THE CONTRACT LET.

The County Makes a Liberal Appropriation, and the Bridge Will be Built.

It has been decreed that we will have a bridge! After the DEMOCRAT was out yesterday evening the county court made an appropriation of \$40,000 towards the construction of a bridge across the Willamette at Albany...

The bridge adopted will consist of four spans and two approaches. The south approach will begin at the north line of First street, at Calapooia, and will strike the first pier 300 feet north...

The bridge selected is one that will be a credit to Albany, a high steel structure of good architecture. The plans for this particular bridge were also made with a view to the navigation of the Calapooia to the Magnolia mills...

The stimulus this movement will give to Albany can hardly be estimated. It will build up the whole city, regardless of location, and will add many percent to the commercial interests of the city.

There is general rejoicing over the result, even by people who would have chosen a different location, for it means much to the business man, laborer, capitalist, property-owner, everybody.
