

WASHINGTON.

(From our regular correspondent.)

WASHINGTON, April 20, 1891. Representative Springer, not to be behind the other candidates for the speakership of the house, has given out, in the shape of a newspaper interview, a statement of his position upon the various questions now before the country.

Such prominent South Carolinian as Ex-Governor Thompson, now the democratic Civil Service Commissioner, says that the telegraphic reports of movement in South Carolina for the desertion of the democratic party by a large number of white men who will act with the republicans in future is news to them, and they all express themselves as not believing such a movement possible in that state.

The fact that Mr Harrison is jealous of Mr Blaine has long been apparent, but a story that I accidentally stumbled upon makes it out even a worse case than I thought it to be. Russell Harrison, according to my information, who is now travelling with the presidential party, took occasion before leaving Washington to intimate to several people whom he thought to be unfriendly towards Mr Blaine, that he thought it was a shame that his father, who had been forced to almost resort to compulsion to prevent Mr Blaine taking steps towards conciliating the Italian Government should be deprived of the credit for the firm stand taken by this government in that matter, when it was to him, and to him alone that it was due.

The republican post office officials are indulging in a great deal of self congratulation over the establishment of post offices on several lines of ocean steamers for the distribution of matter in transit, which is exploited as something entirely new, and due to the fertile Wanamaker brain. A way back in the Buchanan administration similar post offices were maintained on the lake steamers that ran into Chicago and if brother Wanamaker will examine the records of his office when he gets back to Washington he may be able to get some useful pointers on the conduct of steam boat post offices.

The grip has got Attorney General Miller, which compelled the government to ask for a week's continuance of the Sayward case, which was to have been called up in the supreme court to-day. This case it will be remembered is the one which bears upon the Behring sea dispute.

Secretary Foster having returned from his political trip to New York, he and Senator Sherman put their heads together to make a little fun for Ex-governor Foraker in Ohio this year. I asked Senator Sherman if it was true that he intended retiring from public life at the end of his present term, but I am still waiting for the answer—he talked about the prevalence of the grip very freely, but of politics not a word. However, his dollars to a wood tooth pick that John Sherman never willingly retires.

Secretary Proctor has gone to Vermont to look after his marble quarries, and incidentally to look after the bargain he is believed to have long ago made to succeed Senator Edmunds. I should like to know exactly the number of days that Mr Proctor has spent in his office in the war department since he became a member of the cabinet. No cabinet officer in my time has ever touched his record as an absentee.

When Secretary Tracy's order for an alleged competitive examination in the New York and Norfolk navy yards was issued Representative Bowden, of Virginia, who lives in the Norfolk district, came post haste to Washington to find out what it meant. Before having a talk with Secretary Tracy he was very blue, but afterwards he was all smiles and said "Oh, all of my constituents will pass the examination and be reappointed." Did Tracy let him see the inside of the humbug?

DEMAGOGY.

It is surprising that a journal like the Democrat that so determinedly insists that the tariff is a tax should advocate the establishment of a dairy when butter and cheese could be procured so much cheaper from Canada if it were not for the tariff-Plaintiff.

For the information of our cotemporary we would say that for the year 1889, and before McKinley put his six cents a pound duty on butter, there were imported into this country 91,256 pounds. This cost 20 cents per pound in the country from which it was imported. Think of it! Ninety one thousand pounds of butter imported. Of course our butter makers had to have protection from this enormous amount of butter, the product of cheap foreign labor. Here was enough pauper labor butter imported in one year to supply the 270,000 families of the city of New York for a whole day. How could our butter makers stand such competition. The Plaintiff must be proud of its little balloon.

We would much prefer that all who wish to purchase lots in this addition, would and personally inspect the grounds and learn for themselves the many and varied advantages this addition presents to the public. By a personal inspection you will discover the following facts:

Lebanon has a population of 1500. One hundred and twenty-five new substantial houses were built here during the year. The Lebanon and Santiam Canal Company has been incorporated, and work will begin thereon as soon as the necessary preliminaries can be arranged.

This canal will give steady work to hundreds, and furnish mill-sites for many manufactories, and the town and other advantages—will be a city of 5000 inhabitants. It has nearly doubled its population in the last year. A \$150,000 paper mill is now completed and work begun therein this July 1st.

NOW FOR THE

It lies along the route of the Lebanon and Santiam Canal. It is platted with wide level avenues; planted with most beautiful young shade trees each lot fully large enough for a comfortable residence, and each has a natural drainage. We sell no lots that are unsuitable for building purposes, and give a clear title to each. This addition joins the beautiful Isabella Park—from which it derives its name—which will afford to residents in the addition beautiful recreation grounds. All lots are 66 feet front and from 232 to 185 feet deep.

LET THIS FACT BE REMEMBERED:

The price of all these lots will be advanced 25 per cent. after May 15th.
