CITY OFFICIAL PAPER.

LOCAL RECORD.

REGARDLESS of their sentiments on the division question the best people of Scio will condemn the action of those of their citizens who hung Miss J. Weatherford and Jeff Myers in effigy Wednesday night, after hearing of the arrest of the measure for this session. The effigies were seen suspended across the street of that city yesterday morning. "Can a man live after death," said these two. The effigies were taken down and thrown into Thomas Creek. Such conduct never helps a cause. The two Senators have acted conscientiously in the interest of Linn county as a whole, from which they were elected, and not from one or two precincts, and the masses of the people of the county will sustain them in their course; ay, from the Forks alone.

LOSE LIVED.—The little incandescent lights that illuminate so many of the business houses and homes in Albany, are worth studying. The electric spark passing through a film in vacuum causes the light. The life of these films is remarkably variable, some lasting only a short time and others a long time. The longest lived one in this city is in No. 29 engine house. It has run all night since the system was begun here three years ago, by computation 11,000 hours in all, whereas, the general life of one is about 600 hours. This one was a 30 candle power on starting, now less than a 10 candle power.

LOW TAXES.—Taxes may be a little high in Clatsop county, but valuations are not. This fact is apparent every day to Sheriff Smith who is greatly annoyed by the receipt of larger sums than the taxes amount to. Last week he received \$14 from a lady in Wallace, Idaho, in response to a notice sent to inform her that fourteen cents was due for taxes on her property. The sheriff returned \$13.86 to her and thought that the case was settled, but not so. Yesterday he received a letter from the lady telling him that he surely must be mistaken about the amount, and if he was not mistaken to be sure and send her a description of the lot which would only stand fourteen cents taxes.—Columbian.

THE R. R. COM.—T. J. Black, of Halsey, is a candidate for the position to be filled by a democrat as a member of the railroad commission. He is well spoken of by those who know him. If the bill passed in the house to increase the powers and define the duties of the commission passes the senate, practical men, who know some thing about railroads, should be elected. If this bill does not pass the senate, the whole thing should be abolished. It is an expensive commission, and its services should be worth something to the people.—Statesman.

FIVE CASES.—In view of several exaggerated reports about diphtheria, the DEMOCRAT has made a careful inquiry into the matter and finds there is diphtheria in just four families, five cases in all. These are in the families of M. Hyde, Dick Morris, Mr. Hedrick and Mr. Sayer, and are well scattered. Only one child probably prove fatal, that in the family of Mr. Morris, his youngest child, there is no likelihood of its spreading further.

TRIED TO ESCAPE.—Yesterday Marshal Mann, of Corvallis, took one Philip Davis to Portland for selling liquor. At Saver jumped from the train, but Marshal Mann, who is an athletic man, followed him, firing a couple shots, and soon had him in custody.

TO-NIGHT.—Oregon Encampment No. 100 F holds its regular meeting tonight. Team work in the Patriarchal and Golden Rule degrees. All Patriarchs are specially requested to attend.

MEN and women do not always agree, but they frequently disagree and quarrel too, causing many divorces and failures in the matrimonial market. One thing, though, they agree on, and that is at Conn & Henderson keep the kind of groceries one needs in housekeeping they get men and women alike and give them genuine in goods in their line. Call on them for groceries and produce.

LOADS OF GROCERIES are received daily by Mueller & Garrett, both by rail and at. Cash figures are pleasing every day and this is the reason why they are doing so much business. If you want to save money buy your groceries of them. They do not have to give toys and presents to induce trade, as low figures and good goods satisfy everyone.

NOTICE TO THE PUBLIC.—Mr. John Russell will take charge of the Albany Market for the present. M. HYDE.

One half dollar reduction on every pair of men's fine shoes. A good line of them at W. F. French's.

Best quality of goods in the city at Conn & Henderson.

SOCIAL AND PERSONAL.

J. F. McKinney, of Brownsville, is in the city today.

John Isom, Maurice Sanders and Mr. Casey went to Portland this noon.

Miss May Hardy, of Lebanon, has accepted a position in the Postal Telegraph office at this city. She is already a good operator.

A surprise party was tendered Miss Flora Lewis, at the residence of Ignatz Fox, Wednesday evening. A pleasant evening was passed.

Mr. Chris Finlayson, recently reported dangerously ill at his home in Colorado, the DEMOCRAT is glad to learn, is improving and is now out of danger.

Miss Mary Reed, a former student of the Albany College, and who for the past two years has been a successful school teacher in Idaho, has returned to Albany, where she will spend the summer.

