MISSIT

Some one has learned that according to the newspapers General Debility is the greatest General of the age.

A man at Silverton has invented an incubator which should prove a fortune to him. He packs a barrel full of eggs and sets the hen on the bung hole, all the eggs hatching. Next.

The people of Tucson, Arizona, by a public subscription, buy 8000 copies of their local paper every month for the purpose of sending it abroad, and, in addition, pay \$200 a month for "write ups" of their city. Tamar, Colorado, pays \$2000 for a pamphlet, and \$1500 for "write ups" in the local press. The Monitor of Fort Scott, Kansas, is paid \$7000 for talking up the advantages of that city.

Mr E A Heath, editor of the Harney Press, has been held to answer by United States Commissioner Cardwell, on a charge of sending indecent literature through the mails. He has been required to give bonds in the sum of \$600 for his appearance. The indecent literature is comprised in some two or three paragraphs and some doggerel poetry published in the Press, and the complaint was made by J Embell, to whom some of the stuff referred.—Journal.

The matter of the city buying the ferry franchise has been the exciting topic of conversation on the streets today. A remonstrance will be circulated against the petition, and will be largely signed. The council will consider the matter Saturday evening, and if they reject the petition, as they probably will, as well as we can judge of the public pulse they will generally be sustained. The enthusiasm over the proposition to build the bridge is steadily increasing, and the sentiment is as nearly universal as it can be in such a matter. It is safe to say that under no circumstances will any one be found to put even a straw in front of so important a movement to the prosperity of Albany.

ALBANY BRIDGE AND FERRY.

The attention of the public is called to following affidavit as bearing upon rumors mentioned therein:

STATE OF OREGON.)

COUNTY OF LINN.)

I, D. B. Montieth, being first duly sworn say, on my oath, that when I sold my interest in the Albany ferry, to J W Cusick he paid me therefor, \$4500; that I did not then or at any other time, make any agreement, or have any understanding directly or indirectly, with Mr Cusick, or with any one on his behalf, to refund or pay to him any portion of said \$4500, or any amount of money or consideration of any kind, nature or description, whatever, in case a bridge should be built across the Willamette river at Albany, or on any other conditions; and I further say that there was no understanding either expressed or implied, either to the above effect, or of a like nature or import, between Mr Cusick and myself.

The sale of my interest in the Albany ferry to Mr Cusick was an absolute unconditional sale, without any reservations or understanding, whatever, expressed or implied. He took my interest in the ferry; I took the money; that was all.

The rumors that are being circulated on the streets of Albany that the proposed purchase of the Albany ferry, by the city, is in my interest, are without any foundation in fact, and are absolutely false and untrue, and those who circulate them do me a great injustice. I make and publish this affidavit because of such rumors, and to correct the erroneous impression which they naturally make. (Signed) D. B. MONTIETH.

Subscribed and sworn to before me this 31st day of March, 1891. T. L. WALLACE, Notary Public.

ELECTRICAL SCIENCE.

There is no single remedial agent known to the medical world which can fulfill so many requirements in the treatment of diseases as the scientific application of electricity. It is one of the most powerful agents in nature for evil as well as good.
