gradually he will work himself into a storm, and there in lays the fun. The idea is very bril-liant. liant.

Six Chinese pheasants turned loose in 1,000,000 by careful computation. Now if that is the case hore, will come student tell us how many pheasants there would now be in China if six had been turned now be in China if six had been turned loose in the days of Confuscins, and in-creased at the same rate, which of course they have not for few countries are so prolific as this.

Ten years is not very long; but it makes some difference so far as the rela-tive population of the states is concerned. New York was first in 1850 and likewise in 1890. Pennsylvania was second both times. Ohlo was third in 1880 and tourth in 1800, fillinois having jumped up from fourth to third place. Missonri retains the fifth place. Massachusetts has jumped from the seventh to the sixth place.Indiana dropped from the sixth to the eighth, Kentucky has fallen from the eighth to the eleventh. Michigan remains minth and Iowa tenth, Texas has increas-ed from the eleventh to the seventh-Mississipi has dropped from the eight-to the twentieth. Oregon dropped from thirty-seventh to the thirty-eighth, while Washington increased from the forty-seventh to the thirty-fourth.