STATE LEGISLATURE. SALEM, Feb. 12.—A new bill in the Senate by Raley provides for the punishment of minors over 16 obtaining liquor by false pretenses, probably incited by the recent arrests at Pendleton. Weatherford's bill providing for registration of voters in cities of 5000 or more was defeated. Weatherford's bill permitting the A & A R R to bridge the Willamette at this city passed. The Portland Consolidation bill passed the House, with 1 no, and was read twice in the Senate. It will probably become a law, and will be a good thing for the whole state. A bill by Thomas provides for redistricting the state, and will be made special order Friday. Weatherford's bill providing for bridge at Albany has passed both houses. The Governor has signed the primary election bill. "Corporations are the people" is a question being asked. Miller's bill regulating railroads requires that railroads shall transport Oregon products in the state as cheaply and speedily per ton per mile as they do foreign products into or through the state, and that they shall furnish cars for local as well as through transportation. It has passed the House and should pass the Senate.

Wednesday evening, Feb. 18.—At the opera house, under auspices of Albany Engine Co, No 1, Fireman's ball. Tickets, without supper, \$1.50.

Friday and Saturday evenings, Feb. 20 and 21.—Boston Gaiety Comedy Co, at opera house.

Tuesday evening, Feb. 24.—The Garretts, by college students, at the opera house.

Friday evening, Feb. 27.—Concert, under auspices of Prof. Lorillard, assisted by best local talent, at opera house.

LEBANON EXPRESS ITEMS.—The Lebanon cornet band will give a Valentine social at Union hall on Saturday evening, Feb 14th.

G M Westfall, after spending a short time in Iowa, concludes that there is no country so good as Oregon. Mr Westfall is visiting his folks in Iowa after an absence of twenty-six years.

The O P R R, under the management of Mr Hogg, is grounded, and our devil, who is much of a wag, insists on calling it the ground Hog road.

It is remarkable while Canada East is looking toward annexation, Canada West (between the Santiam rivers) is plotting secession.

Men who have just returned from the Santiam mines, report the snow from two to fifteen feet deep; a slight discrepancy in the reports.

Phil Smith says the question of division will not be revived in the "Forks" until another generation claims the ballot.

Perhaps it is well enough that the appropriation for Sodaville springs was not granted; two arrests were made in that town, lately, and if the legislature had "troubled" the waters by putting in a "stick," there is no knowing what the outcome would have been.

ASTORIANAS.—Astoria banks are solid, and financial matters generally are in good shape. There are fewer business failures, proportionate to its population, in Astoria, than any city in the United States.

"Oh-o-o, kidneys! Come on! Wot keeps ye? Are ye makin' yourself?" is what a young American yelled to a dilatory comrade with a bright, blue sled, in the falling snow, on the hillside last evening.

Two or three times this winter the weather hereabouts has tried to be mean, but somehow, every time the frost or snow starts to put in an appearance the sun and sou' wester have knocked them out, and 26 deg. is the coldest seen as to temperature since the season of a grippo a year ago.

THE REASON WHY.—Why is it that Klein Bros. can afford to sell boots and shoes so reasonable? Because they are both practical shoe makers and make part of their expenses by working on the shoe bench, any boot or shoe you buy of them, no matter what kind it is, man, woman or child, that rip, run over or the sole rips loose they repair them for you free of charge, and as they do all the work themselves, they don't charge you 25 to 50 cents a pair extra for a warrant to pay some shoemaker to repair them for you. They also make a specialty of repairing rubber boots.

Stor just about in the middle of the block, on First street, south side, between Broadbain and Ellsworth, and you will find a place where you can always get first-class groceries and fresh produce at reasonable prices and be well treated without extra price. The sign reads "Parker Bros." and everybody knows the name. Their baked goods are the best. Their stock of goods generally is kept replenished to meet the demands of a growing trade.

MISCELLANEOUS.

To-morrow will be St Valentine's day, a day of the beautiful and the horrid.

A Portland teacher informed her class that she had "a good mind to give them all a dog-goned good thrashing."

The E. O. of Pendleton refuses to publish poems. Says a newspaper is not for that purpose. This is hardly a poetic age.

The Albany and Astoria Railroad Company evidently mean business, from the provisions they are making in reference to bridging the river.

The Salvation Army evidently has a good standing at Scio, judging from the following from the Press: "Interest in Salvation Army meetings continues. Several converts are reported. Let the good work continue."

Holmes, of Marion, voted against the bill dividing Oregon into two Congressional districts, being the only no in the house, because it didn't make both districts democratic, which shows what a big pump of humor Holmes possesses.

