A FLOWERY LETTER.

In the Charlotte, Michigan, Tribune, of January 14th, the DEMOCRAT finds the following from the pen of Alice C. Love, wife of Mr. Love, the druggist, recently with G. L. Blackman. It is a very bright literary production, which our citizens will read with interest:

ALBANY, OREGON, Nov. 21, 1890. I have now been in this glorious land of sunshine and flowers nearly four weeks. I left Charlotte at noon on Wednesday, Oct 22nd, and arrived in Albany, Oregon, the following Monday.

The weather here is very warm and bright with sunshine. In the yards are roses, cypripediums, and an endless variety of other flowers. Great masses of white roses, dark, damask, lovely pinks, and yellow roses, all a mass of bloom and beauty, though now the latter part of November. Potted plants are still left on the porches or out of doors. For flowers and fruit the Willamette valley is the "Mecca" of the West. This valley varies from ten to forty miles in width and is one hundred in length. Many apples and pears still remain ungathered, there being no danger of freezing. I never saw such large, fine pears and apples, mellow, juicy and of delicious flavor. I came too late to sample the plums and cherries, but the residents here say that cherries grow to the size of ordinary plums and are not sour, as are eastern cherries, but more like a peach as regards the firmness of the meat, while plums grow to the size of peaches and are perfection in flavor. In the "West Shore" I read a description by E W Allen of a plum tree on his place, in its third bearing year. It bore this year over three hundred pounds of fruit. He says: "Two thirds of the plums would go over two pounds to every ten plums." He adds: "To a resident east this may sound a little fishy yet, if told to an audience of one hundred fruit growers in Oregon, they would wonder why I was occupying their time telling of so common an occurrence." I came so recently that the climate could not affect me so seriously in so short a time, so whatever I say you can accept as facts. Albany claims seven thousand inhabitants.

The Willamette, a large and beautiful river, with water clear as crystal, lies on the north side of the city. The Calapooa flows through the western part. Then there is a canal running all over the town, I mean it is conducted all over the town and furnishes water power for the several mills and factories. The city water works obtain all the water for fighting fires and all other purposes from this canal. I supposed canals were ditches filled with dirty sluggish water. Imagine my surprise on seeing for the first time a canal, to behold a stream of clear water with rapid current moving so swiftly as to form ripples and little waves on its surface. The canal conducts the water from the Santa Anna river, a mountain stream, a distance of ten miles, before it reaches Albany. Albany might well be called a city of canals. Within a radius of two blocks from where we live are seven canals. Services were held in the Universalist church on November 9th for the first time. The expense of building the entire church, furnishing it with organ, chairs and electric lights and all else was borne by one man, Mr Pierce, of this place. He purchased the land, and after the church was built furnished walks completed, lawn seeded down, everything furnished, he then presented the property to the Universalist Society, of Oregon, a grand gift to the society and the church and an honor to the city. Albany has a public school, a college and a school for girls, conducted by the Catholics, known as the "sisters' school." We have street cars and electric lights, but strange to say, there is no telephone in the city. The weather so far has been just perfect, cool mornings with warm, bright sun all day. The air is so full of invigoration that to inhale it brings a sense of pleasure, strange and new. Warm winters, generally three months of rainy weather, with cool dry summers is the climate of Oregon.

The people here are very social and try to make a stranger feel at home, but I realize that no place can quite be Charlotte to me.

LEBANON.—Rumor says that negotiations are pending between the Catholics and Mr Mossholder for the public school building, to be used by that denomination as a church.

Sheriff Scott was made the victim of a good joke on Monday at the Albany depot. Mat had a warrant for the arrest of a certain clergyman whom he did not know, and some mischievous boys pointed out Rev T P Boyd, of this place, as the man he was seeking. Rev Boyd established his identity, Mat apologized, and the crowd laughed.

Frank West, section foreman on the O R, was seriously hurt Tuesday. The weather being foggy the regular train came upon him rather unexpectedly, while he and his men were on the hand-car, and it is thought that he jumped off before the car stopped and in doing so the car passed over him. Dr Foley was called immediately and pronounced him badly bruised.—Express.

