The Road to Wealth

It cannot be successfully traveled without good health. To reach wealth or any coveted position in life requires the full possession and operation of all the faculties that nature has endowed us with. These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, the obstructed circulation, causing indigestion and dyspepsia, with all of their accompanying horrors.

DR. HENLEY'S English Blandton Tonic

Exerts a powerful influence over the liver, cools it - healthy action, resolves its chronic enlargements, and promotes the secretions; cures indigestion and constipation, sharpens the appetite, tones up the entire system, and makes life worth living.

SCIENTIFIC CRANES.
Every time we strike a match, says the Aluminum Age, we are indebted to the men who have studied science for the more "love of it. The men that worked away at coal for "just to see what was in it" made the whole world their debtors by discovering aluminum, the coloring principle of madder. And to these men the world is indebted also for aniline, antipyrine and more than 100 other coal tar products. Scientists, wondering what was in crude petroleum, found paraffine and vaseline. Pastur wondering what caused fermentation. He found out and brought a new era to wine making. The singing and dancing of the teakettle attracted the attention of a brain and we have as a consequence all the applications of steam. The swinging of a chandelier in an Italian cathedral before the eyes of young Galileo was the beginning of a train of thought that resulted in the invention of the pendulum, and through it to the perfecting of the measurement of time, and thus its application and use in navigation, astronomical observations, and in a thousand ways we now pass by unnoted, has been of such practical value that the debt to scientific thought, even in this one instance, can never be known. Science, in its study of abstract truth, is ever giving to man new beginnings. While the devil is engaged in finding mischief for idle hands to do science is eternally at work finding something useful for them to do.

TELEGRAPHIC NEWS

A Family Affair.

LEWISBURG, Tenn., June 25.—A fight Sunday between some members of the Farmer and Taylor families, living near Cochrane, resulted in old man Farmer swearing out a warrant for John Taylor. The trial took place yesterday, and the relatives of both parties were there. The suit was satisfactorily settled and all were starting home when hot words between Nan Nix and John Taylor resulted in Nix shooting Taylor. The latter drew a knife and cut Nix in several places. The relatives of both parties were soon on the ground and a regular pitched battle ensued, in which rocks, knives, sticks and pistols were used. John Taylor, Tom Taylor and Bine Taylor were fatally wounded. Fount McConnell, J. T. Longen and Nan Nix were seriously wounded. Miss Nora Alexander, who ran out to quiet her brother, was painfully injured.

Parnell and O'Shea.

LONDON June 25.—It is learned that the marriage of Parnell and Mrs O'Shea took place at 10 o'clock this morning. The only witnesses to the ceremony were two servants from Mrs O'Shea's house. The registrar was strictly enjoined not to give any information about the marriage, and promised to preserve the closest secrecy. Parnell's marriage has caused a great deal of gossip. It is said that there will be no extended honeymoon. The lady's daughters were not present at the marriage.

Why Sugar Advanced.

NEW YORK, June 25.—In relation to the advance of 1/2 cent per pound in the price of raw sugar, Treasurer Scaries, of the Havemeyer Refining Company, said this morning that the rise was not unexpected as there is always a demand for more sugar at this time of the year than in any other. The rumor that the sugar trust is forcing the price of sugar because it secured control of most of the sugar crop is absolutely denied by Scaries.

A Tragic Death.

VIENNA, June 25.—Medical Student Hermann Fischer, 25 years of age, was yesterday sentenced to a long term of imprisonment on a grave charge. When judgement was being pronounced the prisoner exclaimed: "I charge the judge with the willful murder of an innocent man." Then drawing from his clothing a long dissecting knife, he plunged it into his breast and died in the courtroom, cursing his legal murderers.

A Long Bicycle Tour.

HELENA, Mont, June 25.—G. A. Gilpatrick and Henry Dabrick, left Helena at 1 o'clock this afternoon on a bicycle trip to Chicago. Two hundred or more people assembled at the court house square and gave the young men an enthusiastic send off. A delegation of Helena wheelmen accompanied them several miles out of town. Both rode large wheels.

A Big Advance.

PORTLAND, June 25.—When Dan Sprague went out of office as county jailer, two years ago, he went over on the east side and began clearing up his forty-acre tract between the Sandy and Mount Taylor roads, that cost him six years ago \$4400. He was in town yesterday showing his friends a check for \$5000 he had just received for five acres of it.