It is said Nelson Bennett was the cause of Reed's retirement from the Oregonian. He roasted the Tacoma gentleman and the Tacoma gentleman got on to the neck of the Oregonian. By way of compromise the Oregonian wanted Reed to transfer himself to Salem, Oregon's capital, and Reed concluded he would quit first and quit he did. He probably has it in for the Tacoma millionaire.—Olympia Capital.

The Scio Press very sensibly takes the following position in reference to the Albany bridge, which is in strong contrast to the narrow course of a paper in another part of the county: As to the bridge, as preparation in the way of the necessary legislation has been made, we may safely conclude that it will be built, or at least commenced during the coming summer, and we, from conversing with the people, think a majority of them in this section, if called upon to do so, would say that Albany is justly entitled to the bridge and should have it.

The Arizona Kicker goes for the Mayor of his city in the following red hot manner: "The mayor of this town hasn't the decency of a wolf nor the dignity of a monkey. He has been drunk at least three times a week for the last month, and he would as soon pull hair with a half-breed as to argue with a gentleman. We've got tired of his capers and we now give him due notice that unless he comes to a right-about-face we'll give him dead away and rid the community of his presence. An individual about his size is wanted in one of the eastern states for cow-stealing, and while we don't want to be pizen mean, we owe a duty to this community. We have got our eye on the mayor."

Phrenology is a very interesting subject. Most people now, including the writer, believe there is considerable in it; but so long as phrenologists, of apparently equal ability, give one entirely different "heads" there are bound to be doubts as to the reliability of charts as commonly given. An Albany young man—and probably others—has charts of two phrenologists, in the city within a few years, who marked his head the same only on three faculties out of fifty-four. This indicates that a man's chart depends about as much on the character of the phrenologist as it does on his own. The avowed object of phrenology is to tell people what they are good for. This is marked in charts in degrees, from 1 to 7. The writer has seen a chart of a young man marking him 7 as an editor and a minister. He would run a newspaper into the ground in two months, and preach to benches, in all probability. The truth is that one's head suggests great possibilities means nothing at all without it also suggests great firmness, great patience and great virtue. Phrenologists should marshal all the faculties and tell the truth regardless of consequences, and not give a man traits equal to Talmage and Pulitzer unless he possesses them.

A GOOSE HUNT.—Mr Grant Froman and Mr J. F. Powell have returned from a goose hunting expedition near Shedd. During the hunt Mr Powell became lost among the sloughs around Shedd, and it was not until midnight that Mr Froman succeeded in finding him, after an unpleasant but not very serious experience, without even a goose to pay for the fun.

NEW CARPETS, new carpets, new carpets and new styles, latest patterns, the best in the market, just received at A. B. Melvins. The stock is large and choice, selected for this market, and people wanting the best carpets at the lowest prices should call and inspect his splendid stock. It was bought low and will be sold low.

Egan & Achison handle the celebrated Portland cement walls for cemetery lots. These walls can be furnished at half the cost of any other and are far superior.

Cheddar cheese is the best. Try it. C. E. Brownell.

W. F. Reed keeps the best assortment of fancy goods in town.

HOME AND ABROAD.