STILL INCREASING.—The interest at the M E Church is increasing from night to night. Evangelist Connolly with his unique illustrations strikes the truth home. Thirteen came forward to the altar last night, and some were made to rejoice that their sins were forgiven. Large congregations and the best of order has prevailed. To-night services at the usual hour, but no services to-morrow. Everybody welcome.

THE REASON WHY.—Why is it that Klein Bros can afford to sell boots and shoes so reasonable? Because they are boot and shoe makers and make part of their expenses by working on the shoe bench, any boot or shoe you buy of them, no matter what kind it is man, woman or child, that rip, run over or the sole rips loose they repair them for you free of charge, and as they do all the work themselves, they don't charge you 25 to 50 cents a pair extra for a warrant to go to some shoemaker to repair them for you. They also make a specialty of repairing rubber boots.

FOR SALE.—\$300 to \$7000 of household furniture in exchange for improved real estate. Inquire at office of OREGON LAND CO. January 22nd, 1891.

James Blaine, jr., son of James G Blaine, got gloriously drunk, took his shoes off at a ball in Baltimore, tickled a young lady on her shoulders, and was put out of the ball room. Such is high life.

We see by the papers that the state agricultural college is making an effort to get another appropriation from the state during this session of the legislature. We wonder when this senseless begging is going to cease.—Monroe correspondent of Pilot.

Probably the oldest house in the United States is a decaying stone dwelling that stands in Guilford, Conn. It was built in 1640 and is still occupied. In colonial times it did duty occasionally as a fort and was a place of refuge for settlers when King Philip was on the war path.

A prominent San Francisco attorney has confessed that he has made paupers of the state during this session of the legislature. We wonder when this senseless begging is going to cease.—Monroe correspondent of Pilot.

The DEMOCRAT is informed that a petition is being circulated in Albany against the new city charter permitting the bonding of the city so that a bridge and sewers can be built. In view of the fact that the people of Albany have already spoken in very emphatic terms on the subject this is ridiculous. We are glad to know only a few are signing it, and most of them must be ashamed of it.

Here's the way a bridge in Albany would also be used: "Mrs Jane Pentland, of Halsey, who is laid up with a sprained knee at Dave Matheny's residence across the bridge, undertook to keep track of the amount of travel over the new viaduct a day or two ago. She enumerated fifty-four farm wagons, seventy-six carriages, thirty horsemen and two hundred and nine pedestrians between eight in the morning and six in the evening.

If you wish to see a mad man just go over to T P Lee's warehouse, where he has about eight men busy repacking apples. The trouble is he bought from several parties without examining every box. When he came to examine them to ship he found over eighty boxes of worm eaten and shriveled apples that would not make first-class hog feed. This is one thing our fruit growers should consider of that it is to their interest to see that their apples are packed properly.—Grants Pass Courier.

Up in Washington there are 58,104 mortgages filed, indicating that it has taken lots of them to boom the country. Here is the way they are divided: Adams, 105; Astor, 480; Chehalis, 1,336; Clallam, 255; Clark, 2,016; Columbia, 2,643; Coville, 520; Douglas, 258; Franklin, 26; Garfield, 2,104; Island, 190; Jefferson, 875; King, 8,951; Kitsap, 319; Kittitas, 1,096; Klickitat, 160; Lewis, 1,408; Lincoln, 1,430; Mason, 152; Okanogan, 28; Pacific, 353; Pierce, 7,747; San Juan, 307; Skagit, 1,250; Skamania, 74; Snohomish, 1,438; Spokane, 7,947; Stevens, 254; Thurston, 1,185; Wahkiakum, 198; Walla Walla, 3,591; Whatcom, 1,720; Whitman, 6,250; Yakima, 793.

