MINIFITS

The census of England and Wales, just completed, shows a population of 29,000,000, an increase of 8,000,000 the last decade.

The barometer now-a-days is very capricious. It is down one day and up the next, but the wheat is booming and fine crops are promised.

There will be a big crowd of Albany here Saturday, and they are invited to take a look at our improvements and notice our "gait."—Statesman.

A Salem married woman got off this: "Buy a tricycle before you try a bicycle." And now it is in order for the Welcome to pronounce this an old Grecian pun.

An advertisement in a newspaper is what counts because the people who read it, or at least many of them, pay for the paper in which it appears, and they place value on it for that reason. There is a point in it worth considering.

Those who think that the flea on the tail of the dog of the wild men of Boreaco has applied for a pension will be astonished to learn that it is only the wife of the son of a cousin of the president's grandfather who is after it and expects to get it.—Ex.

Fred Reed, who escaped from the Lane county jail in May, 1890, was arrested in Portland today by Deputy Sheriff Cochran. He was engaged in timber land frauds, and there is an indictment against him for obtaining money under false pretenses. He will be brought up tonight.—Guard. This was the fellow Albany police officers had a chase after under the wire works.

Our people are united on the fact that a right is wanted at Albany; but they are not united in location. It is time the quarrel was stopped and harmonious action taken. Bids for a high steel bridge at Calapooia street will be opened on Saturday, when the future of the bridge question can best be told. It is confidently claimed the bids will be much less than generally estimated.

The Oregon Scout of Union gives a neighbor the following timely bit, which should be a warning to all cities not run in a business way: "The city council of Baker City has entered into a contract with a company to put in a system of electric fire alarms, to cost about \$1200. This action does not seem to meet the approval of a number of the heaviest taxpayers who have to foot the bill. Baker scrip is worth about 50 cents on the dollar and the monthly revenue is much smaller than the expenditure. From all appearances the city is fast nearing bankruptcy, and we do not blame the taxpayers for making a kick at the extravagant manner in which the city government is carried on."

DR. DARRIN FALLS.

Owing to the dull times Dr Darrin generously offers to treat all patients free of charge between the hours of 10 and 11 a m daily and those able and willing to pay at half his original rates. The afflicted will do well to make a note of this generous offer and apply at once as these rates will last only for a limited time. The doctor's fall in prices is not only a boon to the poor but will be appreciated by thousands unable to pay large fees. A reporter had occasion to visit the doctor's office recently and was amazed at the reports of patients waiting their turn to consult the doctor. One case in particular came to our ear, well worthy of notice. His name is M W Karrison, of San Francisco, now stopping at the Depot Hotel, this city. He came for electric treatment, about May 16, for kidney trouble, catarrh of the bladder and diabetes of long standing, having tried all the schools of practice to no purpose. He was cured in one month and told us his sister was cured in San Francisco five years ago by Dr Darrin of a loathsome scrofulous affliction and had never seen a return of her complaint. Many other gave their experience with Dr Darrin and all with one accord were loud in his praise. The doctor's mode of treatment is peculiar to himself and strikingly successful. These cures are principally done by electricity and magnetism, medicine being given when necessary. Head office 704 Washington street, Portland, Or, branch office at Sargent's hotel, Aberdeen, Wash. Examination at the office or by letter free and confidential. Hours 10 a m to 8 p m daily. Question blanks and circular sent free. Dr. Darrin treats all curable private, chronic and nervous diseases, seminal weakness, secret blood and skin diseases, nervous debility, impotency and other weaknesses of manhood.