Pie plant roots for sale by J. H. Townsend. Buy your groceries of Parker Bro' Hulin & Dawson, druggists. Fine groceries at Conn & Henderson's. All rubber goods at Klein Bros. Griffith Davies has been appointed Postmaster for Seattle. The State Legislature will adjourn a week from to-night. Considerable snow is reported at Green Bay, on the O. P. Portland's population will be about 75,000 under consolidation. Smoke the celebrated Havana filled 5 cent cigar at Julius Joseph's. See W. F. Reed's line of dress goods and silks before buying elsewhere. Bargains in choice groceries can always be secured of Allen Bros., Flinn Block. Ladies Auxiliary tonight a YMCA Hall. All ladies are cordially invited. Scio will hold a public meeting to-morrow night to consider the division question. A very sloppy snow storm occurred early this morning. It was of a transient nature. A large stock of wall paper, with late designs, at Fortmiller & Irving's, just received. Washington, 50c a dozen, mending for men free, at Mrs. Kings, just east of the DEMOCRAT office. Besides those mentioned elsewhere, one of the children of E. E. Parrish has the diphtheria. One of the finest water powers in the world is at Waterloo, wasting itself year after year. The Utanilla Indians have been doing a little ghost dancing of a harmless nature, causing a slight alarm. The attendance at the college now is about 170, the most for several years. It is a prosperous condition. A heavy snow storm fell in Southern Oregon this forenoon, and in places the water was as high as the railroad track. The overland, which is due in Albany at 6:39 a. m. met with a land slide in the Sierras last night and will not be in Albany until about midnight. Mr J. A. Doughten has the DEMOCRAT thanks for some North Carolina chestnuts recently brought by his brother, F. S. Doughten, from that state. A bill permitting the Albany & Astoria railroad to build bridges over the Willamette and other navigable streams on its line, passed the U. S. senate yesterday. Mr Graham, an ex-territory commissioner, was sandbagged by the big M. E. church, at Salem, Wednesday night, and robbed of \$2. People need to keep their eyes open. The report in the Salem papers that young Tucker, who had been lost in the mountains beyond Gateville, had been found in a dehydrated condition, it transpires, is not true. The Oregon Pacific railroad company is paying off for the month of October. C. C. Hogue went over the line Wednesday to pay the employes. That makes November, December and January due. Prof. Riddle closed his phrenological lectures in Albany last evening. The Prof is a man of fine morals, well read in his interesting profession and made many friends in Albany by his manly bearing. Miss Iva Templeton, of Crawfordville, who was injured by a bridge on the Salapooa giving way, about a year ago has been taken to the Good Samaritan hospital, at Portland, for treatment. She has never been able to walk since the accident. The government snag boat, Corvallis, is snagging a few snags out of the river, and is now in this vicinity. She will go to Harborsburg. This is good as far as it goes; but what is wanted is some dredging on the bars more than any thing else. Mr C. O. Lee, the new engineer and night watchman, who will have charge of No 15 engine, will begin his duties tonight. Mr Lee has recently been night watchman on the O. P. bridge. He has had considerable experience as an engineer. A bill has been introduced in the legislature of Washington by Sharpstein, of Walla, providing for a rigid examination of locomotive engineers as to their qualifications, and providing for that no man who drinks shall have charge of a passenger engine. The Vancouver city council last week fixed the salaries and bonds of certain city officers as follows: Assessor, \$150 per year; marshal, \$720 per year; \$2000 bonds; attorney, \$500 per year; \$2000 bonds; treasurer, \$60,000 bonds; health officer, \$5 per day, when actually employed. The people of Western Kansas have never before in the history of the state known such fearful financial difficulties as at present. The scarcity of money or anything convertible into it, is almost fatal, and the business houses have all they can do to keep alive. Following the failure of the American National Bank of Kansas City, four banks in one county alone have suspended. There was no run made on any of them, but the little deposit they carried with their correspondent was their ruination. CATARRH CURED, health had west breath secured, by Shiloh's Catarrh Remedy. Teachers Examination. Notice is hereby given that the regular public examination of teachers, for Linn county, will take place in Albany, commencing on Wednesday, Feb 25th at 1 o'clock, p. m., and continue until Friday noon, Feb 27th. All teachers must positively be present at the time of commencement as no one will be admitted to the examination who is not so present. G. F. RUSSELL, Co. School Supt.

BOYS. DEYOYE.—On Thursday evening, February 12, 1891, in Albany, to the wife of L. W. Deyoye, a nine pound boy. All doing well.

HE FOOLS 'EM. People who are Easily Deceived. He has Caught Eight so far.

A city druggist stated that he had had eight calls for Joy's Vegetable Sarsaparilla but had sold his own every time. It did not occur to him that it might be a serious matter to give his old time mercury and potash preparation to people who do not need syphilitic treatment. It is safe to say that not one person in ten has a syphilitic trouble. Hence what do they want with such dangerous minerals as mercury and potash? What nine-tenths of our people are troubled with indigestion, dyspepsia, sick headaches, excoriation and face eruptions, all of which are the legitimate results of improper liver and kidney action, or impaired digestive organs. Those disorders do not call for syphilitic treatment, but for mild vegetable liver, stomach and bowel alteratives. We are surprised that intelligent people should be persuaded into taking a mercury and potash sarsaparilla. When you ask for Joy's Vegetable Sarsaparilla, see that you get it.

And the Method Mr Chamberlain Used to Get Relief—Mr W. S. Cone's Experience with Dr. Barrin.

For the Oregonian: We often fail to secure to ourselves the results of the operations of a system, by requiring too much of it, by listening to a hars or allowing ourselves to find fault with those who operate or represent the same. I had consulted for many years physicians successful in treating "acute disease," but could not relief for kidney and liver trouble and neuralgia of the stomach of over fifty years standing, until I came under Dr. Barrin's "Electric treatment." But, thanks to "Electric treatment," my troubles are a thing of the past. If others care for particulars affecting my illness I will answer their questions in behalf of the afflicted. R. B.