Mrs S S Train and Mrs Thos Hopkins returned this noon from Salem, where they have been in the interest of the orphan's home and hospital. An appropriation of \$10,000 for the institution is confidently anticipated. It is an interesting fact that the citizens meeting for securing the home and hospital, was held just a year ago tomorrow. Now the building is up, and all that is necessary is a liberal appropriation to make it a solid institution, and it is entitled to it.

CIRCULATING LIBRARY.—Mr Joe Tall, who organized a circulating library a year ago, and placed 100 books at the store of C E Brownell, has started out to increase the number of books by getting new members. It only costs \$1.50 to become a member and each member has the right to read all the books in the library. This is a very cheap way to secure reading matter. Remember each member has the right to read any book in the library or any that may be placed there by increase of membership. C E Brownell is librarian.

The Willamette at this city is only 1 foot 9 inches above low water mark, too low for boats to run with ease. Quite a contrast to a year ago.

The natural gas wells that were overflowing several months ago all over, seem to have all collapsed, at least nothing is heard of them now. What's the matter?

Don't fail to see our men's and boys' clothing before purchasing elsewhere. We sell the best clothing for the least money of any house in the city. Look and be convinced. G W Simpson.

A man from Scio says every man in the Forks but four signed a petition for a new county of Santiam. This probably is an exaggeration. The petition will be taken to Salem so as to be there on next Monday. It is said to say it will do no good.

The Victor is the name of a journal just issued by the Y M C A of Albany. H W Young, Secretary. It contains 13 pages. It is to be issued monthly for 50 cents a year, and deserves a liberal patronage. The printing is done by Paisley & Smiley in good style.

The failure of J M Elgin, at Portland, has led to the assignment of David Brown, whose property was attached by reason of his being one of the sureties on Elgin's notes. A foreclosure would be disastrous, and in order to protect himself and his creditors, Mr Brown has made an assignment to M J Greene, who is also the assignee for Mr Elgin. Brown's assets will reach \$40,000, and his liabilities, including the security debts, \$35,000. That city is certainly getting it share of heavy failures.

THREW AWAY HIS CRUTCHES.

Engineer W Hayes, of the Southern Pacific R R, Joins the Long List of Patients Cured by Electricity by Dr Darrin.

Editor Oregonian—Dear Sir: I hold it to be a duty as well as a pleasure to make known through the press that which of all other things is most essential, viz: The way to sure pain and sickness. From Dec 15 to the 19th I was confined to my house with sciatic rheumatism, kidney trouble, inflammation of neck of the bladder and general indigestion. Could not sleep more than an hour at a time. All means I tried proved unavailing. I was prompted to visit Dr Darrin through the advice of my friends, who had been cured by him though, I must say, I had but little faith that electricity would cure me. I came to the doctor on crutches. Two weeks electric treatment has cured me, so I have thrown away my crutches, and my other complaints have all disappeared so I take command of my engine today. W HAYES.

How Mrs Miller Gained Eight Pounds.

East Portland, Jan 11, 1891. Mr Editor: As others are telling what wonderful cures Drs Darrin have made for them and their friends, I want to tell how much they have helped me. Less than two months ago I began taking their medicine and electric treatments. Before one week had passed I began to improve and am now like a different person. I can walk anywhere I wish to go and weigh eight pounds more than when I began becoming with them. I feel pleased and grateful and want others who are sick and miserable to know what they can do for them. Can be referred to at my home at any time. Irving addition, East Portland, corner Fifth and Alder. Mrs H J MILLER.

Des Darrin can be consulted free at 70 1/2 Washington street, Portland, from 10 a m to 8 p m daily. They treat all curable chronic, acute and private diseases, and will send their circulars, question blanks and remedies to say mail or express address. Drs Darrin have been practicing their peculiar electric treatment for the past twenty-seven years, and that they do cure where all other methods fail is shown by the above remarkable cures.

We do not publish the names of one in 50 on an average, and only then with the written consent of the patient.

Beware of anyone representing himself as Dr Darrin traveling through the country, as they are frauds. Drs Darrin have closed all outside offices.
