From a letter written by Mrs Ada E Hurd of Groton, S D, we quote: "Was taken with a bad cold, which settled on my Lungs, coughs set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am a well and hearty woman." KISSES.

(As in Romeo and Juliet.)

A prominent physician calls the kiss "an elegant disseminator of disease." He says, "fever is spread by it, so are lung diseases." Out upon the gnarled and [illegible] vagabond! Evidently kisses are not [illegible] sin pie, and the old fox says the grap[illegible] Let him devote himself to making [illegible] healthy and blooming that kisses may [illegible] asses. This can surely be done by the use of Dr. Pierce's Favorite Prescription, which is simply magical in curing diseases peculiar to females. After taking it for a reasonable length of time there will be no more irregularity, backache, bearing-down sensations, nervous prostration, general debility and kindred ailments.

It is the only medicine for women, sold by druggists, **under a positive guarantee** from the manufacturers, that it will give satisfaction in every case, or money refunded.

The national congress and that of the farmer's alliance both meet in December and both will receive messages from the president of the United States and from the president of the great agricultural order.

The alliance claims that while president Harrison has increased the sectional bitterness through the Force bill indorsed by him, that President Polk has allayed sectionalism, not only within their order, but among the people at large. The alliance claims that it has opposed interference with state politics and has refrained, though repeatedly solicited, from taking sides in any state contest. It seems highly probable that the alliance feels itself now on the crest of the wave. They will come out with a presidential ticket for 1892 to consist of a far western man and a southern man, one formerly republican and one whose fealty has heretofore been with the democrats.

This country is reported to have 300 colleges and universities, against 94 in Europe; but the latter are far higher in rank, have 1723 more professors than over three times as many institutions here, and 41,814 more students than our 69,400.

Symptoms of Consumption.

William J Sharples, Post Oram, Morris county, N J, writes:

"My business is that of sharpening mine drills, and I am much exposed to smoke and gas. About three years ago I began to have a bad cough, with considerable indigestion and pains in my chest. My physician told me I had symptoms of consumption. By the advice of my father, an old friend of Brandreth's Pills, I commenced using that valuable remedy. By the time I had got through the second box I began to pass a very disagreeable humor or pus. I began to improve very rapidly after this, and grew stronger and better every day. My cough is now well. I sleep well at night and have no more indigestion."
