

Grange Items.

A regular meeting of Tangent Grange was held on Saturday, April 25th.

The day was rather unfavorable, but at the appointed time there was quite a number of members present.

Two applicants were elected to membership, and still there are others waiting.

The committee appointed some time ago were ordered to purchase a new secretary. Also the committee were ordered to use their own judgment in regard to the purchase of the organ.

Reports were made by the delegates to the Council as to the business transacted on that day.

We intend to hold a basket sociable, under the auspices of Tangent grange, expect to get up a good program and also have a vast amount of fun over the sale of the baskets.

We had an interesting meeting, many good remarks were made by those present. Will hold a called meeting on Friday, May 15th, at 1 o'clock, when the first and second degrees will be conferred upon those who are entitled to them.

The farmers are not all done sowing their spring crops, the present rain has made the ground too wet to plow, and it is also injurious to the fall grain, as it causes it to turn yellow and stops its growth. The cold weather killed most of the blackberry vines, consequently berries will be scarce. I think the peach crop will also be light. Other kinds of fruit are making a good showing.

The Alliance organizer is in Linn county and will probably visit most all the towns, deliver his lectures and organize alliances. There seems to be no salvation for the farmers unless they do become more thoroughly organized and look out for their own interests a little more. Scheming men and the mooned powers are taking every advantage of the working class of people. They have but little else to do but hold their secret meetings and lay their traps to catch the laboring man, and get the largest part of his earnings. This method of business has gone far enough. It must and will be stopped, for there is no justice in allowing such a state of affairs to exist. Why live in a free country and be in bondage? The monopolies have no respect for any one, their object is to look out for their own interests. Then why not the farmers come boldly forward and say we intend to have what is due us.

"German Syrup"

For Throat and Lungs

"I have been ill for about five years, have had the best medical advice, and I took the first dose in some doubt. This resulted in a few hours easy sleep. There was no further hemorrhage till next day, when I had a slight attack which stopped almost immediately. By the third day all trace of blood had disappeared and I had recovered much strength. The fourth day I sat up in bed and ate my dinner, the first solid food for two months. Since that time I have gradually gotten better and am now able to move about the house. My death was daily expected and my recovery has been a great surprise to my friends and the doctor. There can be no doubt about the effect of German Syrup, as I had an attack just previous to its use. The only relief was after the first dose." J. R. LOUGHEAD, Adelaide, Australia.

Baby's Fearful Suffering from Skin Disease Covering Entire Body Cured by Cuticura.

My baby was taken very sick when he was three months old, and in a few days began breaking out. We employed both of the best doctors, and they could do nothing for him. Then we sent for the best doctor in Baton Rouge, Mich., and he gave him a course of medicine, and he got well, but in a few weeks he broke out again, and then he took to his bed, and he was so sick that he could not get up, and he was so weak that he could not walk, and he was so thin that he was like a stick. Then I heard of Cuticura, and I bought it, and I gave him a course of it, and he got well, and he is now as healthy as a horse.

Two months from the time he was taken sick, and he was so weak that he could not walk, and he was so thin that he was like a stick. Then I heard of Cuticura, and I bought it, and I gave him a course of it, and he got well, and he is now as healthy as a horse.
