The records show the real estate sales of 1890 to have been \$2,213,384. Had all these been given the actual consideration, or estimated consideration, as is done in some counties, it would have been more than double, as there seems to be a great "fad" here for making \$1 to \$10 the consideration for everything.

The year 1890 treated Albany well, though there was no boom; but, considering the generally reported quiet times the growth was a flattering one. The DEMOCRAT does not believe in exaggeration. The figures given in most cities are simply a farce. During the year approximately 125 residences were erected, of a better class than ever before, at a cost of at least \$150,000.

Improvements to streets, buildings, etc., of which there were many, will approximate \$75,000. This includes increase to electric light plant, enlargement of Burkhardt and other blocks, sewers, etc.

The year of 1890 will show a record of 179 marriages, a few for whom licenses have just been issued are married, the biggest in the history of the county.

During the last two or three years there has been a great deal said as to the locality of the "Blue Bucket Mines." This is a place where a train of emigrants coming to Oregon in 1845 is said to have found an abundance of gold, though at the time they did not know what the mineral was.

The train of emigrants had arrived at the mouth of Malheur river where they were met by Stephen Meek, a trapper, and brother to Jo Meek, who claimed to know a shorter route to the Willamette Valley than by The Dalles. He persuaded them to follow his lead and he would lead them direct to the head of the valley by the McKinley route.

THE REASON WHY.—Why is it that Klein Bros. can afford to sell boots and shoes so reasonable? Because they are both practical shoe makers and make part of their expenses by working on the shoe bench, any boot or shoe you buy of them, no matter what kind it is, man, woman or child, that rip, run over or the sole rips loose they repair them for you free of charge, and as they do all the work themselves, they don't charge you 25 to 50 cents a pair extra for a warrant to pay some shoemaker to repair them for you. They also make a specialty of repairing rubber boots.
