

Daily Democrat.

A new paper called the *Enterprise* has been launched at Central Point, Jackson county.

Von Moltke, the great German soldier, died suddenly of heart disease at Berlin, the 24th inst.

Chauncey M Depew, the great railroad king, says Harrison will be renominated and elected. There, now.

Judge Bird of the seventh judicial district has resigned on account of continued ill health. Governor Penneyer will fill the vacancy.

Republican papers are congratulating Secretary Rush for securing the removal of the embargo placed upon the American hog by Germany. It might be well to bear in mind that the secretary has undertaken this job but not succeeded yet.

United States Senator J M Reagan, of Texas has resigned to accept a position on the Texas railroad commission. Governor Hogg has signified his intention to appoint Horace Chilton to succeed him.

The tariff bill of McKinley was enacted that our laborers might be fully remunerated by good wages. Well, now, there have been more serious strikes in the last three months than for a long time, and all because employers have been reducing wages. It's a sham and a delusion. The real purpose of that bill was to benefit the few protected plutocrats at the expense of laborers and consumers.

The *Freundenblatt* and the *Neue Freie Presse*, published at Berlin in Germany, in commenting upon President Harrison's speech at Galveston, agree that the European Zollverein is the only answer to American protection. The *Freundenblatt* suggests that the European nations look to Africa and the Asiatic colonies for goods which they have hitherto brought from America.

Linn county has fifty-eight school districts and 7141 children of school age. By the apportionment of county school moneys there is a disbursement of \$4.10 per capita. In Marion county the per capita this year is \$4.20; in Multnomah, about \$9; and in Clackamas, only about \$1.70. *Statesman*.

There is still a profound silence among the advocates of a high tariff as a means of making things cheap in the matter of explaining why, if the reduction of the tariff on refined sugars has made that commodity cheaper, the increase of the duties on woolens will also make garments less costly. The plain people of the country understand that the annual cost per citizen of sugar is less than \$3.75, while that of woolen goods is many times that amount. If the McKinleyites can, they should immediately turn their attention to this problem.

The associated press now very kindly informs us that there are \$751,000,000 in the United States treasury of which \$498,000,000 is "trust money held for the redemption of gold, silver and currency certificates, and the balance, \$256,000,000 belongs as absolutely to the treasury as any property which the government owns. Immediately following this despatch comes another telling of Secretary Foster's scheme of issuing new bonds at a lower rate of interest to take the place of the \$43,000,000 of 4 1/2 per cent bonds which become due in September. People will naturally inquire why the secretary does not redeem these bonds in September if there is so much money in the treasury instead of issuing new bonds to take their place. Evidently there is a screw loose somewhere.

President Harrison tells the Texans that the provision of the McKinley law concerning reciprocity is that—

We have placed upon our free list sugar, tea, coffee and hides, and have said to those nations from whom we receive these great staples: "Give us free access to your ports for an equivalent amount of our produce in exchange or we will reimpose duties upon the article named."

The people of Texas are probably aware that tea, coffee and hides have been on the free list for years, and that no party or president would dare to reimpose taxes upon any of these articles, no matter what Brazil or any other country might do in regard to taxing our products. This is not the first time that the president has shown his lack of knowledge as to what the provisions of the tariff law were prior to the passage of the McKinley bill. On another occasion he undertook to say that the McKinley bill put tea, coffee and hides on the free list. His statement was received with a broad smile all over the country.

WALL PAPER, ETC.—I have just received a new line of wall paper and decorations. Have more than doubled my facilities for handling them, and will keep a much larger stock. Wall paper and border to match. Beauties, and much cheaper than ever before. SAMUEL E YOUNG.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cents, 50 cents and \$1. Foshay & Mason, agents.

At the corner of Broadalbin and 1st street you will find G & B's always in the lead in the grocery business.

A new line of window shades from 50 cents to \$1.50 each complete, at Samuel E Young's.

The use of the name "Uncle Sam" for the United States originated during the war of 1812. Samuel Wilson was then a beef inspector at Troy, N Y, from which point large quantities of meat were sent to a government contractor in New York city, Elbert Anderson. Mr Wilson was very popular with his employees, who generally called him Uncle Sam. The boxes of provision were marked "E A U S" and it is said that a joking workman, when asked what these letters meant, said they stood for Elbert Anderson and Uncle Sam. The joke was kept up, and was soon spread by the newspapers through all parts of the country.

An article on the maladies of the Bonapartes shows that all the members of the great Napoleon family have suffered from hereditary arthritis. Napoleon's father died of cancer of the stomach. Napoleon himself, Lucien Bonaparte, Pauline Borgeese and her sister Caroline all died of the same trouble. Prince Pierre, Napoleon III, Prince Napoleon and King Jerome all manifested arthritic symptoms.

Nine years ago Dr Sketchley of California imported the first ostriches from Africa, and from these birds have been bred 468 ostriches now in the state. H B Perry, who runs an ostrich farm in Santa Monica, and has forty-five birds, says that each bird yields \$200 a year, making his gross revenue \$9000; deducting expenses, he has a clear \$3500 on \$15,000 investment.

The following plan is adopted in the Paris Laboratory for testing the comparative durability of paving stones. A sample of the rock is placed upon a horizontal plate rotating around a vertical axis, and pressed against it by suitable contrivances. The wear is then compared with that of a standard material under the same conditions.

The German Empire, by the last census, has forty-nine and a half millions of population, Prussia having of these thirty millions, and the next division, Bavaria, having five and a half millions.

The most unalterable of water colors has been found to be yellow ochre, terra sienna, sepia and blue.

L. E. BLAIN.

PARK ADDITION TO THE TOWN OF LEBANON

This Beautiful Addition to the Town of Lebanon is Now, for the First Time Placed on the Market, at Prices to Suit the Times, and Terms to Suit the People.

We would much prefer that all who wish to purchase lots in this addition, would come and personally inspect the grounds and learn for themselves the many and varied advantages this addition presents to the public. By a personal inspection you will discover the following facts:

Lebanon has a population of 1500. One hundred and twenty-five new substantial houses were built here during the year. The Lebanon and Santiam Canal Company has been incorporated, and work will begin thereon as soon as the necessary preliminaries can be arranged.

This canal will give steady work to hundreds, and will furnish mill-sites for many manufactures, and the town— from this and other advantages— will be a city of 5000 inhabitants. It has nearly doubled its population in the last year. A \$150,000 paper mill is now completed and work will begin therein this July 1st.

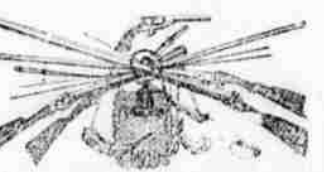

NOW FOR THE PARK ADDITION.

It lies along the route of the Lebanon and Santiam Canal. It is platted with wide level avenues; planted with most beautiful young shade trees; each lot fully large enough for a comfortable residence, and each has a natural drainage. We sell no lots that are unsuitable for building purposes, and give a clear title to each lot. This addition joins the beautiful Isabella Park—from which it derives its name—and which will afford to residents in the addition beautiful recreation grounds. All lots are 66 feet front and from 232 to 185 feet deep.

LET THIS FACT BE REMEMBERED: The price of all these lots will be advanced 25 per cent. after May 15th.

This property will be shown to parties desiring to purchase by J. R. & H. Y. Kirkpatrick, Or by Peterson & Garland, Lebanon, Or.
